Miscellaneous

The rapporteur proposed the following oral amendment to § 4;

"4. Stresses that no activities should be outsourced to PSCs that would imply the use of force and/or active participation in hostilities, except for self-defence; and under no circumstances should PSCs be allowed to take part in, or conduct interrogations; stresses that, in the field of EU security and defence, the priority should be to strengthen national armed forces, to which PSC can only be a complement without any authority over strategic decisions; highlights the fact that any participation by private security companies in military operations must be justified, with clearly-defined objectives that can be verified using tangible indicators, have a fully-detailed budget and a specific start and end date, and be governed by a strict code of ethics; points out that the work of the armed forces and security forces abroad is of fundamental value in peace-keeping and conflict prevention, as well as in the social reconstruction and national reconciliation that follows;"
