

Adam Kiss

From 2006 Adam Kiss has been the **Head of the Doctoral School in Environmental Sciences** (Hungary). He also held, and continues to several other prominent positions. He has served as a Head of the Department of Atomic Physics at Eötvös University in Budapest (1997-1998 and since 2003); as a chairman of the National Committee for the Qualification Requirements in Sciences (1991-1996), of the National Expert Committee of the National Project for the Final Deposal of Low- and Medium Activity Radioactive Waste (1992-96 and since 2000), of the Board of the Hungarian Tempus Public Foundation (1996-1999), of the Association of Professors of Physics at Eötvös University and of Committee on Nuclear Physics of the Hungarian Academy of Science (since 2005). In addition, from 1998 to 2002, he was the Deputy State Secretary for Higher Education and Science.

Adam Kiss has studied Physics (graduate and postgraduate level) in the Eötvös Loránd University (1960-1965) and has completed his Ph. D in Physical Sciences (1970). Since 1990, he has been working as a full professor in the Department of Atomic Physics (Eötvös University, Budapest); during the 1970's he was a visiting scientist in the Institute of Nuclear Physics, (Kernforschungsanlage Jülich, Germany) and in 1989 he was honoured with the Prize of the Hungarian Academy of Sciences in Physics. During the 90's and for seven years, he has been holding the position of the Dean Faculty of Science of Eötvös Loránd University/Budapest.

His research experience includes nuclear physics, fast neutron time-of-flight spectroscopy, optical model, coupled-channel calculations, inelastic scattering of light particles, on-line measuring techniques, intermediate energy heavy-ion physics, radioactive beams, neutron emission from hot fragments and radioactivity in environment.
