(30.6.2017)

The Valdastico Nord motorway project, linked to the Brescia-Padova motorway concession, was the object of infringement procedure 2006/4378. That infringement procedure was closed in October 2009 based on commitments proposed by the Italian authorities, including on the relevant timeframes relating to the project

The Commission services are aware that the Valdastico Nord project has not been adopted yet and are in contact with the Italian authorities on the issue.
