
Summer guest photographer contest topic: children and youth

Take part in our guest photographer contest, inspired by 2015 being the European Year for Development. From January until September we have been announcing different topics linked to development. Send us your photo inspired by the latest theme, along with the submission form and you could be invited to Strasbourg to do a photo reportage.

How to take part

You can submit your photo and entry form by email. This time your submission can contain either one picture or a reportage of up to five photos. The deadline for the last topic "Demography and Migration " is 30 September at midnight CET.

An editorial committee will select the ten best entries and then pick the best photo of the month. This will automatically make them a finalist for the jury prize. The ten best photos of each month are showcased on Parliament's Facebook and G+ page where you can vote for your favourite. At the end of the contest, the most liked photo will be awarded the public prize. Both of these photographers will be invited to the plenary session in November 2015.

The best photo for the July/August theme of children and youth was taken by Daniela Nenkova, a 35-year-old travel photographer from Bulgaria. The photo shows a small girl in the city of Udaipur, India.

Send your photo and application form to the following address: webcom-flickr@europarl.europa.eu.
