Final act

Budget 2019/1530
[OJ L 249 27.09.2019, p. 0312](#)

2017 discharge: European GNSS Agency (GSA)

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2017, as part of the 201 discharge procedure.

Analysis of the accounts of the European Global Navigation Satellite System Agency (GSA).

CONTENT: the organisational governance of the EU consists of institutions, agencies and other EU bodies whose expenditure is included in the general budget of the Union.

This Commission document concerns the EU's consolidated accounts for the year 2017 and details how spending by the EU institutions and bodies was carried out. The consolidated annual accounts of the EU provide financial information on the activities of the institutions, agencies and other bodies of the EU from an accrual accounting and budgetary perspective.

It is the responsibility of the Commission's Accounting Officer to prepare the EU's consolidated annual accounts and ensure that they present fairly, in all material aspects, the financial position, the result of the operations and the cash flows of the EU institutions and bodies with a view to granting discharge.

Discharge procedure: the final step of a budget lifecycle is the discharge. It is the decision by which the European Parliament releases the Commission from its responsibility for management of a given budget by marking the end of that budget's existence. It is granted by the European Parliament on the recommendation of the Council.

The decision is based in particular on the European Court of Auditors reports, in particular its annual report, in which the Court provides a Statement of Assurance (DAS) on the legality and regularity of transactions (payments and commitments).

The procedure results in the granting, postponement or refusal of discharge.

The final discharge report including specific recommendations to the Commission for action is adopted in plenary by the European Parliament and are subject to an annual follow up report in which the Commission outlines the concrete actions it has taken to implement the recommendations made.

All EU institutions and other agencies, bodies and joint undertakings are subject to their own discharge procedures.

GSA: the Supervisory Authority, whose headquarters are located in Prague (CZ) since 2012, was set up by [Council Regulation \(EC\) No 1321/2004](#) and its main task is to manage the public interests relating to the European GNSS programmes and to act as the regulatory authority for the programme during the deployment and operational phases of the Galileo Programme. [Regulation \(EC\) No 683/2008](#) of the European Parliament and the Council reduced the responsibilities of the Authority to the control of the security of Galileo systems and to the preparation of their commercialisation.

As regards the Authority's accounts, these are presented in detail in the document on the consolidated annual accounts of the European Union for 2017:

Commitment appropriations:

- available: EUR 3 744 million;
- made: EUR 1 895 million.

Payment appropriations:

- available: EUR 1 192 million;
- made: EUR 668 million.

For further details on expenditure, please refer to the [final accounts of the GSA](#).

2017 discharge: European GNSS Agency (GSA)

Having examined the revenue and expenditure accounts for the financial year 2017 and the balance sheet as at 31 December 2017 of the European GNSS Agency (GSA), as well as the Court of Auditors' report on the annual accounts of the Agency for the financial year 2017, accompanied by the Agency's replies to the Court's observations, the Council recommended the European Parliament to give a discharge to the Executive Director of the Agency in respect of the implementation of the budget for the financial year 2017.

The Council welcomed the Court's opinion that, in all material respects, the Agency's annual accounts present fairly its financial position as at 31 December 2017 and the results of its operations, its cash flows, and the changes in net assets for the year then ended, in accordance with the provisions of the Agency's Financial Regulation, and that the underlying transactions for 2017 are legal and regular in all material respects.

Nevertheless, the following observations were made:

- procurement: the Council noted the potential budgetary risk resulting from the ongoing Court proceedings related to procurement procedures conducted by the Agency and called on the Agency to carefully monitor the situation. The Council urged the Agency to ensure the full implementation without unjustified delay of electronic public procurement;

- Brexit: the Agency is encouraged to take into account any possible financial impact of the withdrawal of the United Kingdom from the EU on its organisation, operations and accounts.

2017 discharge: European GNSS Agency (GSA)

The Committee on Budgetary Control adopted the report by Petri SARVAMAA (EPP, FI) on discharge in respect of the implementation of the budget of the European GNSS Agency (GSA) for the financial year 2017.

The committee called on the European Parliament to grant the Executive Director of the Agency discharge in respect of the implementation of the agency's budget for the financial year 2017.

Noting that the Court of Auditors stated that it had obtained reasonable assurance that the annual accounts of the Agency for the financial year 2017 were reliable and that the underlying transactions were legal and regular, Members called on Parliament to approve the closure of the Agency's accounts.

