REPORT ON BUDGETARY AND FINANCIAL MANAGEMENT 2013

Art 96 of the EMSA Financial Regulation

INTRODUCTION:

CERTIFICATION LETTER FROM THE EMSA ACCOUNTING OFFICER.

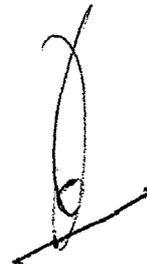

The annual accounts of the European Maritime Safety Agency for the year 2013 have been prepared in accordance with the Financial Regulation applicable to the general budget of the European Union and the accounting rules adopted by the Commission's Accounting Officer, as are to be applied by all the institutions, agencies and joint-undertakings.

I acknowledge my responsibility for the preparation and presentation of the annual accounts of the European Maritime Safety Agency in accordance with article 68 of the Financial Regulation.

I have obtained from the authorising officer, who certified its reliability, all the information necessary for the production of the accounts that show the European Maritime Safety Agency's assets and liabilities and the budgetary implementation.

I hereby certify that based on this information, and on such checks as I deemed necessary to sign off the accounts, I have a reasonable assurance that the accounts present fairly, in all material aspects, the financial position, the results of the operations and the cash-flow of the European Maritime Safety Agency.

Done in Lisbon on May 7, 2014.

Michel Metzger
Accounting Officer

5. SIGNIFICANT ACCOUNTING POLICIES

A) LEGAL BASIS AND ACCOUNTING RULES

The EMSA Financial Statement 2013 has been drafted based on:

- EMSA Founding Regulation (Regulation 1406/2002/EC as amended)
- EMSA Financial Regulation (December 18-2013)
- EMSA Implementing Rules of the Financial Regulation as last amended by the Administrative Board on 15 June 2009
- EMSA Decision No 2009/30 on inventory rules (based on relevant Commission Regulations and guidelines)
- “Accounting Guidelines” as provided by the Commission Accountant and closing instructions for 2013

In accordance with articles 94- 95-96 of the EMSA Financial Regulation, EMSA prepares its financial statements on the basis of accrual-based accounting rules that are derived from International Public Sector Accounting Standards (IPSAS) or by default, International Financial Reporting Standards (IFRS).

These accounting rules, adopted by the Accounting Officer of the Commission, have to be applied by all the institutions and EU bodies falling within the scope of consolidation in order to establish a uniform set of rules for accounting, valuation and presentation of the accounts with a view to harmonising the process for drawing up the financial statements and consolidation. The accounts are kept in Euro on the basis of the calendar year.

B) ACCOUNTING PRINCIPLES

The objective of the financial statements is to provide information about the financial position, performance and cash flows of an entity that is useful to a wide range of users.

The overall considerations (or accounting principles) to be followed when preparing the financial statements are laid down in EU accounting rule 2 and are the same as those described in IPSAS 1, that is: fair presentation, accrual basis, going concern, consistency of presentation, aggregation, offsetting and comparative information.

Preparation of the financial statements in accordance with the above mentioned rules and principles requires management to make estimates that affect the reported amounts of certain items in the statement of financial position and statement of financial performance, as well as the disclosures of contingent assets and liabilities.

C) BASIS OF PREPARATION

a) Currency and basis for conversion

The financial statements are presented in euros, the euro being the European Union's functional and reporting currency.

b) Transactions and balances

Foreign currency transactions are translated into euros using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of financial performance.

c) Use of estimates

In accordance with IPSAS and generally accepted accounting principles, the financial statements necessarily include amounts based on estimates and assumptions by management based on the most reliable information available. Significant estimates include, but are not limited to, provisions, financial risk accounts receivables, accrued income and charges, contingent assets and liabilities, and degree of impairment of intangible assets and property, plant and equipment. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

D) STATEMENT OF FINANCIAL POSITION

a) Intangible assets

Acquired computer software licences are stated at historical cost less accumulated amortisation and impairment losses. The assets are amortised on a straight-line basis over their estimated useful lives. Internally developed intangible assets are capitalised when the relevant criteria of the EU accounting rules are met. The costs capitalisable include all directly attributable costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by management. Costs associated with research activities, non-capitalisable development costs and maintenance costs are recognised as expenses as incurred.

b) Property, Plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition or construction of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or service potential associated with the item will flow to EMSA and its cost can be measured reliably. Repairs and maintenance costs are charged to the statement of financial performance during the financial period in which they are incurred. As EMSA does not borrow money to fund the acquisition of property, plant and equipment, there are no borrowing costs related to such purchases.

