Deployment of the eCall in-vehicle system

(Ordinary legislative procedure: first reading)

The European Parliament,

– having regard to the Commission proposal to Parliament and the Council (COM(2013)0316),

– having regard to Article 294(2) and Article 114 of the Treaty on the Functioning of the European Union, pursuant to which the Commission submitted the proposal to Parliament (C7-0174/2013),

– having regard to Article 294(3) of the Treaty on the Functioning of the European Union,

– having regard to the opinion of the European Economic and Social Committee of 19 September 2013¹,

– having regard to Rule 55 of its Rules of Procedure,

– having regard to the report of the Committee on the Internal Market and Consumer Protection and the opinions of the Committee on Civil Liberties, Justice and Home Affairs, the Committee on Industry, Research and Energy and the Committee on Transport and Tourism (A7-0106/2014),

1. Adopts its position at first reading hereinafter set out;

2. Calls on the Commission to refer the matter to Parliament again if it intends to amend its proposal substantially or replace it with another text;

3. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

¹ OJ C 341, 21.11.2013, p. 47.
Amendment 1
Proposal for a regulation
Title 1

Text proposed by the Commission

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL concerning type-approval requirements for the deployment of the eCall in-vehicle system and amending Directive 2007/46/EC

(Text with EEA relevance)

Amendment

Proposal for a regulation

Amendment 2
Proposal for a regulation
Recital 2 a (new)

Text proposed by the Commission

(2a) The deployment of an eCall service available in all vehicles and in all Member States has been one of the high Union priorities in the area of road safety since 2003. To achieve that objective, a series of initiatives have been launched, as part of a voluntary deployment approach, but have not achieved sufficient progress to date.

Amendment

Proposal for a regulation
Recital 3

Text proposed by the Commission

(3) In order to further improve road safety, the Communication ‘eCall: Time for Deployment’ proposes new measures to accelerate the deployment of an in-vehicle emergency call service in the Union. One of the suggested measures is to make mandatory the fitting of eCall in-vehicle systems in all new vehicles starting with

Amendment

(3) In order to further improve road safety, the Commission Communication of 21 August 2009 entitled: ‘eCall: Time for Deployment’ proposes new measures to deploy an in-vehicle emergency call service in the Union. One of the suggested measures is to make mandatory the fitting of 112-based eCall in-vehicle systems in
M1 and N1 vehicle categories as defined in Annex II to Directive 2007/46/EC.

---

Amendment 4

Proposal for a regulation
Recital 4 a (new)

_text proposed by the Commission_

(4a) It is still necessary to improve the operation of the 112 service throughout the Union, so that it provides assistance swiftly and effectively in emergencies.

Amendment 5

Proposal for a regulation
Recital 5

_text proposed by the Commission_

(5) The Union eCall system is expected to reduce the number of fatalities in the Union as well as the severity of injuries caused by road accidents. The mandatory introduction of the eCall system would make the service available to all citizens and thus contribute to reduce human suffering and healthcare and other costs.

Amendment 6

Proposal for a regulation
Recital 5 a (new)

(5) The Union eCall system is expected to reduce the number of fatalities in the Union as well as the severity of injuries caused by road accidents, thanks to the early alert of the emergency services. The mandatory introduction of the 112-based eCall in-vehicle system, together with the necessary and coordinated infrastructure upgrade in electronic communication networks for conveying eCalls and Public Safety Answering Points (PSAPs) for receiving eCalls, would make the service available to all citizens and thus contribute to the reduction of fatalities and severe injuries, of costs relating to healthcare, of congestion caused by accidents and of other costs.
(5a) The eCall system will represent an important structure composed of multiple actors dealing with the safety of lives. Therefore it is essential that the liability aspect is covered by this Regulation in order to enable users to have full confidence and the eCall system to run smoothly.

Amendment 7

Proposal for a regulation

Recital 6

(6) The provision of accurate and reliable positioning information is an essential element of the effective operation of the eCall in-vehicle system. Therefore, it is appropriate to require its compatibility with the services provided by satellite navigation programmes, including the systems established under the Galileo and EGNOS programmes set out in Regulation (EC) No 683/2008 of the European Parliament and of the Council of 9 July 2008 on the further implementation of the European satellite navigation programmes (EGNOS and Galileo)\(^8\).

