| | ECON 1 | as an addition at the end of Paragraph 18 | + | |
| | | if adopted, go to ENVI 14 | | |
| | ENVI 1 | as an addition at the end of Paragraph 18 | | |
| Paragraph 18 a (new) | ENVI 14 | | _ | |
| DRAFT REPORT AS A WHOLE | | | + | |

Compromise Amendments 1-8

Compromise 1 (covers ENVI C, ECON A)

Da (new): whereas delegated acts will have important implications in many areas; whereas it is therefore of paramount importance, in particular with regard to delegated acts, that they are developed and decided upon in a fully transparent manner which effectively enables the co-legislators to democratically control the exercise of the power delegated to the Commission, including by public debate in Parliament, where necessary,

Compromise 2 (covers am 2, ENVI B)

Db (new): whereas Parliament should be on an equal footing with the Council with respect to all aspects of the power of legislative delegation,

Compromise 3 (covers am 12, ENVI 6, ECON 7)

7. Believes, however, that the vast majority of situations requiring the speedy adoption of delegated acts could be dealt with by a *flexible* procedure for early non-objection by Parliament and the Council, following a request by the Commission in duly justified cases;

Compromise 4 (covers am 17, 18, 19, ECON 2, ECON 3, ENVI 8)

10. Considers that certain practical arrangements (*deletion*) could be better *coordinated* in a Common Understanding between the institutions, *which may take the form of an inter-institutional agreement*, covering *inter alia*:

Compromise 5 (covers ams 20, 22, 23, 24, ECON 5, ENVI 7, ENVI 10)

- 11. Stresses that, when preparing and drawing-up delegated acts, the Commission must
- -ensure an early and continuous transmission of information and relevant documents to Parliament's relevant committees, including successive drafts of delegated acts and any contributions received; to this end, the current comitology register could be used as a model for an improved digital information system,
- -give Parliament access to related preparatory meetings, exchanges of views and consultations;

Compromise 6 (covers ams 25, 26, ECON 8)

12. Is of the opinion that the exchange of information prior to a revocation should take place as a matter of transparency, courtesy and loyal cooperation between the institutions concerned *thereby ensuring that all institutions are fully aware of the possibility of revocation in good time*; however, deems it redundant and confusing to introduce a specific *legal* obligation *in basic acts* requiring a statement of reasons for the adoption of certain legal acts in addition to the general requirement laid down in Article 296 TFEU which is applicable to all legal acts;

Compromise 7 (covers am 27, ENVI 4)

13. Proposes that a minimum period for objection be fixed in any future Common Understanding, it being made clear that this should be understood not as a straightjacket but merely as a minimum below which Parliament's democratic control would become nugatory; considers that the minimum period for objection should be two months, with a possibility of its being extended by a further two months at the initiative of Parliament or the Council; *recalls that a longer period for objection can be set depending on the nature of the delegated act;*

Compromise 8 (covers ams 32, 33, 34, ECON 13)

18. Considers that in order to fully preserve the Legislator's prerogatives, special attention should be given to the relative use of Articles 290 and 291 TFEU and to the practical consequences of having recourse to one article or the other, be it during the above-mentioned alignment or when dealing with proposals under the ordinary legislative procedure;
