

2009 - 2014

Committee on Industry, Research and Energy

2012/2030(INI)

22.6.2012

AMENDMENTS 1 - 59

Draft opinion Aldo Patriciello(PE489.602v01-00)

Completing the Digital Single Market (2012/2030(INI))

AM\906274EN.doc PE492.604v01-00

Amendment 1 Gunnar Hökmark

Draft opinion Paragraph 1 a (new)

Draft opinion

Amendment

1a. Points out that a European market with nearly 500 million people connected to high-speed broadband would act as a spearhead for the development of the internal market; stresses the need to connect the digital agenda with the provisions of new services such as e-trade, e-health, e-learning, e-banking and e-government services.

Or. en

Amendment 2 Gunnar Hökmark

Draft opinion Paragraph 1 b (new)

Draft opinion

Amendment

1b. Reminding that a Digital Single Market, where services can flow freely on a 500 million consumer market, is a crucial driver for competitiveness and economic growth, providing highly-qualified jobs and facilitating EU's convergence into a knowledge driven economy.

Or. en

Amendment 3 Silvia-Adriana Țicău Draft opinion Paragraph 1 e (new)

Draft opinion

Amendment

1e. Calls on the Commission and Member States to ensure that sales agreements contain no unjustified discrimination based on nationality or residence;

Or. ro

Amendment 4 Silvia-Adriana Țicău

Draft opinion Paragraph 1 f (new)

Draft opinion

Amendment

If. Stresses the costs and risks arising from the fragmentation caused by the coexistence of 27 national legal systems, in particular with regard to consumer rights;

Or. ro

Amendment 5 Silvia-Adriana Țicău

Draft opinion Paragraph 1 g (new)

Draft opinion

Amendment

Ig. Stresses the fact that the level of knowledge and information of operators regarding the rules governing ecommerce and the level of knowledge and information of consumers with regard to their rights are insufficient, particularly in cross-border terms;

Amendment 6
Amelia Andersdotter
on behalf of the Verts/ALE Group
Catherine Trautmann

Draft opinion Paragraph 2

Draft opinion

2. Emphasises that broadband and the internet are important drivers for economic growth, job creation and European competitiveness, as well as boosting online commerce and services, but points out that *more competition is* needed to ensure net neutrality;

Amendment

2. Emphasises that broadband and the internet are important drivers for economic growth, job creation and European competitiveness, as well as boosting online commerce and services, but points out that additional regulatory measures are needed to ensure net neutrality; recalls the recent findings by BEREC showing that operators on both wired and wireless connections are increasingly blocking, filtering or prioritising traffic on nontechnical grounds, as well as changing the terms of such blocking, filtering and prioritation, without giving their customers the time or ability to consent to such actions;

Or. en

Amendment 7 Jürgen Creutzmann

Draft opinion Paragraph 2

Draft opinion

2. Emphasises that *broadband and* the internet *are* important *drivers* for economic growth, job creation and European competitiveness, as well as boosting online commerce and services, *but points out* that

Amendment

2. Emphasises that the internet *is an* important *driver* for economic growth, job creation and European competitiveness, as well as boosting online commerce and services; *underlines* that *consumers and*

more competition is needed to ensure net neutrality;

businesses need broadband access to take full advantage of the internet;

Or. en

Amendment 8 Gunnar Hökmark

Draft opinion Paragraph 2

Draft opinion

2. Emphasises that broadband and the internet are important drivers for economic growth, job creation and European competitiveness, as well as boosting online commerce and services, but points out that more competition is needed to ensure net neutrality;

Amendment

2. Emphasises that broadband and the internet are important drivers for economic growth, job creation and European competitiveness, as well as boosting online commerce and services, but points out that more competition is needed to ensure net neutrality; reiterates the support for an open Internet where content and individual commercial services can not be blocked;

Or. en

Amendment 9 Teresa Riera Madurell

Draft opinion Paragraph 2

Draft opinion

2. Emphasises that broadband and the internet are *important drivers for* economic growth, job creation and European competitiveness, as well as boosting online commerce and services, but points out that more competition is needed to ensure net neutrality;