Amendment 8

Proposal for a regulation

(6) The provision of accurate and reliable positioning information in emergencies is an essential element of the effective operation of the 112-based eCall in-vehicle system. Therefore, it is appropriate to require its compatibility with the services provided by satellite navigation programmes, in particular the systems established under the Galileo and EGNOS programmes as set out in Regulation (EU) No 1285/2013 of the European Parliament and of the Council\(^8\).

Recital 7

Text proposed by the Commission

(7) The mandatory equipping of vehicles with the eCall in-vehicle system should initially apply only to new passenger cars and light commercial vehicles (categories M1 and N1) for which an appropriate triggering mechanism already exists.

Amendment

(7) The mandatory equipping of vehicles with the 112-based eCall in-vehicle system should initially apply only to new types of passenger cars and light commercial vehicles (categories M1 and N1) for which an appropriate triggering mechanism already exists. The possibility of extending the application of the 112-based eCall in-vehicle system requirement in the near future to include other vehicle categories, such as heavy goods vehicles (HGVs), buses and coaches, powered two-wheelers (PTW) and agricultural tractors, should be further assessed by the Commission with a view to presenting, if appropriate, a legislative proposal.

Amendment 9

Proposal for a regulation
Recital 7 a (new)

Text proposed by the Commission

(7a) The equipping of vehicles of existing types to be manufactured after 1 October 2015 with the 112-based eCall in-vehicle system should be promoted in order to increase penetration. In respect of types of vehicles type-approved before 1 October 2015, an eCall system may be retrofitted on a voluntary basis.

Amendment

(7a) The equipping of vehicles of existing types to be manufactured after 1 October 2015 with the 112-based eCall in-vehicle system should be promoted in order to increase penetration. In respect of types of vehicles type-approved before 1 October 2015, an eCall system may be retrofitted on a voluntary basis.

Amendment 10

Proposal for a regulation
Recital 7 b (new)

Text proposed by the Commission

(7b) The public interoperable Union-wide eCall service based on the single European emergency call number 112 ("emergency number 112") and private eCall services (third party service supported eCall systems) can coexist
provided that the measures necessary to ensure continuity in the provision of the service to the consumer are adopted. In order to ensure continuity of the public 112-based eCall service in all Member States throughout the lifetime of the vehicle and guarantee that the public 112-based eCall service is always automatically available, all vehicles should be equipped with the public 112-based eCall service, regardless of whether or not a vehicle buyer opts for a private eCall service.

Amendment 11
Proposal for a regulation
Recital 7 c (new)

*Text proposed by the Commission*

(7c) Consumers should be provided with a realistic overview of the 112-based eCall in-vehicle system and of the private eCall system, if the vehicle is equipped with one, as well as comprehensive and reliable information regarding any additional functionalities or services linked to the private emergency service, in-vehicle emergency or assistance-call applications on offer, and regarding the level of service to be expected with the purchase of third party services and the associated cost. The 112-based eCall is a public service of general interest and should therefore be accessible free of charge to all consumers.

Amendment 12
Proposal for a regulation
Recital 8

*Text proposed by the Commission*

(8) The mandatory equipping of vehicles with the eCall in-vehicle system should be without prejudice to the right of all stakeholders such as car manufacturers and independent operators to offer additional...
emergency and/or added value services, in parallel with or building on the 112-based eCall in-vehicle system. However, these additional services should be designed not to increase driver distraction.

Amendment 13
Proposal for a regulation
Recital 9

Text proposed by the Commission

(9) In order to ensure open choice for customers and fair competition, as well as encourage innovation and boost the competitiveness of the Union’s information technology industry on the global market, the eCall in-vehicle system should be accessible free of charge and without discrimination to all independent operators and based on an interoperable and open-access platform for possible future in-vehicle applications or services.

