Heading:

Emergency response to the financial and economic crisis in developing countries

Remarks:

Add following text:

This appropriation is intended to cover emergency and short-term actions to mitigate the impact of the global financial and economic crisis on the most vulnerable and least resilient of the countries covered by Regulation (EC) No 1905/2006 establishing a financing instrument for development cooperation.

Add following text:

Activities covered by this appropriation can include measures to mitigate the social consequences of the crisis, including social safety nets, employment-creating initiatives and actions ensuring adequate social service provision.

Legal basis:

Add following text:

Preparatory Action within the meaning of Article 49(6) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Reference acts:

Justification:

Some of the most serious effects of financial and economic crisis are felt in developing countries, many of which do not have the resources to respond to the problem. For the most vulnerable ACP countries, the Commission has proposed an "ad hoc vulnerability FLEX mechanism" financed with EUR 500 million from the EDF, but there is no provision for developing countries covered by DCI. This pilot project is intended to fill this gap.

Preparatory Action: EU-Asia - Integration of policy and practice

Remarks:

Add following text:

The preparatory action is to provide an integrative approach to the development and practice of policy for EU-Asia. This holistic approach developed by the European Institute for Asian Studies relates to activities covered by several legal bases but which are compartmentalised in many budget lines

Legal basis:

Add following text:

Preparatory action within the meaning of Article 49(6) of Council Regulation (EC,Euratom) No 1605/2002 of 25 June 2002 on the financial regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002,p.1).

Reference acts:

Justification:

Current global socio-economic developments reveal Asia's importance in solving EU, Asian, and global problems. Benefits from flows of trade and investment, are now strained by imbalances. These have negative effects on poverty, development, environment and security.

Existing budget lines encourage a silo approach to policy making leading to suboptimal strategies. The cost effective, strategic programme of the EIAS integrates EU-Asia policy threads offering better results for all stakeholders.

Reference acts:

Justification:

Budget allocated to health under Investing in People is considerably lower than in the past (e.g. 2003-2006). Strengthening the overall health programmes is a must to reach the goals set. Commission support for strengthening the health work force development and for tackling the critical shortage of health workers deserves a follow-up in 2010.

Heading:*Copenhagen Climate Change Agreement***Remarks:**Add following text:

This appropriation is intended to finance climate change mitigation and adaptation measures for developing countries as a result of obligations arising from the Copenhagen climate change agreement.

Legal basis:**Reference acts:****Justification:**