Land and works of art are not depreciated as they are deemed to have an indefinite useful life. Assets under construction are not depreciated as these assets are not yet available for use. Depreciation on other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

DEPRECIATION RATES	
Type of asset	Straight line depreciation rate
Buildings	4%
Plant, machinery and equipment	10% to 25%
Furniture	10% to 25%
Fixtures and fittings	10% to 25%
Vehicles	25%
Computer hardware	25%
Other tangible assets	10% to 25%

c) Pre-financing amounts

Pre-financing is a payment intended to provide the beneficiary with a cash advance, i.e. a float. It may be split into a number of payments over a period defined in the particular pre-financing agreement. The float or advance is repaid or used for the purpose for which it was provided during the period defined in the agreement. If the beneficiary does not incur eligible expenditures, he has the obligation to return the pre-financing advance to the European Union. The amount of the pre-financing is reduced (wholly or partially) by the acceptance of eligible costs and amounts returned, and this amount is recognised as an expense.

d) Receivables

Receivables are carried at original amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that EMSA will not be able to collect all amounts due according to the original terms of receivables. The amount of the write-down is the difference between the asset's carrying amount and the recoverable amount. The amount of the write-down is recognised in the statement of financial performance. A general write-down, based on past experience, is also made for outstanding recovery orders not already subject to a specific write-down.

e) Cash and cash equivalent

Cash and cash equivalents are financial instruments and defined as current assets. They include cash at hand, deposits held at call with banks.

f) Provision

Provisions are recognised when EMSA has a present legal or constructive obligation towards third parties as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognised for future operating losses. The amount of the provision is the best estimate of the expenditures expected to be required to settle the present obligation at the reporting date. Where the provision involves a large number of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities ("expected value" method).

g) Payables

Payables arising from the purchase of goods and services are recognised at invoice reception for the original amount and corresponding expenses are entered in the accounts when the supplies or services are delivered and accepted by the European Union.

h) Accrued and deferred incomes and charges

According to the European Union accounting rules, transactions and events are recognised in the financial statements in the period to which they relate. At the end of the accounting period, accrued expenses are recognised based on an estimated amount of the transfer obligation of the period. The calculation of accrued expenses is done in accordance with detailed operational and practical guidelines issued by the Accounting Officer which aim at ensuring that the financial statements reflect a true and fair view.

Revenue is also accounted for in the period to which it relates. At year-end, if an invoice is not yet issued but the service has been rendered, the supplies have been delivered by EMSA or a contractual agreement exists, an accrued income will be recognised in the financial statements.

In addition, at year-end, if an invoice is issued but the services have not yet been rendered or the goods supplied have not yet been delivered, the revenue will be deferred and recognised in the subsequent accounting period.

E) STATEMENT OF FINANCIAL PERFORMANCE

a) Revenues

- Non exchange revenues.

This makes up the vast majority of the EMSA revenue and includes mainly the subvention paid by DG MOVE and the grants paid by DG ELARG.

- Exchange revenues

Revenue from the sale of goods and services is recognised when the significant risk and rewards of ownership of the goods are transferred to the purchaser. Revenue associated with a transaction involving the provision of services is recognised by reference to the stage of completion of the transaction at the reporting date.

EMSA main exchange revenues include LRIT fees and charges, Equasis and diverse services delivered to other Agencies.

b) Expenditures

Exchange expenses arising from the purchase of goods and services are recognised when the supplies are delivered and accepted by the EMSA. They are valued at original invoice cost.

When a request for payment or cost claim is received and meets the recognition criteria, it is recognised as an expense for the eligible amount. At year-end, incurred eligible expenses due to the beneficiaries but not yet reported are estimated and recorded as accrued expenses.

F) CONTINGENT ASSETS AND LIABILITIES

a) Contingent assets

A contingent asset is a possible asset that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the European Union. A contingent asset is disclosed when an inflow of economic benefits or service potential is probable.

b) Contingent liabilities

A contingent liability is a possible obligation that arises from past events and of which the existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of EMSA; or a present obligation that arises from past events but is not recognised because: it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation or, in the rare circumstances where the amount of the obligation cannot be measured with sufficient reliability.

In conformity with the EC Accounting Rule 7, amortisations have been recorded on a monthly basis in SAP.