Amendment

(9) In order to ensure open choice for customers and fair competition, as well as encourage innovation and boost the competitiveness of the Union’s information technology industry on the global market, the 112-based eCall in-vehicle system should be based on an interoperable, open-access, secured and standardised platform for possible future in-vehicle applications or services. As this requires technical and legal back-up, the Commission should assess without delay, on the basis of consultations with all stakeholders involved, including vehicle manufacturers and independent operators, all possibilities to promote and ensure such an open-access platform and, if appropriate, put forward a legislative proposal to that effect. Further clarifications should be provided on the conditions under which third parties providing added value services can have access to data stored in the 112-based in-vehicle system. Furthermore, the 112-based eCall in-vehicle system should be
accessible free of charge and without discrimination to all independent operators for repair and maintenance purposes.

Amendment 14
Proposal for a regulation
Recital 9 a (new)

Text proposed by the Commission

Amendment

(9a) The introduction of any additional in-vehicle application or service should not delay the entry into force and the application of this Regulation.

Amendment 15
Proposal for a regulation
Recital 10 a (new)

Text proposed by the Commission

Amendment

(10a) The 112-based eCall in-vehicle system, as an emergency system, requires the highest possible level of reliability. The accuracy of the minimum set of data and of the voice transmission and quality should be ensured, and a uniform testing regime should be developed to ensure the longevity and durability of the 112-based eCall in-vehicle system. Periodic technical inspections should therefore be carried out regularly in accordance with Regulation (EU) No .../....of the European Parliament and of the Council 1a*. Detailed provisions for the testing should be included in the relevant Annex thereof.

*OJ: Please insert the number of the Regulation contained in doc. 2012/0184(COD) and complete the
Amendment 16
Proposal for a regulation
Recital 11

Text proposed by the Commission

(11) Small series vehicles are excluded under Directive 2007/46/EC from the requirements on the protection of occupants in the case of frontal impact and side impact. Therefore, those small series vehicles should be excluded from the obligation to comply with the eCall requirements.

Amendment

(11) Small series vehicles are excluded under Directive 2007/46/EC from the requirements on the protection of occupants in the case of frontal impact and side impact. Therefore, those small series vehicles should be excluded from the obligation to comply with the eCall requirements set out in this Regulation.

Amendment 17
Proposal for a regulation
Recital 12

Text proposed by the Commission

(12) Special purpose vehicles should be subject to compliance with the eCall requirements set out in this Regulation, unless type-approval authorities consider, on a case by case basis, that the vehicle cannot meet those requirements due to its special purpose.

Amendment

deleted

Amendment 18
Proposal for a regulation
Recital 13

Text proposed by the Commission

(13) According to the recommendations made by the Article 29 Data Protection Working Party and contained in the 'Working document on data protection and privacy implications in eCall initiative', adopted on 26 September 2006\(^9\), any processing of personal data through the eCall in-vehicle system should comply with the personal data

Amendment

(13) Directive 95/46/EC of the European Parliament and of the Council\(^{10}\), Directive 2002/58/EC of the European Parliament and of the Council\(^{11}\) and Articles 7 and 8 of the Charter of Fundamental Rights of the European Union\(^{11a}\) govern the processing of personal data carried out in the context of this Regulation. Any processing of data through the 112-based
protection rules provided for in Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data\textsuperscript{10} and in Directive 2002/58/EC of the European Parliament and of the Council of 12 July 2002 concerning the processing of personal data and the protection of privacy in the electronic communications sector (Directive on privacy and electronic communications)\textsuperscript{11}, in particular to guarantee that vehicles equipped with eCall in-vehicle systems, in their normal operational status related to 112 eCall, are not traceable and are not subject to any constant tracking and that the minimum set of data sent by the in-vehicle eCall system includes the minimum information required for the appropriate handling of emergency calls.

eCall in-vehicle system should therefore be carried out in accordance with these Directives and under the supervision of the Member States' competent authorities, in particular the independent public authorities designated by the Member States pursuant to those Directives, in particular to guarantee that vehicles equipped with 112-based eCall in-vehicle systems, in their normal operational status related to 112 eCall, are not traceable and are not subject to any constant tracking and that the minimum set of data sent by the in-vehicle eCall system includes only the minimum information required for the handling of emergency calls by PSAPs, and that no personal data is stored after that. Given the consent of the data subject or a contract between both parties, other conditions may apply in case another emergency call system is installed in the vehicle in addition to the 112-based eCall in-vehicle system, but it should nevertheless comply with those Directives.

\textsuperscript{9} 1609/06/EN – WP 125.

