Subject: Utilisation of existing funding and reallocation of unused funding from EU funds in Croatia

Croatia has been allocated a total of approximately EUR 10.7 billion from EU funds during the current financial year, with EUR 8.448 billion for the cohesion policy objectives for the period 2014-2020. Of this amount, approximately EUR 1.7 billion had been utilised by December 2018.

1. How much of the funding that remained unspent by the end of 2018, for which prior approval has been given by the Monitoring Committee for the Operational Programme and the Commission, will Croatia have at its disposal in 2019 and 2020?
2. How much of the unspent funding available to Croatia will the Commission reallocate for the other priority axes, including the 6% reserve?
3. Within what deadline will Croatia be notified of this?
