(2018/0166R(APP))

**Draft interim report**

**Paragraph 1 a (new)**

*Draft interim report*

*Amendment*

*1a. Considers that the 2021-2027 MFF should primarily result from Member States' contributions based on their gross national income and should aim at ensuring a redistributive function; calls for an adjustment of each Member State's contribution in proportion to its size and degree of development, based on its gross national income, taking into account the levels of economic and social development of the various Member States; rejects any kind of European tax, given that tax policy must remain a matter of exclusive competence for each country;*
