

**Question for written answer P-006693/2016  
to the Commission**

Rule 130

**Christine Revault D'Allonnes Bonnefoy (S&D)**

Subject: Definition of normal vehicle use

Regulation (EC) No 715/2007 of the European Parliament and of the Council of 20 June 2007 on type approval of motor vehicles with respect to emissions from light passenger and commercial vehicles (Euro 5 and Euro 6) and on access to vehicle repair and maintenance information contains a number of references to 'normal conditions of use'. Article 5 concerning compliance with vehicle emission limits also refers to 'normal use'.

1. Can the Commission clarify what it understands by 'normal conditions of use' and 'normal use'?
2. Failing this, can it clarify what constitutes 'abnormal' use?
3. If it is unable to define either term, can it explain why no such definitions exist?