\textsuperscript{10} OJ L 281, 23.11.1995, p.31.

Amendments 19 and 90
Proposal for a regulation
Recital 13 a (new)

Text proposed by the Commission

(13a) This Regulation takes into account the recommendations made by the Article 29 Working Party established by Directive 95/46/EC in its 'Working document on data protection and privacy implications in eCall initiative' of 26 September 2006¹.

¹ 1609/06/EN - WP 125.

Amendment 20
Proposal for a regulation
Recital 13 b (new)

Text proposed by the Commission

(13b) When complying with technical requirements, vehicle manufacturers should integrate technical forms of data protection into in-vehicle systems and should comply with the principle of 'privacy by design'.

Amendment 21
Proposal for a regulation
Recital 15

Text proposed by the Commission

(15) In order to ensure the application of common technical requirements regarding the eCall in-vehicle system, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of the detailed rules on the application of the relevant standards, on testing, on personal data and privacy protection and on exemptions for certain vehicles or classes of vehicles of categories M1 and N1. It is of particular importance

(15) In order to ensure the application of common technical requirements regarding the 112-based eCall in-vehicle system, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of the detailed rules on the application of the relevant standards, on testing, on personal data and privacy protection and on exemptions for certain vehicles or classes of vehicles of categories M1 and
that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council

Amendment 22

Proposal for a regulation
Recital 16

Text proposed by the Commission

(16) Vehicle manufacturers should be allowed sufficient time to adapt to the technical requirements of this Regulation.

Amendment

(16) Vehicle manufacturers should be allowed sufficient time to adapt to the technical requirements of this Regulation and the delegated acts adopted pursuant to this Regulation in order to be able to carry out the necessary studies and tests under various conditions, as required, and thus ensure that the 112-based eCall in-vehicle system is fully reliable.

Amendment 23

Proposal for a regulation
Article 2 – paragraph 1 a (new)

Text proposed by the Commission

This Regulation shall not apply to small series vehicles.

(Alignment with Recital 11 and point (3)(b) of the Annex.)

Amendment 24

Proposal for a regulation
Article 3 – introductory part

Text proposed by the Commission

For the purpose of this Regulation and in

Amendment

For the purpose of this Regulation and in
addition to the definitions laid down in Article 3 of Directive 2007/46/EC and in Article 2 of Commission Delegated Regulation (EU) No 305/2013[^12], the following definitions shall apply:

**Amendment 25**

Proposal for a regulation

Article 3 – point 1

*Text proposed by the Commission*

(1) ‘e-Call in-vehicle system’ means a system activated either automatically via in-vehicle sensors or manually, which carries, by means of mobile wireless communications networks, a standardised minimum set of data and establishes a 112-based audio channel between the occupants of the vehicle and a public safety answering point;

*Amendment*

(1) '112-based eCall in-vehicle system' means an emergency system, comprising in-vehicle equipment and the means to trigger, manage and enact the eCall transmission, that is activated either automatically via in-vehicle sensors or manually, which emits signals by means of a public mobile wireless communications networks, to enable the transmission of a standardised minimum set of data and the establishment of a 112-based audio channel between the occupants of the vehicle and the appropriate public safety answering point;

(Horizontal amendment: if adopted, the references to "eCall in-vehicle system" will be replaced with "112-based eCall in-vehicle system" throughout the text)

**Amendments 26 and 80**

Proposal for a regulation

Article 3 – point 2

*Text proposed by the Commission*

(2) ‘in-vehicle system’ means the in-vehicle equipment together with the means to trigger, manage and effect the eCall transmission via a public mobile wireless communications network providing a link between the vehicle and a means of enacting the eCall service via a

*Amendment*

deleted
public mobile wireless communications network.

