Development of Vocational Training, the European Training Foundation, the European Monitoring Centre on Racism and Xenophobia and the European Food Safety Authority,

- 1. Recalls that, under Article 185 of the Financial Regulation, Parliament shall give discharge for the implementation of the budgets of the bodies set up by the Communities and having legal personality which actually receive grants charged to the budget; points out, however, that not all of these bodies are fully, or even partially, funded via grants charged to the budget; emphasises that the discharge decision therefore covers both the budget and the non-budget funding of these bodies; considers it unacceptable that some of the bodies set up by the Union are accountable for the expenditure of income received from sources other than the budget whilst others, which do not receive a subsidy from the budget, are not; affirms the principle that all Community agencies, whether or not they are subsidised, are subject to discharge by Parliament, even when another discharge authority intervenes in accordance with their basic texts; takes the view that there is a need to review all texts that go against this principle;
- 2. Finds table 1 of the Court of Auditors' report, introduced for the first time during the 2003 discharge exercise, which summarises the Agency's powers and responsibilities, governance, resources, activities and services provided, of great value; notes that the information contained in table 1 is supplied by the Agency; asks the Court of Auditors to verify the contents of table 1;
- 3. Insists that as well as spending money properly, agencies should also strive to spend money as efficiently and effectively as possible; invites the Court of Auditors to consider the possibility of extending its specific annual reports on the agencies to include an examination of performance and achievement of objectives; in this context and in line with its resolutions on the 2003 discharge, insists that the following aspects be taken into account: that duplication of work among the agencies must be avoided as much as possible and that measures designed to improve transparency and communication with the public must be clarified, along with Community affirmative action measures at all levels of recruitment, training and the assignment of responsibilities;
- 4. Notes that Community agencies do not always have a good image or good press and that many of them do not deserve such a negative image; points out that EU citizens should be made aware of this via, with appropriate means being used to explain as often as is necessary the raisons d'être and achievements of the agencies; calls on the Commission to act accordingly, using whatever means it considers necessary;
- 5. Notes that the enlargement of the European Union in 2004 has affected the structures and operating arrangements of the Community agencies in many ways, and that several of the agencies draw attention to these effects in their activity reports, focusing in particular on the increase in the number of administrators; calls on the Commission to assess the real or supposed problems encountered and to recommend the regulatory changes required;
- 6. Notes that the Commission has made a commitment to harmonising the way in which activity reports concerning its directorates-general are presented; calls for a similar approach to be taken in respect of the activity reports of the Communities' agencies, which differ significantly in terms of content; calls on the Commission to point out to the Communities' agencies the information and activity indicators that they must provide;
- 7. Welcomes the reduction in carry-overs achieved; encourages the Agency to continue its

- efforts to further reduce carry-overs;
- 8. Urges the Agency to put in place detailed rules for the implementation of its new financial regulation and internal control procedures based on risk analysis as soon as possible;
- 9. Insists that the Agency respect the rules concerning the duration of framework contracts;
- 10. Expects the Agency, in future, to include negative balances at year end in amending budgets for the following financial year;
- 11. Calls on the Commission to help the agencies follow as closely as possible the work plan agreed for the year ahead, allowing activities to be properly planned and implemented, and particularly to avoid major, last-minute changes to the work load;
- 12. Asks the Commission to improve synergies between agencies by making cooperation more effective, avoiding duplication of work and addressing shortcomings, in particular as regards common areas such as training, the implementation of Community policies across the board, the use of the latest management systems and solving problems relating to sound management of the budget.