They made, however, a number of recommendations that needed to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the [draft resolution on performance, financial management and control of EU agencies](#):

Agency's financial statements

The Union subsidy to the final budget of the European GNSS Agency for the financial year 2017 was EUR 28 467 648, representing a decrease of 2.13 % compared to 2016.

Budget and financial management

The budget monitoring efforts during the financial year 2017 resulted in a budget implementation rate of 100 %, representing the same rate as in 2016. The execution rate of payment appropriations was 86.20 %, representing an increase of 3.78 % compared to 2016. In addition to its core budget, the Agency continued to manage a large amount of delegated budget in 2017 following the signature of the European Geostationary Navigation Overlay Service (EGNOS) and the Galileo Delegation Agreement amendments. A total of EUR 416 million was committed under a delegated budget in 2017 and EUR 638 million made in payments.

The cancellations of carry-overs from 2016 to 2017 amounted to EUR 270 961, representing 5.30 % of the total amount carried forward,

showing however a slight decrease of 1.15 % in comparison to 2016.

Members also made a series of observations regarding performance, staff policy, procurement and conflicts of interest.

In particular, they noted that:

- on 31 December 2017 the establishment plan was 91.38 % executed, with 106 temporary agents appointed out of 116 temporary agents authorised under the Union budget;
- that one former Commission official occupies an advisory role under the Active Senior Initiative, without receiving salary entitlements from the Agency;
- following the United Kingdoms decision to withdraw from the Union, an important decision for Galileo was taken to relocate the secondary Galileo Security Monitoring Centre (GSMC) from Swanwick to Madrid and that, at the same time, the Agency has been working closely with the French authorities on the upgrade and future extension of the main GSMC in Saint-Germain-en-Laye;
- the Agency set up an inventory of contracts and grants affected by the United Kingdoms decision to withdraw from the Union with an analysis of the potential consequences, and is currently negotiating mitigating measures with relevant contractors.

2017 discharge: European GNSS Agency (GSA)

The European Parliament decided to grant discharge to the Executive Director of the European GNSS Agency (GSA) for the financial year 2017 and to approve the closure of the accounts for the financial year in question.

Noting that the Court of Auditors has stated that it has obtained reasonable assurances that the Agency's annual accounts for the financial year 2017 are reliable and that the underlying transactions are legal and regular, Parliament adopted by 497 votes to 119 with 10 abstentions, a resolution containing a series of recommendations, which form an integral part of the decision on discharge and which add to the general recommendations set out in the [draft resolution on performance, financial management and control of EU agencies](#):

Agency's financial statements

The Union subsidy to the final budget of the European GNSS Agency for the financial year 2017 was EUR 28 467 648, representing a decrease of 2.13 % compared to 2016.

Budget and financial management

The budget monitoring efforts during the financial year 2017 resulted in a budget implementation rate of 100 %, representing the same rate as in 2016. The execution rate of payment appropriations was 86.20 %, representing an increase of 3.78 % compared to 2016. In addition to its core budget, the Agency continued to manage a large amount of delegated budget in 2017 following the signature of the European Geostationary Navigation Overlay Service (EGNOS) and the Galileo Delegation Agreement amendments. A total of EUR 416 million was committed under a delegated budget in 2017 and EUR 638 million made in payments.

Parliament noted that the cancellations of carry-overs from 2016 to 2017 amounted to EUR 270 961, representing 5.30 % of the total amount carried forward, showing however a slight decrease of 1.15 % in comparison to 2016.

Members also made a series of observations regarding performance, staff policy, procurement and conflicts of interest.

In particular, they noted that:

- on 31 December 2017 the establishment plan was 91.38 % executed, with 106 temporary agents appointed out of 116 temporary agents authorised under the Union budget;
- the Agency should take measures with a view to ensuring better gender balance within its senior management;
- that one former Commission official occupies an advisory role under the Active Senior Initiative, without receiving salary entitlements from the Agency;
- following the United Kingdoms decision to withdraw from the Union, an important decision for Galileo was taken to relocate the secondary Galileo Security Monitoring Centre (GSMC) from Swanwick to Madrid and that, at the same time, the Agency has been working closely with the French authorities on the upgrade and future extension of the main GSMC in Saint-Germain-en-Laye;
- the Agency set up an inventory of contracts and grants affected by the United Kingdoms decision to withdraw from the Union with an analysis of the potential consequences, and is currently negotiating mitigating measures with relevant contractors.