Amendment

2. Emphasises that broadband and the internet are *fundamental in moving towards an open and inclusive knowledge society that will facilitate* economic growth, job creation, *innovation* and European competitiveness, as well as boosting online commerce and services, but points out that more competition is needed to ensure net neutrality;

Amendment 10 Silvia-Adriana Ticău

Draft opinion Paragraph 2 a (new)

Draft opinion

Amendment

2a. Welcomes the publication of the 'Digital agenda - Scoreboard 2012' report and calls on the Commission and Member States to make further investment in the achievement of the following objectives by 2015: 50% of the EU population making online purchases; 20% of the EU population making online cross-border purchases; 33% of SMEs making online sales; proportion of the population which has never used internet reduced to 15%; proportion of the population using internet frequently increased to 75% and 60% in the case of persons with disabilities; 50% of citizens making use of electronic e-government services; doubling of public investment in ICT research and development;

Or. ro

Amendment 11 Pilar del Castillo Vera, Gunnar Hökmark

Draft opinion Paragraph 2 a (new)

Draft opinion

Amendment

2a. Stresses the importance for the development of the European Digital Single Market to continue efforts towards ubiquitous and high-speed access for all consumers, through the promotion of

access to fixed and mobile Internet and the deployment of next generation infrastructure; emphasises that this requires policies that promote access on competitive terms;

Or. en

Amendment 12 Amelia Andersdotter

Draft opinion Paragraph 2 a (new)

Draft opinion

Amendment

2a. Re-emphasizes potential challenges when departing from network neutrality, including anticompetitive behaviour, blockage of innovation, restriction on freedom of expression, lack of consumer awareness and infringement of privacy and that the lack of net neutrality hurts both businesses, consumers and society as a whole;

Or. en

Amendment 13 Teresa Riera Madurell

Draft opinion Paragraph 2 a (new)

Draft opinion

Amendment

2a. Stresses that achieving a fully operational Digital Single Market requires a coordinated effort to ensure that all citizens, regardless of their age, location, education and gender, have access to the internet and the necessary skills to use it;

Amendment 14 Pilar del Castillo Vera, Gunnar Hökmark

Draft opinion Paragraph 2 b (new)

Draft opinion

Amendment

2b. Urges the Commission and the Member States to provide new impetus to the European fast and ultra fast broadband strategy and updating these target;

Or. en

Amendment 15 Pilar del Castillo Vera

Draft opinion Paragraph 2 c (new)

Draft opinion

Amendment

2c. Insists that digital competences are crucial for the development of a competitive Digital Single Market and that all Europeans should be empowered with the appropriate digital skills; emphasises the essential commitment to reduce by half digital literacy and competence gaps by 2015;

Or. en

Amendment 16 Teresa Riera Madurell

Draft opinion Paragraph 3

Draft opinion

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment;

Amendment

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment and guaranteeing their rights and freedoms as regards privacy, data protection and freedom of expression and information;

Or. es

Amendment 17 Rolandas Paksas

Draft opinion Paragraph 3

Draft opinion

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment;

Amendment

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment *and that regional*, *technical and organisational restrictions on choice should be eliminated*;

Or. lt

Amendment 18 Silvia-Adriana Țicău

Draft opinion Paragraph 3

Draft opinion

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment;

Amendment

3. Recognises the need to create ways of enhancing citizens' trust and confidence in the online environment; *especially when the protection of their personal data is involved*;

Or. en

Amendment 19 Pilar del Castillo Vera

Draft opinion Paragraph 3 a (new)

Draft opinion

Amendment

3a. Believes firmly that the protection of privacy not only constitutes a core value of the European Union, in addition plays a central role in promoting the necessary user confidence on the digital environment in order for the Digital Single Market to fully develop; welcomes therefore the Commission's proposals to adapt the Data Protection Directive to the current digital environment, hereby promoting the innovative character of the online environment and boosting the development of promising new technologies such as Cloud Computing;

Or. en

Amendment 20 Rolandas Paksas

Draft opinion Paragraph 3 a (new)

Draft opinion

Amendment

3a. Stresses that on-line markets should be as flexible as possible in order to create better business and development opportunities in this sector;