Amendment 27
Proposal for a regulation
Article 3 – point 2 a (new)

Text proposed by the Commission

Amendment

(2a) 'eCall' means an in-vehicle emergency call to 112, made via the 112-based eCall in-vehicle system;

Amendment 28
Proposal for a regulation
Article 3 – point 2 b (new)

Text proposed by the Commission

Amendment

(2b) 'public safety answering point' or 'PSAP' means a physical location where emergency calls are first received under the responsibility of a public authority or a private organisation recognised by the Member State concerned;

Amendment 29
Proposal for a regulation
Article 3 – point 2 c (new)

Text proposed by the Commission

Amendment

(2c) 'minimum set of data' or 'MSD' means the information defined by the standard 'Road transport and traffic telematics — eSafety — eCall minimum set of data (MSD)' (EN 15722) which is sent to the eCall PSAP;

Amendment 30
Proposal for a regulation
Article 3 – point 2 d (new)

Text proposed by the Commission

(2d) ‘in-vehicle equipment’ means equipment permanently installed within the vehicle that provides or has access to the in-vehicle data required for the minimum set of data (MSD) to perform the eCall transaction via a public mobile wireless communications network;

Amendment 31

Proposal for a regulation

Article 3 – point 2 e (new)

Text proposed by the Commission

(2e) ‘public mobile wireless communications network’ means mobile wireless communications network available to the public in accordance with Directives 2002/21/EC\(^{1a}\) and 2002/22/EC\(^{1b}\) of the European Parliament and of the Council;

Amendment 32

Proposal for a regulation

Article 4

Text proposed by the Commission

Manufacturers shall demonstrate that all

Manufacturers shall demonstrate that all
new types of vehicles referred to in Article 2 are equipped with an eCall in-vehicle system, in accordance with this Regulation and the delegated acts adopted pursuant to this Regulation.

Amendment 33

Proposal for a regulation
Article 5 – paragraph 2 – subparagraph 1

Text proposed by the Commission

Manufacturers shall demonstrate that all their new types of vehicle are constructed to ensure that in the event of a severe accident which occurs in the territory of the Union, an eCall to the single European emergency number 112 is triggered automatically.

Amendment

Manufacturers shall demonstrate that new vehicle types are constructed to ensure that in the event of a severe accident, detected by activation of one or more sensors and/or processors within the vehicle, which occurs in the territory of the Union, an eCall to the emergency number 112 is triggered automatically.

Amendment 34

Proposal for a regulation
Article 5 – paragraph 2 – subparagraph 2

Text proposed by the Commission

Manufacturers shall demonstrate that new vehicles are constructed as to ensure that an eCall to the single European emergency number 112 can also be triggered manually.

Amendment

Manufacturers shall demonstrate that new vehicle types are constructed in such a way as to ensure that an eCall to the emergency number 112 can also be triggered manually.

Amendment 35

Proposal for a regulation
Article 5 – paragraph 2 a (new)

Text proposed by the Commission

2a. Paragraph 2 is without prejudice to the right of the vehicle owner to use another emergency call system installed in the vehicle and providing a similar service, in addition to the 112-based eCall in-vehicle system. In that case, that other emergency call system shall be compliant
with the standard EN 16102 'Intelligent transport systems – eCall – Operating requirements for third party support', and manufacturers shall ensure that there is only one system active at a time and that 112-based eCall in-vehicle system is triggered automatically in the event that the other emergency call system does not function.

Amendment 36

Proposal for a regulation
Article 5 – paragraph 3

Text proposed by the Commission

3. Manufacturers shall ensure that the receivers in the in-vehicle systems are compatible with the positioning services provided by satellite navigation systems including the Galileo and the EGNOS systems.

Amendment

3. Manufacturers shall ensure that the receivers in the 112-based eCall in-vehicle systems are compatible with the positioning services provided by satellite navigation systems, in particular the Galileo and the EGNOS systems.

Amendment 37

Proposal for a regulation
Article 5 – paragraph 4

Text proposed by the Commission

4. Only those eCall in-vehicle systems which can be tested shall be accepted for the purposes of type-approval.

Amendment

4. Only those embedded 112-based eCall in-vehicle systems which can be tested shall be accepted for the purposes of type-approval.

Amendment 38

Proposal for a regulation
Article 5 – paragraph 5 a (new)

Text proposed by the Commission

5a. Manufacturers shall demonstrate that, in the event of a critical system failure which would result in an inability to execute an eCall detected during or following the self-test, a warning shall be given to the occupants of the vehicle.
Amendment 39

Proposal for a regulation
Article 5 – paragraph 6

Text proposed by the Commission

6. The eCall in-vehicle system shall be accessible to all independent operators free of charge and without discrimination at least for repair and maintenance purposes.

