

**The Greens | European Free Alliance**  
in the European Parliament

Brussels, 29 March 2010

To Members of Parliament of the Green/EFA family

**Joint Parliamentary Meeting "*Towards a European Energy Community for the 21st Century?*", 07 & 08 June 2010, European Parliament, **Brussels****

Dear Member of Parliament,

This is to invite you to the next **Joint Parliamentary Meeting (JPM) "*Towards a European Energy Community for the 21st Century?*"**. The event will take place in Brussels from **7 to 8th June 2010** and is co-organised by the European Parliament and the Spanish Parliament. It will gather about 150 national and 60 European Parliamentarians.

As usual in this context we will organise a "**Political Family Meeting**" with sandwich lunch between Greens/EFA deputies from the national and the European Parliament, as well as advisors in the field. It will take place on **Monday, 07 June 2010, from 12:30 to 15:00 hrs**, in room ASP 5 E 1 of the European Parliament. Simultaneous interpretation in English, French and German language will be provided.

During this meeting we would like to exchange views on the challenges and design of a European Energy Community of the 21st century and look into a relevant publication from the Böll Foundation on a "European community for renewable energies (*erene*)". A draft agenda and preparatory documentation will be sent to you in due course.

Please let us know as soon as possible if you are part of your national delegation and notify your participation to me by Email: [joachim.denkinger@europarl.europa.eu](mailto:joachim.denkinger@europarl.europa.eu).

I look forward to meeting you in Brussels,

Best regards,  
Jochen
