

**Amendment 2****Werner Kuhn, Alain Cadec, Carmen Fraga Estévez and others****Report****A7-0253/2012****Nikolaos Salavrakos**Reform of the Common Fisheries Policy - overarching communication  
COM(2011)0417 – 2011/2290(INI)**Motion for a resolution****Paragraph 9***Motion for a resolution*

9. Stresses that the CFP must apply the precautionary approach to fisheries management and ensure that the sustainable exploitation of living marine biological resources restores and maintains populations of all stocks of harvested species **above** levels capable of producing maximum sustainable yield (MSY); stresses that a clear timetable, including a final deadline, must be established in the basic regulation; emphasises that the provision of appropriate economic resources for the implementation of the CFP is necessary in order to phase out overfishing wherever it is demonstrated and achieve sustainable stock conservation, which requires reliable scientific data;

*Amendment*

9. Stresses that the CFP must apply the precautionary approach to fisheries management and ensure that the sustainable exploitation of living marine biological resources restores and maintains populations of all stocks of harvested species **at** levels **close to those** capable of producing maximum sustainable yield (MSY); stresses that a clear timetable, including a final deadline, must be established in the basic regulation; emphasises that the provision of appropriate economic resources for the implementation of the CFP is necessary in order to phase out overfishing wherever it is demonstrated and achieve sustainable stock conservation, which requires reliable scientific data;