Amendment

6. The 112-based eCall in-vehicle system shall be accessible to all independent operators free of charge and without discrimination for repair and maintenance purposes.

Amendment 40

Proposal for a regulation
Article 5 – paragraph 7 – subparagraph 1

Text proposed by the Commission

The Commission shall be empowered to adopt delegated acts in accordance with Article 9 establishing the detailed technical requirements and tests for the type-approval of eCall in-vehicle systems and amending Directive 2007/46/EC accordingly.

Amendment

The Commission shall be empowered to adopt delegated acts in accordance with Article 9 establishing the detailed technical requirements and tests for the type-approval of 112-based eCall in-vehicle systems.

Amendment 41

Proposal for a regulation
Article 5 – paragraph 7 – subparagraph 2 – introductory part

Text proposed by the Commission

The technical requirements and tests referred to in the first subparagraph shall be based on the requirements set out in paragraphs 3, 4 and 6 and on the following standards, where applicable:

Amendment

The technical requirements and tests referred to in the first subparagraph shall be adopted after consultation of relevant stakeholders and shall be based on the requirements set out in paragraphs 2, 2a, 3, 4 and 6 and on the available standards relating to eCall and, UNECE Regulations, where applicable, including:

Amendment 46

Proposal for a regulation
Article 6 – paragraph 2

**Text proposed by the Commission**

2. The minimum set of data sent by the eCall in-vehicle system shall include only the minimum information required for the appropriate handling of emergency calls.

**Amendment**

2. The MSD sent by the 112-based eCall in-vehicle system shall as a maximum consist of the information required by the standard referred to in point 2c of Article 3. The MSD shall not be processed for longer than necessary for the purpose for which they have been processed, and shall not be stored for longer than is required for the appropriate handling of emergency calls. The MSD shall be stored in such a way as to make possible its full deletion.

Amendment 47

Proposal for a regulation
Article 6 – paragraph 3 – introductory part

**Text proposed by the Commission**

3. Manufacturers shall ensure that eCall users are provided with clear and comprehensive information about the processing of data carried out through the eCall in-vehicle system, in particular about:

**Amendment**

3. Manufacturers shall ensure that eCall users are provided with clear and comprehensive information about the existence of a free public eCall system, based on 112, and the processing of data carried out through the 112-based eCall in-vehicle system, in particular about:

Amendment 48

Proposal for a regulation
Article 6 – paragraph 3 – point d

**Text proposed by the Commission**

(d) the purpose of the eCall processing;

**Amendment**

(d) the specific purpose of the eCall processing which shall be limited to the emergency situations referred to in the first subparagraph of Article 5(2);

Amendment 49

Proposal for a regulation
Article 6 – paragraph 3 – point f
**Text proposed by the Commission**

(f) the time limit for the retention of data in the in-vehicle system;

**Amendment**

(f) the time limit for the retention of data in the 112-based eCall in-vehicle system;

**Amendment 50**

Proposal for a regulation
Article 6 – paragraph 3 – point g

**Text proposed by the Commission**

(g) the fact that there is no constant tracking of the vehicle;

**Amendment**

(g) the fact that there is no tracking of the vehicle beyond the collection of the minimum amount of data necessary for the 112-based eCall in-vehicle system to determine and transmit the location and the direction of travel of the vehicle when reporting an incident, as well as the fact that any tracking data are only stored on the device for as long as strictly necessary for that purpose;

**Amendment 51**

Proposal for a regulation
Article 6 – paragraph 3 – point h (new)

**Text proposed by the Commission**

(ha) the fact that data gathered by the PSAPs through the 112-based eCall in-vehicle system must not be transferred to third parties without active prior consent from the data subject;

**Amendment**

**Amendment 52**

Proposal for a regulation
Article 6 – paragraph 3 – point i

**Text proposed by the Commission**

(i) any necessary additional information regarding the processing of personal data in relation to the provision of a private eCall service and/or other added value services.

**Amendment**

(i) any necessary additional information regarding traceability, tracking and processing of personal data in relation to the provision of a private eCall service and/or other added value services, which shall be subject to explicit consent by the
user and in compliance with Directive 95/46/EC. Particular account shall be taken of the fact that differences may exist between the data processing carried out through the 112-based eCall in-vehicle system and the private eCall systems or other added value services.

