Proposal for a regulation

Recital 15

Text proposed by the Commission

Amendment

(15) Marine biological resources around the Azores, Madeira and the Canary Islands should continue to be especially protected since they contribute to the preservation of the local economy of these islands, having regard to the structural, social and economic situation of those islands. The limitation of certain fishing activities in those waters to fishing vessels registered in the ports of the *Azores, Madeira and the Canary Islands* should therefore be maintained.

(15) Marine biological resources around the Azores, Madeira and the Canary Islands should continue to be especially protected since they contribute to the preservation of the local economy of these islands, having regard to the structural, social and economic situation of those islands, ***and that protection should be extended to all the outermost regions.*** The limitation of certain fishing activities in those waters to fishing vessels registered in the ports of the ***outermost regions*** should therefore be maintained.

Proposal for a regulation

Article 6 – paragraph 3

Text proposed by the Commission

3. In the waters up to 100 nautical miles from the baselines of the *Azores, Madeira and the Canary Islands*, the Member States concerned may from 1 January 2013 to 31 December 2022 restrict fishing to vessels registered in the ports of those *islands. Such restrictions shall not apply to* Union vessels that traditionally fish in those waters, *in so far as those* vessels *do* not exceed the fishing effort traditionally exerted. Member States shall inform the Commission of the restrictions put in place under this paragraph.

Amendment

3. In the waters up to 100 nautical miles from the baselines of *all the outermost regions of the Union, and in their fishing grounds and seamounts beyond 100 nautical miles*, the Member States concerned may from 1 January 2013 to 31 December 2022 restrict fishing to vessels registered in the ports of those *regions. Continued access by* Union vessels that *can prove that they* traditionally fish in those waters *shall be conditional on the sustainability of fish stocks. Those* vessels *may* not exceed the fishing effort *that they have* traditionally exerted. Member States shall inform the Commission of the restrictions put in place under this paragraph.

Article 9 – paragraph 1

Text proposed by the Commission

Amendment

1. Multiannual plans providing for conservation measures to maintain or restore fish stocks above levels capable of producing maximum sustainable yield shall be established as a priority.

1. Multiannual plans providing for conservation measures to maintain or restore fish stocks above levels capable of producing maximum sustainable yield shall be established as a priority. ***These plans shall take into account the socio-economic aspects involved in the necessary conservation measures and provide for compensation for fishermen and local economies so as not to impede the development of coastal and maritime regions.***
