

European Defence Agency

Introducing the EBB portal for
Defence Contract Opportunities

March 29, 2007

European Defence Agency

Building Capabilities for a Secure Europe

EDA Background

Overall aim of the agency:

“To support the Council and the Member States in their effort to improve European defence capabilities in the field of crisis management and to sustain the ESDP as it stands now and will evolve in the future”

Main Functions:

1. Developing defence capabilities
2. Promoting and enhancing armaments co-operation
3. Working to strengthen the defence technological and industrial base and for the creation of an internationally competitive European defence market
4. Enhancement of the effectiveness of European Defence Research and Technology

EBB Portal for Defence Contract Opportunities

A business portal aimed at defence related industry of all sizes to help them take advantage of increased transparency and cross-border opportunities in defence procurement

Two areas of portal:

- *government defence contracts opportunities*
- *industry sub-contracting opportunities*

EBB Portal for Defence Contract Opportunities

benefits

- **cost reductions and increased efficiencies for MoDs**
- **access to Government tender information for defence contractors**
- **promotion of contract opportunities from defence contractors to a potentially untapped audience of suppliers**
- **identification of new business opportunities for the European supplier base, especially SMEs**

EBB: Government Contract Opportunities

- open to defence contractors
- currently more than 140 contract opportunities from 14 subscribing Member States with estimated value of € 6.5 billion
- opportunities cover full spectrum of defence equipment