B) Long-term pre-financing

	31.12.2013	31.12.2012
PF implemented by other EU entities than the Commission (pre-financing given to third parties)	290,136.00	290,136.00
TOTAL	290,136.00	290,136.00

The amount of € 290,136.00 is related to the pre-financing given by EMSA to the Equasis project (currently hosted by EMSA). This amount was originally booked as contingent asset at the end of 2009 and has been reclassified as long term pre-financing following the formal recognition of this debt by the Equasis Management Board.

C) Long term receivables

		31.12.2013	
Account	Receivables from	Gross Total	Net Value
	Amounts written down (-)		
292500	Staff	59,820.67	59,820.67
292000	Total	59,820.67	59,820.67

Following the April 2014 settlement between the European Council and the European Commission related to the salary increase for 2011 & 2012, the reduction of the coefficient applicable to Portugal was greater than the salary increase finally agreed for the two years (respectively 0% and 0.8%). The EMSA staff overpayment for 2011 and 2012 has therefore been estimated at € 179,362.00 to be recovered in 12 equal instalments from May 2014. The 2015 instalments (totalling € 59,820.67) are de facto a long term liability at 31/12/2013.

D) Short-term pre-financing

	Pre-financing without interest for the EU entity <1 yr PF Implemented by other EU entities than the Commission (pre-financing given to third parties)	31.12.2013	31.12.2012
405290	Accrued charges on PF TP - Implemented by other EU entities than the Commission	3,211,856.76	7,625,880.66
405297			
405000	Total	3,211,856.76	7,625,880.66

These pre-financings are mainly related to the anti-pollution call for tenders and other operational activities.

E) Short-term receivables

		Current receivables	31.12.2013		
			Gross Total	Amounts written down (-)	Net Value
Account		Receivables from			
401100	401101	Customers	44,035.26	-1,869.68	42,165.58

401000		Total			
			531,925.94		531,925.94

All receivables are carried out at the original amount less write-down for impairment when there is objective evidence that the Agency will not be able to collect all amounts due according to the original terms of receivables. This analysis is carried out on the situation of year end balances as they exist when preparing the financial statements.
The amount of write-down is charged to the statement of financial performance.

Current receivables from Member States are composed of VAT to be recovered (Portugal) while current receivables with Third States are linked to LRIT fees and charges to be collected.

Sundry receivables totalling € 265,938.33 are composed of:

		Sundry receivables	31.12.2013		
Account	Receivables from	Gross Total	Amounts written down (-)	Net Value	
	Staff	265,938.33		265,938.33	
	Other (2)			0.00	
410900	Total	265,938.33	0.00	265,938.33	

The receivables from the staff includes an amount of € 257,863.33 linked to the reduction coefficient applicable to Portugal in 2011&12&13 and the reduced salary increase for 2011&2012 (please see point C. LT Receivables). This amount will be fully recovered over 2014.

Other – deferrals and accruals totalling € 1,473,093.80 are mainly composed of:

- € 117.012,55 (MDA rebate to be received)
- € 293.781,25 (prepaid software maintenance 2014)
- € 373.100,24 (paid invoice related to the Q1/2014 rent & miscellaneous expenses)
- € 529,460.77 (accrued income with consolidated entities)
- € 131.326,08 (accrued income linked to LRIT)

F) Cash and cash equivalents

Account	Description	31.12.2013	31.12.2012

505500	Cash in hand ("Caisses")		
500000	Total	6,044,449.98	3,579,567.03

Cash include only cash in hands as there are no other cash equivalents or liquid investments to be reported. Currently, the Agency uses one core bank (ING Belgium) where the main account is used for all payments and all incomes linked to the EC subsidy. Other accounts have been opened with ING for earmarked revenues management while an imprest account is also organised via a bank account opened with BES Portugal.

G) Capital

The EMSA capital is increased by the positive economic outturn of the year 2013 (€ 1,816,943.14) to reach **€ 38,767,353.96**

H) Provisions for risks and charges (long-term)

No long term provision was necessary in 2013.

I) Other long term liabilities

Totalling **€ 95,331.17** this account is composed of:

€ 82,053,63 - LRIT long term deposits and interests collected from the different customers

€ 13,277,54 – Financial interests linked to diverse earmarked revenues projects (Equasis, Frontex, etc.)

J) Short-term liabilities

A provision for risks and liabilities (short term) of **€ 79,000.00** has been constituted to cover possible Court cases and other liabilities.