Or. lt

Amendment 21 Silvia-Adriana Țicău

Draft opinion Paragraph 3 c (new)

Draft opinion

Amendment

3c. Urges the Member States and the Commission to strengthen the framework regulatory provisions protecting consumers using e-commerce and develop a framework to promote the certification of e-commerce websites and the websites of financial institutions and public bodies, with a view to ensuring security and hence consumer confidence when these sites are accessed;

Or. ro

Amendment 22 Silvia-Adriana Țicău

Draft opinion Paragraph 4

Draft opinion

4. Calls for an integrated European market for card, internet and mobile payments;

Amendment

4. Calls for an integrated European market for card, internet and mobile payments which will allow the development of appropriate, efficient, secure and innovative means of payment and will not involve disproportionate and non-cost reflective fees which might undercut or limit the consumer's choice;

Or. en

Amendment 23 Amelia Andersdotter

Draft opinion Paragraph 4

PE492.604v01-00 12/29 AM\906274EN.doc

Draft opinion

4. Calls for an integrated European market for card, internet and mobile payments;

Amendment

4. Calls for an integrated European market for card, internet and mobile payments; calls, a the same time, for a facilitated framework for e-invoicing; stresses in both these regards the importance of interoperability and open standards so as to facilitate maximum market potential and competition;

Or. en

Amendment 24 Pilar del Castillo Vera

Draft opinion Paragraph 4 a (new)

Draft opinion

Amendment

4a. Stresses that the well-functioning of the digital economy is imperative for the well-functioning of the entire EU economy; notes however that the free movement of digital services is today severely hindered by fragmented rules at national level, where businesses are facing many barriers to selling across the borders in the European Union, mainly because of the different regulations applicable at Member State level in areas such as consumer protection, VAT, specific products regulations, and payment transaction; Calls on the EU institutions to reinforce their commitment to remove the key regulatory obstacles to cross-border online transactions by 2015; calls on the Commission to continue to propose targeted legislative action on key impediments;

Or. en

Amendment 25 Silvia-Adriana Țicău

Draft opinion Paragraph 4 b (new)

Draft opinion

Amendment

4b. Calls on the Commission and Member States to take measures to improve market integration. Considers that the Single Euro Payments Area (SEPA) will facilitate pan-European direct credit and debit transfers and provide a basis for the development of new pan-European payment services in accordance with requirements arising from legislation concerning data protection and the confidentiality of communications;

Or. ro

Amendment 26 Krišjānis Kariņš

Draft opinion Paragraph 5

Draft opinion

5. Emphasises the importance of 'one-stopshops' for VAT in order to facilitate crossborder e-commerce for SMEs and promote e-invoicing;

Amendment

5. Emphasises the importance of 'one-stopshops' for VAT in order to facilitate crossborder e-commerce for SMEs and promote e-invoicing; points out, however, that such 'one-stop shops' can be created only within the framework of existing institutions, without increasing the burden on the tax-payer;

Or. lv

Amendment 27 Jürgen Creutzmann

PE492.604v01-00 14/29 AM\906274EN.doc

Draft opinion Paragraph 5

Draft opinion

5. Emphasises the importance of 'one-stopshops' for VAT in order to facilitate crossborder e-commerce for SMEs and promote e-invoicing;

Amendment

5. Emphasises the importance of 'one-stop-shops' for VAT in order to facilitate cross-border e-commerce, in particular for SMEs, and promote e-invoicing; stresses in this regard the need to have the same VAT rates on digital products as on similar physical products or offline services;

Or. en

Amelia Andersdotter on behalf of the Verts/ALE Group

Draft opinion Paragraph 5

Draft opinion

5. Emphasises the importance of 'one-stopshops' for VAT in order to facilitate crossborder e-commerce for SMEs *and promote e-invoicing*;

Amendment

5. Emphasises the importance of 'one-stopshops' for VAT in order to facilitate crossborder e-commerce for SMEs;

Or. en

Amendment 29 Pilar del Castillo Vera

Draft opinion Paragraph 5 a (new)

