Paragraph 1 a (new)

Motion for a resolution

Amendment

1a. Recalls that the missed targets of the former ‘Lisbon strategy’, particularly as regards reducing poverty and creating jobs, have had a negative effect on a large part of the population in the Member States, and the continued implementation of these policies under the current Europe 2020 strategy shows that the EU’s budget strategy for 2013 should instead focus on reaching solutions in terms of:

(i) wealth creation (increased productivity),

(ii) fair redistribution (combating income inequalities),

(iii) combating social exclusion and unemployment;

Paragraph 49 a (new)

Motion for a resolution

Amendment

49a. Deplores the reduction in appropriations earmarked for the common organisation of the market in fishery products by comparison with the 2012 budget (a drop of 10.74% in CA and 6.56% in PA), which will restrict intervention mechanisms at a time when they have been made all the more necessary by the persisting and worsening socio-economic problems in the sector; believes it is essential to devote more budget resources to this area in order to boost stability and incomes in the fisheries sector;