Current payables are reaching **€ 25,620.93** and are constituted of:

Account	Current payables	31.12.2013	31.12.2012

In accordance with EC Accounting Rules no. 10 complemented by chapter 19 under IPSAS 19 (Provisions, contingent liabilities and contingent assets) accruals are made to recognize the amounts to be paid for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to employees (for example, amounts relating to accrued vacation pay). The accruals are determined based on estimates received from the authorizing officers (assessed based on the part of the carry-overs to be applied to 2013-2014).

In accordance with EC Accounting Rule no. 12 a liability for untaken holidays (accumulating compensated absences) at year-end has been included on the statement of financial position under the current liabilities heading (current payables).

Pre-financing received from consolidated EC entities reached € 4,295,750.54 and is composed of:

- € 2,473,676.80 (DG MOVE & IMPP – outturn 2013)
- € 904,781.00 (pre-financing received from DG DEVCO)
- € 97,666.77 (pre-financing received from DG ELARG)
- € 819,625.97 (pre-financing received from FRONTEx)

Other accounts payable against consolidated EC entities totalling € 41,256.95 include debts towards DG MOVE:

- € 39,629.45 (DG MOVE - financial interests 2013)
- € 1,627.50 (DG HR)

747777	Total	52,808,368.90	53,066,103.73

The account 744910 is related to administrative revenues linked to projects in progress financed by either the EC or FRONTEX and booked in the enter entity regularisation accounts.

Exchange – non exchange transactions:

2013	Operating revenue		
	with non-consolidated entities	with consolidated entities	Total
Non exchange revenue	416,000.00	51,260,935.34	51,676,935.34

Total	1,403,659.48	51,404,709.42	52,808,368.90

In 2013, revenues from administrative operations increased substantially to balance the expenses linked to the earmarked revenues programmes (FRONTEX, SAFEMED, etc.) in 2013.

Operational incomes decreased slightly in 2013 due to a reduction of the EU subsidy (-0.7%) thanks to a better cash management within the Agency.

Other incomes (EU and non EU) are totalling € 865,468.46 and are mainly constituted of the collection of Equasis 2013 fees (€ 416,000.00) and LRIT related incomes (€ 449,468.46).

650600	Total	50,651,398.19	52,213,137.82

Globally, expenditures decreased by 3.2% between 2012 and 2013 due mainly to:

Staff expenses (-6.8%) mainly due to the “activation” of staff costs within the intangible assets developed in house projects and the reduction of the Lisbon corrector coefficient coupled with the limited salary increase for 2011 & 2012 (having a joint impact of -317 KEUR in staff cost for 2013).

Other administrative expenses (-37%) have decreased in 2013 and are mainly due to important IT costs activated within the intangible assets projects developed in house.

Operational costs have increased by 7.8% due to some additional activities while **fixed assets expenses increased by 7.6%** due to the loss of several pre-fittings in 2013.

Report on Budgetary & Financial Management

A. Budget execution

As usual, the Anti-Pollution Measures (chapter 38 of the budget) have been the main driver of success by representing approximately 40% of the total budget of the year in commitment appropriations. The outcome of the anti-pollution tenders has been extremely positive and 99.65% of the related budget 2013 was committed by year end. The remaining operational budget was committed up to 95%.

Global 2013 budget execution for the credit of the year is:

Commitment appropriations – credits of the year (C1):
(in EUR – rounded)

Title	Budget 2013 (COM)	Realised 2013 (COM)	%
I Staff	20.817.868	20.352.444	98%
II Administrative exp.	4.366.780	4.233.705	97%
III Operational exp.	9.337.652	8.901.640	95%
Anti-Pollution Measures	23.297.564	23.217.105	100%
Total	57.819.864	56.704.894	98%

Payment appropriations - credits of the year (C1):

Title	Budget 2013 (PAY)	Realised 2013 (PAY)	%
I Staff	20.817.868	20.151.178	97%
II Administrative exp.	4.366.780	3.843.797	88%
III Operational exp.	9.921.773	8.397.228	85%
Anti-Pollution Measures	18.930.055	18.912.569	100%
Total	54.036.476	51.304.771	95%

Regarding Title III and Anti-pollution Measures, both managed under a differentiated appropriations scheme, € 16.744.009,08 of credits of the year (C1 – payment appropriations) have been necessary to cover carried-over commitments coming from:

2009:	€ 613.769,89
2010:	€ 3.878.245,88
2011:	€ 3.584.152,74

2012:	€ 8.667.820,57
2013:	€ 20,00

€16.744.009,08

Due to their budgetary size, the multi-annual component and the differentiated appropriation mechanism chosen, the Anti-pollution Measures are subject to specific and close financial monitoring by the Agency.

