Motion for a resolution

Paragraph 370 a (new)

Motion for a resolution

Amendment

370a. Notes that the Court criticises the absence of a clear selection method which would ensure that the projects selected correspond to the priorities of the Accession Partnership, and welcomes the Court's conclusion that, while there were indeed some weaknesses in the Commission's management of pre-accession assistance to Turkey in the TPA period (i.e. 2002-2006), the Commission has since then taken action to improve procedures for the IPA, although the effectiveness of the changes can only be assessed in the future;

Paragraph 371

Motion for a resolution

Amendment

371. Is shocked at the conclusions of the special report, in which the Court of Auditors criticises the fact that the Commission did not ensure that there was an effective system for assessing individual projects in the period 2002-2008 and that it is therefore not easy to assess how the funds were managed, including whether value for money was obtained; *deleted*

Paragraph 376

Motion for a resolution

Amendment

376. Given the inability to measure progress towards accession goals, regards the enhancement of resources for Turkey in the period 2007-2013 as inadequate and considers a yearly continuation of the financial level of accession assistance from 2006 as adequate until such time as measurable priorities are unambiguously defined and implemented in the respective regulations;

Paragraph 378

Motion for a resolution

Amendment

378. Calls on the Commission to amend the objectives of the Instrument for Pre-Accession Assistance, which has to be accessible not only by virtue of EU membership but also by virtue of an intensified relationship with the EU, for example by means of special neighbourhood instruments or special forms of membership, in the event that inadequate political reforms and deficient implementation of the Instrument for Pre-Accession Assistance by the candidate for accession require such action.