Draft opinion

Amendment

5a. Welcomes the European Commission's legislative proposal on a regulation on electronic identification and trust services for electronic transactions

in the internal market, which, by covering mutual recognition and acceptance at EU level of notified electronic identification schemes, has the potential to enable secure and seamless electronic interactions between businesses, citizens and public authorities, thereby increasing the effectiveness of public and private online services, e-business and electronic commerce in the EU;

Or. en

Amendment 30 Amelia Andersdotter

Draft opinion Paragraph 5 a (new)

Draft opinion

Amendment

5a. Emphasizes the importance of a harmonised approach to exceptions and limitations in the field of copyright, as well as the harmonised statutory exceptions to trademarks and patents, often for the benefit of researchers and developers, to ensure facilitated development, deployment and consumer uptake of new, innovative services and the legal certainty for researching teams, innovators, artists and users required for a prospering European digital environment to emerge;

Or. en

Amendment 31 Gunnar Hökmark

Draft opinion Paragraph 5 a (new) Draft opinion

Amendment

5a. Stresses the urgent need for the EU to provide business and consumers with confidence and means to trade online in order to increase cross-border trade; therefore calls for simplification of licensing systems and the creation of an efficient framework for copyright;

Or. en

Amendment 32 Jürgen Creutzmann

Draft opinion Paragraph 5 a (new)

Draft opinion

Amendment

5a. Agrees with the Commission that the current legal framework provided by the e-commerce directive requires no review; however underlines the need for further clarification with a view to the implementation of notice-and-action procedures in case of illegal content;

Or. en

Amendment 33 Pilar del Castillo Vera

Draft opinion Paragraph 5 b (new)

Draft opinion

Amendment

5b. Emphasises the potential value for consumers and businesses of the digital switchover of public services and calls on Member States to develop national plans for the digital switchover of public

services, which should include targets and measures for getting all public services online and accessible by 2015;

Or. en

Amendment 34 Teresa Riera Madurell

Draft opinion Paragraph 6

Draft opinion

6. Urges the Commission and the Member States to further develop secure and effective e-services; notes, particularly where e-identification and e-signatures are concerned, that cross-border interoperability is necessary in order to boost the adoption of cross-border e-invoicing solutions;

Amendment

6. Points out that the public sector's use of information and communication technologies is the cornerstone for the development of the digital and knowledge society, and therefore urges the Commission and the Member States to further develop secure and effective eservices; notes, particularly where eidentification and e-signatures are concerned, that cross-border interoperability is necessary in order to boost the adoption of cross-border e-invoicing solutions;

Or. es

Amendment 35 Jürgen Creutzmann

Draft opinion Paragraph 6

Draft opinion

6. Urges the Commission and the Member States to further develop secure and effective e-services; notes, particularly where e-identification and e-signatures are concerned, that cross-border interoperability is *necessary in order to*

Amendment

6. Urges the Commission and the Member States to further develop secure and effective e-services; notes, particularly where e-identification and e-signatures are concerned, that cross-border interoperability is *a prerequisite for* the

PE492.604v01-00 18/29 AM\906274EN.doc

boost the adoption of cross-border e-invoicing solutions;

adoption of cross-border e-invoicing solutions;

Or. en

Amendment 36 Silvia-Adriana Țicău

Draft opinion Paragraph 6 a (new)

Draft opinion

Amendment

6a. In its resolution of 20 April 2012 on a competitive digital single market – e-government as a spearhead, the European Parliament stresses the importance of legal certainty, a clear technical environment and open and interoperable solutions for e-invoicing based on legal requirements, business processes and common technical standards in order to facilitate mass adoption;

Or. ro

Amendment 37 Teresa Riera Madurell

Draft opinion Paragraph 6 a (new)

Draft opinion

Amendment

6a. Points to the need to continue working on the regulatory harmonisation of intellectual property rights, whilst respecting citizens' rights and freedoms, in order to facilitate the completion of the Digital Single Market;

Or. es

Amendment 38 Krišjānis Kariņš

Draft opinion Paragraph 6 a (new)

Draft opinion

Amendment

6a. Calls on the Commission to assess the need to lay down uniform, open European Union standards for e-identification and e-signatures;

