Proposal for a regulation

Article 5 – paragraph 1 – indent 8

Text proposed by the Commission

Amendment

– ‘ecosystem-based approach to fisheries management’ means an approach ensuring that *benefits from living aquatic resources are high while the direct and indirect impacts of fishing operations on marine ecosystems are low and not detrimental to the future functioning, diversity and integrity of those ecosystems*;

– ‘ecosystem-based approach to fisheries management’ means an approach ensuring that *decision-making considers the impacts of fishing, other human activities and environmental factors on target stocks and all other species belonging to the same ecosystem or associated with or dependent upon the target stocks, ensuring that the collective pressure of such activities is kept within levels compatible with the achievement of good environmental status*;