Amendment 53

Proposal for a regulation
Article 6 – paragraph 3 a (new)

Text proposed by the Commission

3a. Manufacturers shall provide the information set out in paragraph 3 as part of the technical documentation handed over together with vehicle.

Amendment 54

Proposal for a regulation
Article 6 – paragraph 3 b (new)

Text proposed by the Commission

3b. In order to avoid confusion as to the purposes pursued and the added value of the processing, the information referred to in paragraph 3 shall be provided to the user separately for the 112-based eCall in-vehicle system and other eCall Systems prior to the use of the system.

Amendment 55

Proposal for a regulation
Article 6 – paragraph 3 c (new)

Text proposed by the Commission

3c. Manufactures shall ensure that the 112-based eCall in-vehicle system and another installed emergency call system and a system providing added-value services are designed in such a way that no exchange of personal data between them is possible. The non-use of another system or an added-value service or the
refusal of the data subject to give consent to the processing of his or her personal data for a private service shall not create any adverse effects on the use of the 112-based eCall in-vehicle system and/or the eCall user.

Amendment 56
Proposal for a regulation
Article 6 – paragraph 4

**Text proposed by the Commission**

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 9 *which shall define* further the requirement of the absence of traceability and tracking and the privacy enhancing technologies referred to in paragraph 1 as well as the modalities of the *private* data processing and of the user information referred to in paragraph 3.

**Amendment**

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 9, *defining* further the requirement of the absence of traceability and tracking and the privacy enhancing technologies referred to in paragraph 1 *with respect to eCall, in particular the security measures that providers of eCall services are to adopt in order to ensure lawful data processing and prevent unauthorised access, disclosure, alteration or loss of personal data processed*, as well as the modalities of the *personal* data processing and of the user information referred to in paragraph 3.

Amendment 57
Proposal for a regulation
Article 7

**Text proposed by the Commission**

With effect from *1 October 2015*, national authorities shall only grant EC type-approval in respect of the eCall in-vehicle system to new types of vehicles which comply with this Regulation and the delegated acts adopted pursuant to this Regulation.

**Amendment**

With effect from ...*, national authorities shall only grant EC type-approval in respect of the *112-based* eCall in-vehicle system to new types of vehicles which comply with this Regulation and the delegated acts adopted pursuant to this Regulation.

*OJ: please insert the date of application of this Regulation.*
Amendment 58

Proposal for a regulation
Article 7 a (new)

Text proposed by the Commission

Amendment

Article 7a

Periodic technical inspections

The requirements for periodic technical inspections concerning the 112-based eCall in-vehicle system shall be regulated by Regulation (EU) No ... of the European Parliament and of the Council.

OJ: Please insert the number of the Regulation contained in doc. 2012/0184(COD).

Amendment 59

Proposal for a regulation
Article 8 – paragraph 1

Text proposed by the Commission

1. The Commission may exempt certain vehicles or classes of vehicles of categories M1 and N1 from the obligation to install eCall in-vehicle systems set out in Article 4, if following a cost/benefit analysis, carried out or mandated by the Commission, and taking into account all relevant safety aspects, the application of those systems proves not to be appropriate to the vehicle or class of vehicles concerned.

Amendment

1. The Commission may exempt certain classes of vehicles of categories M1 and N1 from the obligation to install 112-based eCall in-vehicle system set out in Article 4, if following a cost/benefit analysis and a technical analysis, carried out or mandated by the Commission, and taking into account all relevant safety aspects, the installation of the 112-based eCall in-vehicle system proves not to be indispensable for further improving road safety, due to the fact that the class of vehicles concerned is designed primarily for off-road use or does not have an appropriate triggering mechanism. Those exemptions shall be limited in number.

Amendment 60

Proposal for a regulation
Article 8 – paragraph 2
2. The Commission shall be empowered to adopt delegated acts in accordance with Article 9 setting out the exemptions referred to in paragraph 1. *Those exemptions shall cover vehicles such as special purpose vehicles and vehicles without airbags and be limited in number.*

**Amendment 61**

**Proposal for a regulation**

**Article 9 – paragraph 2**

**Text proposed by the Commission**

2. The power to adopt delegated acts referred to in Article 5 (7), Article 6(4) and in Article 8(2) shall be conferred on the Commission for an indeterminate period of time from [...][Publications Office, please insert the exact date of entry into force].

