

**Question for written answer P-004256/2018
to the Commission**
Rule 130
Richard Sulík (ECR)

Subject: Inadequate response to question P-003926/2018

Parliamentary question P-003926/2018 described a specific situation whose compliance with EU law I asked the Commission to assess. Whether or not a proposal for a national standard could be the subject of a parliamentary question was not relevant to my proposal, as I did not ask for an assessment of the proposal for a national standard as a whole, but rather for an assessment of the section of the proposal I described in detail. Although I asked specific questions, the Commission referred in its reply to a single provision of a related regulation without further interpretation or drawing conclusions from the situation, and without answering a single one of my questions.

In view of the above, I do not consider the answer to question P-003926/2018 to be adequate, and I would ask the Commission to provide specific answers to the specific questions raised in question P-003926/2018:

Would the national law described in question P-003926/2018 be compatible or at odds with EU law?

If so, to what extent?

Could the wording set out therein be contrary to the judgment of the Court of Justice in Case C-115/13?
