**Motion for a resolution**

**Paragraph 14**

*Motion for a resolution*

14. Stresses *that the EU's prevailing industrial agriculture will make it impossible to meet* SDG 2 on sustainable agriculture and the SDGs on preventing pollution and the overuse of water (6.3 & 6.4), on improving soil quality (2.4 & 15.3), and on halting biodiversity loss (15) at EU level;

*Amendment*

14. Stresses *the importance of meeting* SDG 2 on sustainable agriculture and the SDGs on preventing pollution and the overuse of water (6.3 & 6.4), on improving soil quality (2.4 & 15.3), and on halting biodiversity loss (15) at EU level;

**Paragraph 26**

*Motion for a resolution*

26. Notes that research shows that *intensive* agriculture is a key driver of loss of soil organic carbon and soil biodiversity; calls on the EU to promote methods that build soil quality, such as rotations including legumes and livestock, thereby enabling the EU to meet SDGs 2.4 and 15.3;

*Amendment*

26. Notes that research shows that *unsustainable* agriculture is a key driver of loss of soil organic carbon and soil biodiversity; calls on the EU to promote methods that build soil quality, such as rotations including legumes and livestock, thereby enabling the EU to meet SDGs 2.4 and 15.3;

**Paragraph 50**

*Motion for a resolution*

*Amendment*

50. Calls on the Commission and the Member States to re-adjust their approach to migration with a view to developing a migration policy in line with SDG 10 and a fact-based perception of migrants and asylum-seekers and with countering xenophobia and discrimination against migrants, as well as with a view to investing in key drivers for human development; reiterates its concerns that the new policies and financial instruments to address the root causes of irregular and forced migration may be implemented to the detriment of development objectives, and asks for the European Parliament to be given a stronger scrutinising role in this regard so as to ensure that the new funding tools are compatible with the legal basis, principles and commitments of the EU, especially the 2030 Agenda; ***rejects the idea that conditionality of aid based on border control, the management of migratory flows or readmission agreements should constitute the basis of partnership and development cooperation with third countries;***

**Paragraph 97 a (new)**

*Motion for a resolution*

*Amendment*

***97a. Recalls that, under the 7th Environment Action Programme, the Commission is required to assess the environmental impact, in a global context, of Union consumption; stresses the positive impact that sustainable lifestyles can have on human health and reducing greenhouse gas emissions; reminds the Commission that SDG 12.8 requires that the public have information and awareness regarding sustainable development and lifestyles; accordingly, urges the Commission and the Member States to develop programmes to increase public awareness of the implications of different types of consumption for human health, the environment, food security and climate change; calls on the Commission to publish the communication on a sustainable European food system without delay;***

**Paragraph 107 a (new)**

*Motion for a resolution*

*Amendment*

***107a. Points out that the EU farming sector is already making a contribution to sustainability; notes, however, that the common agricultural policy (CAP) must be enabled to better respond to current and future challenges; calls on the Commission to examine how the CAP and sustainable farming systems can best contribute to the SDGs in order to guarantee stable, safe and nutritious food as well as protecting and enhancing natural resources while tackling climate change; asks the Commission, in the framework of the upcoming communication on the post-2020 CAP, to come forward with proposals to further improve the efficiency of greening measures and to ensure the attainment of SDGs 2, 3, 6, 12, 13, 14 & 15; calls on the Commission also to promote locally and ecologically produced food with a low carbon, land and water footprint; highlights the importance of agro-ecosystems and sustainable forest management and of providing incentives for the sustainable restoration of disused agricultural areas; underlines the need to ensure that all EU policies effectively achieve the set objectives through strict compliance and through greater coherence across policy areas; stresses***

*that this is of particular relevance with regard to the sustainable management of natural resources and the instruments dedicated to this under the CAP;*