**Amendment**

2. The power to adopt delegated acts referred to in Article 5 (7), Article 6(4) and in Article 8(2) shall be conferred on the Commission for a period of five years from ...*. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the five-year period. The delegation of power shall be tacitly extended for periods of an identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.

* OJ: please insert the date of entry into force of this Regulation.

**Amendment 62**

**Proposal for a regulation**

**Article 9 – paragraph 5**

**Text proposed by the Commission**

5. A delegated act adopted pursuant to Article 5(7), Article 6(4) and Article 8(2), shall enter into force only if no objection has been expressed either by the European Parliament or the Council within a period of two months of notification of that act to

**Amendment**

5. A delegated act adopted pursuant to Article 5(7), Article 6(4) and Article 8(2) shall enter into force only if no objection has been expressed either by the European Parliament or the Council within a period of three months of notification of that act.
the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

**Amendment 63**

**Proposal for a regulation**

**Article 10 – paragraph 1**

*Text proposed by the Commission*

1. Member States shall lay down the rules on penalties applicable to non-compliance by manufacturers with the provisions of this Regulation and shall take all measures to ensure that they are implemented. The penalties provided for shall be effective, proportionate and dissuasive. Members States shall notify those provisions to the Commission, and shall notify it without delay of any subsequent amendment affecting them.

*Amendment*

1. Member States shall lay down the rules on penalties applicable to non-compliance by manufacturers with the provisions of this Regulation and the corresponding delegated acts and shall take all measures to ensure that they are implemented. The penalties provided for shall be effective, proportionate and dissuasive, in particular where Article 6 of this Regulation is not complied with. Member States shall notify those provisions to the Commission, and shall notify it without delay of any subsequent amendment affecting them.

**Amendment 64**

**Proposal for a regulation**

**Article 10 – paragraph 2 – point c a (new)**

*Text proposed by the Commission*

(ca) breaching provisions contained in Article 6.

*Amendment*

**Article 10a**

**Reporting and review**
1. The Commission shall report to the European Parliament and to the Council regarding the readiness of the telecommunications and PSAP infrastructure required for eCall in Member States. If it is clear from that report that the eCall infrastructure will not be operational before the date referred to in Article 12, the Commission shall take appropriate action.

2. By 1 October 2018, the Commission shall prepare an evaluation report to be presented to the European Parliament and to the Council on the achievements of the 112-based eCall in-vehicle system, including its penetration rate. The Commission shall investigate whether the scope of the Regulation should be extended to other categories of vehicles, such as powered two-wheelers, heavy goods vehicles, busses and coaches, and agricultural tractors. If appropriate, the Commission shall present a legislative proposal to that effect.

3. As soon as possible and in any event not later than by...*, the Commission shall report to the European Parliament and to the Council, following a broad consultation with all stakeholders, including vehicle manufacturers and independent operators, and an impact assessment, on the technical requirements for an interoperable, standardised, secure and open-access platform. The Commission shall accompany that report, if appropriate, with a legislative proposal to that effect. The 112-based eCall in-vehicle system shall be based on the standards for that platform as soon as they become available.

*OJ: please insert the date: one year after the entry into force of this Regulation.
Article 12 – paragraph 1a (new)

Text proposed by the Commission

Article 5(7), Article 6(4), Article 8(2) and Articles 9 and 10a shall apply from ...*.

* OJ: please insert the date of entry into force of this Regulation.

Amendment

Proposal for a regulation
Article 12 – paragraph 2

Text proposed by the Commission

It shall apply from 1 October 2015.

Articles other than those referred to in paragraph 1a shall apply as from 1 October 2015.

Amendment

Proposal for a regulation
Annex – point 6
Directive 2007/46/EC
Annex XI – appendix 1 – item 71

Text proposed by the Commission

(6) In Appendix 1 to Annex XI, the following item 71. is added to the table:

<table>
<thead>
<tr>
<th>Item</th>
<th>Subject</th>
