

**Question for written answer P-004851/2017
to the Commission**

Rule 130

Cătălin Sorin Ivan (S&D)

Subject: Directive 2014/40/EU - governing body for distribution of tobacco products

Is it true that the Commission is proposing to set up a new central European agency, namely a governing body that will centralise the entire distribution of tobacco products?

If this is not the case, is the Commission indeed proposing to set up a body, and if so, what would its competences be and what would its competences be?
