monitoring and evaluation of policies and initiatives supported by the AMF strand under shared management with regards to all the objectives of the fund enlisted in Art 3.

Or. en

Justification

Since the parallel negotiations of the CPR (Common Provisions Regulation) have not been finalized yet and the partnership principle should be included in the AMF programming, implementation, monitoring and evaluation of policies and initiatives under the shared management, it is important to have a clear and binding provision on this matter within the AMF regulation. Amendment

6. The thematic facility shall in particular, support actions falling under the implementation measure 2(b) of Annex II that are implemented by the local and regional authorities or civil society organisations. ***In that regard, a minimum of 7% of the financial envelope of the thematic facility shall be granted under direct or indirect management to local and regional authorities or civil society organisations implementing integration and reception actions.***

Justification

Integration of migrants and refugees takes place locally, in municipalities, usually with a direct involvement of municipal authorities and local civil society organisations (CSO), schools, clubs, etc. According to the AMIF mid-term review, local authorities and their representative bodies at national and European levels have advocated for direct access to AMIF emergency assistance in order to deal in a timely manner with people arriving. A similar call for direct access to EC managed funding for the AMIF has been made from CSOs. Furthermore, municipalities are often, and CSO always, more flexible than central authorities and are able to react fast on urgent needs and arrivals. In addition, they should be encouraged and motivated to create long-term integration and reception measures. Therefore, local authorities and CSOs have certainly an important role to play in implementation measures covered in the Annex.
