

**COUNCIL OF
THE EUROPEAN UNION**

Council conclusions on Iran

*3191st FOREIGN AFFAIRS Council meeting
Luxembourg, 15 October 2012*

The Council adopted the following conclusions:

1. "The Council reiterates its serious and deepening concerns over Iran's nuclear programme and the urgent need for Iran to comply with all its international obligations, including full implementation by Iran of UNSC and IAEA Board of Governors' Resolutions.
2. The Council condemns the continuing production of enriched uranium and expansion of Iran's enrichment capacity, including at the Fordow site, and continued heavy-water activities in breach of UNSC and IAEA Board of Governors' Resolutions, as reflected in the most recent IAEA report. The Council notes with particular concern Iran's obstruction of the IAEA work towards the clarification of all outstanding issues, including with respect to the possible military dimension to Iran's nuclear programme. Therefore, the Council welcomes the adoption with overwhelming majority by the IAEA Board of Governors of its Resolution on 13 September 2012 deciding that Iran's cooperation was essential and urgent in order to restore international confidence in the exclusively peaceful nature of Iran's nuclear programme.
3. Iran is acting in flagrant violation of its international obligations and continues to refuse to fully co-operate with the IAEA to address the concerns on its nuclear programme. In this context, and in coherence with previous European Council and Council conclusions, the Council has agreed additional restrictive measures in the financial, trade, energy and transport sectors, as well as additional designations, notably of entities active in the oil and gas industry. In particular, the Council has agreed to prohibit all transactions between European and Iranian banks, unless authorised in advance under strict conditions with exemptions for humanitarian needs. In addition, the Council has decided to strengthen the restrictive measures against the Central Bank of Iran. Further export restrictions have been imposed, notably for graphite, metals, software for industrial processes, as well as measures relating to the ship building industry.

P R E S S

4. The restrictive measures agreed today are aimed at affecting Iran's nuclear programme and revenues of the Iranian regime used to fund the programme and are not aimed at the Iranian people. The Iranian regime itself can act responsibly and bring these sanctions to an end. As long as it does not do so, the Council remains determined to increase, in close coordination with international partners, pressure on Iran in the context of the dual track approach.
 5. The Council reaffirms the longstanding commitment of the European Union to work for a diplomatic solution to the Iranian nuclear issue in accordance with the dual track approach.
 6. The Council reaffirms that the objective of the EU remains to achieve a comprehensive, negotiated, long-term settlement, which would build international confidence in the exclusively peaceful nature of the Iranian nuclear programme, while respecting Iran's legitimate rights to the peaceful uses of nuclear energy in conformity with the NPT, and fully taking into account UN Security Council and IAEA Board of Governors' Resolutions. The Council welcomes the determination for a diplomatic solution expressed by E3+3 Foreign Ministers on 27 September in New York and fully endorses the efforts led by the High Representative on behalf of the E3+3 in this regard. E3+3 have made a credible and substantial confidence building proposal for negotiations guided by the agreed principles of reciprocity and a step by step approach. The Council urges Iran to engage constructively, by focussing on reaching an agreement on concrete confidence building steps, negotiating seriously and addressing the concerns of the international community."