Or. lv

Amendment 39 Silvia-Adriana Țicău

Draft opinion Paragraph 6 b (new)

Draft opinion

Amendment

6b. Notes that the major obstacles to cross-border access to the electronic services provided by public administrations are linked to the use of electronic signatures and identification and the non-compatibility of egovernment systems at EU level; welcomes the Commission proposal for a regulation on electronic identification and trust services for electronic transactions in the internal market;

Or. ro

Amendment 40 Jürgen Creutzmann

Draft opinion Paragraph 7

PE492.604v01-00 20/29 AM\906274EN.doc

Draft opinion

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance;

Amendment

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance; stresses however that with a view to the interdependency of network infrastructures the development of a European cyber incident contingency plan should be fostered and international cooperation in this area intensified;

Or. en

Amendment 41 Teresa Riera Madurell

Draft opinion Paragraph 7

Draft opinion

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance;

Amendment

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance, and points out that net and information security is the responsibility of all stakeholders, including operators, service providers, software and hardware, as well as users;

Or. es

Amendment 42 Amelia Andersdotter

Draft opinion Paragraph 7

Draft opinion

7. Calls on the Member States to draw up national *cyber-incident contingency* plans *to cope with cyber-disruptions or cyber-attacks with cross-border relevance*;

Amendment

7. Calls on the *Commission and the*Member States to draw up *European and*national *critical information*infrastructure plans and develop strategies
for a more resilient and reliable
infrastructure which will enable the
emergence of the digital market;

Or. en

Amendment 43 Rachida Dati

Draft opinion Paragraph 7

Draft opinion

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance;

Amendment

7. Calls on the Member States to draw up national cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance; recommends encouraging cyber-security training and education programmes, both for members of the public and for experts and professionals;

Or. fr

Amendment 44 Silvia-Adriana Țicău

Draft opinion Paragraph 7

Draft opinion

7. Calls on the Member States to draw up *national* cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance;

Amendment

7. Calls on the Member States to draw up cyber-incident contingency plans to cope with cyber-disruptions or cyber-attacks with cross-border relevance;

PE492.604v01-00 22/29 AM\906274EN.doc

Amendment 45 Amelia Andersdotter

Draft opinion Paragraph 7 a (new)

Draft opinion

Amendment

7a. Makes note of the work already done in the European Parliament on criminal activities online, but stresses in this regard that the security industry and its strong potential for small-scale European entrepreneurship and innovation is dependent on the accessibility and legal deployment of testing equipment for network resilience and security;

Or. en

Amendment 46 Gunnar Hökmark

Draft opinion Paragraph 8

Draft opinion

8. Emphasises that the internet is increasingly being used on mobile devices and calls for action to ensure increased radio spectrum availability for the mobile internet;

Amendment

8. Emphasises that the internet is increasingly being used on mobile devices and calls for action to ensure increased radio spectrum availability for the mobile internet; the future allocation of radio spectrum must pave the way for European leadership in wireless applications and new services in order to boost European growth and global competitiveness;

Or en

Amendment 47 Silvia-Adriana Țicău

Draft opinion Paragraph 8

Draft opinion

8. Emphasises that the internet is increasingly being used on mobile devices and calls for action to ensure increased radio spectrum availability for the mobile internet:

Amendment

8. Emphasises that the internet is increasingly being used on mobile devices and calls for action to ensure increased radio spectrum availability for the mobile internet and for an higher quality of the eservices provided on these mobile devices;

Or. en

Amendment 48 Gunnar Hökmark

Draft opinion Paragraph 8 a (new)

Draft opinion

Amendment

8a. Notes that both fixed and mobile data traffic is growing exponentially and that a number of actions, such as further harmonised spectrum allocations for wireless broadband, increased spectrum efficiency and a rapid roll out of next generation access networks, will be crucial to manage this increase;

Or. en

Amendment 49 Gunnar Hökmark

Draft opinion Paragraph 8 b (new)

PE492.604v01-00 24/29 AM\906274EN.doc

Amendment

8b. Assessing the need to open up the 700 MHz band for mobile data traffic is a necessary first step to meet future capacity requirements;

Or. en
