PRESS RELEASE

RA Defender's call to law enforcement bodies

RA Human Rights Defender's Staff received a number of alarming messages on the restrictions of persons' rights imposed by the RA law-enforcement bodies to have a legal assistance and a lawyer during either the arrest or the forcible appearance.

Taking into consideration the aforementioned, I hereby call on to strongly follow the requirements of RA Constitution, European Convention for the Protection of Human Rights and Fundamental Freedoms, the case law of European Court of Human Rights and the RA Court of Cassation.