B. Evolution and conclusion

In comparison with 2012, 2013 budget execution figures are better in commitment appropriations (+4%) and better in payment appropriations (+6%).

The following key figures support this statement:

Commitment appropriations – credits of the year (C1) – evolution 2012-2013

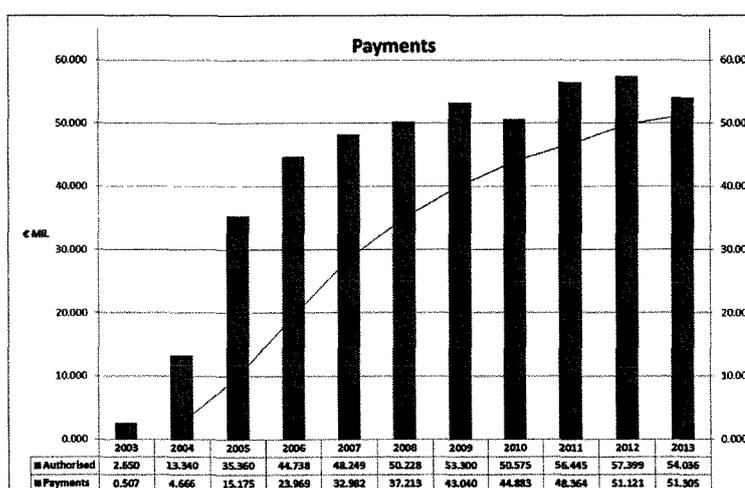

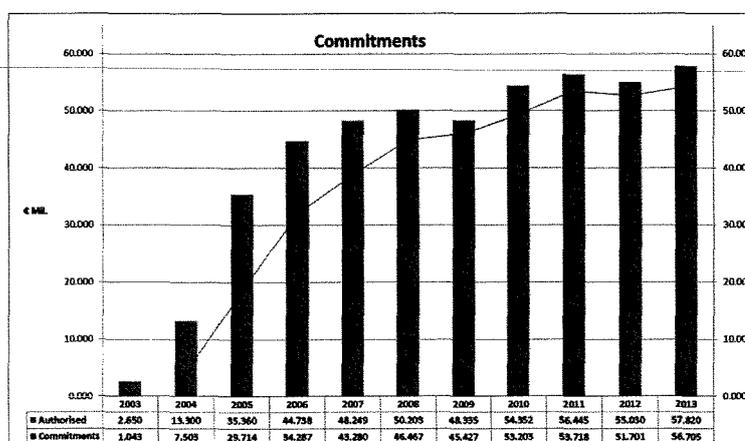

Title	2012	2013	Evol.
I Staff	95%	98%	+3%
II Administrative exp.	92%	97%	+5%
III Operational exp.	88%	95%	+7%
Anti-Pollution Measures	96%	100%	+4%
Total	94%	98%	+4%

Payment appropriations – credits of the year (C1) – evolution 2012-2013

Title	2012	2013	Evol.
I Staff	94%	97%	+3%
II Administrative exp.	72%	88%	+16%
III Operational exp.	86%	85%	-1%
Anti-pollution Measures	89%	100%	+11%
Total	89%	95%	+6%

With the exception of Title III traditional and for the payment appropriation part only, all items have seen a substantial improvement versus the previous year.

Overview 2003-2013:

After a decade of constant improvement, EMSA budget execution 2013 is now at its maturity level with an execution in commitment reaching 98% and an execution in payment reaching 95%. EMSA using differentiated appropriation, a very strict financial planning has been put in place to guarantee the presence of the necessary payment appropriation to cover the legal commitments signed by the Authorising Officer. With very little margin for error, “timing will be everything” and projects will have to be rigorously implemented to avoid any loss of payment credits.

Finally, it must be underlined that the new projects managed under the “earmarked revenues” scheme (IR1/R0 credit type) such as “SAFEMED”, “Safe Sea Net IMP Project”, “FRONTEX”, etc., have brought an extra layer of complexity and are now constituting a sizable part of the EMSA budget (3.3 million EUR in 2013). These projects show our willingness to venture into new developments where our core competences can be leveraged for the benefit of the European Community.
