Joint Statement of the Netherlands, the United Kingdom and Sweden on the discharge of the 2012 general budget of the European Union.

Dear Sir,

Please find enclosed a joint statement of the Netherlands, the United Kingdom and Sweden on the discharge to be given to the Commission in respect of the implementation of the general budget of the European Union for the financial year 2012. We hope that the European Parliament will take this statement, alongside the Council's wider recommendations, into full account when deliberating on this year's discharge procedure.

Jeroen Dijsselbloem
Minister of Finance of
The Netherlands

Nicky Morgan MP
Economic Secretary to the
Treasury of the United
Kingdom

Anders Borg
Sweden's Minister
for Finance

Joint Statement on the Discharge of the 2012 EU Budget

With reference to:

The European Court of Auditors' annual report on implementation of the 2012 EU budget;

Discharge to be given to the Commission in respect of the implementation of the EU budget for the financial year 2012; and

Draft Council recommendations as in 5848/14 FIN 71 PE-L 6 + ADD 1;

The United Kingdom, the Netherlands and Sweden

Strongly regret that, for the nineteenth successive year, the European Court of Auditors has been unable to grant an unqualified statement of assurance on the EU budget as a whole and that the overall error rate in recent years has increased to 4,8 %, being significantly above the acceptable threshold of 2 %;

Stress the necessity of preventing further increases in the error rate, whilst agreeing that the credibility of EU spending depends crucially on improvements to financial management by all involved in the use of EU funds;

Reiterate the importance of independent EU-level audit of EU funds and firmly support the work of the European Court of Auditors;

Urge the Commission to take the opportunity of the new Multiannual Financial Framework and the revised Financial Regulation to launch initiatives to significantly reduce the error rates, including by taking further steps to simplify and clarify the regulatory framework in order to enhance compliance, and issuing guidance to facilitate a universal interpretation given the challenges created by the complexity of existing rules;

Note that around 80 percent of the EU budget is spent under the system of 'shared management' by Member States;

Reiterate the importance of Member States taking full responsibility for putting in place effective and efficient control mechanisms for the management of EU funds at a national level, more specifically in view of the revised Financial Regulation containing new and additional control and reporting obligations;

Call upon Member States and the European Commission to ensure a prompt implementation of these new reporting obligations when due;

Stress that transparency is an important element of accountability and therefore call upon Member States to publish the annual summaries of audits and management statements following the invitation to this end in the revised Financial Regulation;

Urge the Commission to continue to strive for an efficient financial management, including strict application of financial corrections and recoveries;

Invite the Commission to facilitate the use of standardised cost instruments;

Encourage the Commission to continue to publish its Annual Activity Reports and other comprehensive reports in such a way as to provide European citizens with accessible and comparable data on the performance, legality and regularity of EU spending in Member States;

Affirm, like the Court of Auditors, the importance of quality in EU spending and call upon the Commission to take further steps to monitor and enhance the European added value of interventions financed from EU funds.
