Proposal for a

COUNCIL DECISION

on the signing, on behalf of the Union, and provisional application of the Protocol on the implementation of the Fisheries Partnership Agreement between the European Community and the Republic of Guinea-Bissau (2019-2024)
EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

On the basis of the relevant negotiating directives\(^1\), the Commission conducted negotiations with the Government of the Republic of Guinea-Bissau with a view to concluding a new protocol to the Fisheries Partnership Agreement between the European Community and the Republic of Guinea-Bissau\(^2\). Following these negotiations, a new Protocol was initialled on 15 November 2018. The Protocol covers a period of five years from the date of its provisional application, i.e. from the date on which it was signed, as stated in Article 16 thereof.

• Consistency with existing provisions in the policy area

In accordance with the priorities of the fisheries policy reform\(^3\), the new Protocol provides fishing opportunities for Union vessels in Guinea-Bissau waters, on the basis of the best available scientific advice and following the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). This new Protocol takes account of the results of an evaluation of the previous Protocol (2014-2018) and of a forward-looking assessment of whether a new Protocol should be concluded. Both were carried out by external experts. The Protocol will also enable the European Union and the Republic of Guinea-Bissau to work more closely on promoting sound exploitation of fishery resources in Guinea-Bissau waters and support efforts by Guinea-Bissau to develop its blue economy, in the interests of both parties.

The Protocol provides for fishing opportunities in the following categories:

1. shrimp freezer trawlers;
2. fin-fish and cephalopod freezer trawlers;
3. small pelagic trawlers;
4. tuna freezer seiners and longliners;
5. pole-and-line tuna vessels.

For the first three categories, fishing opportunities are expressed in terms of fishing effort (GRT) for the first two years and in terms of catch limit (TAC) for the last three years.

• Consistency with other Union policies

The negotiation of a new protocol to the Fisheries Partnership Agreement with Guinea-Bissau forms part of the Union’s external action in relation to ACP countries and takes into account, in particular, Union objectives on respecting democratic principles and human rights.

---

\(^1\) Adopted by the Environment Council on 28 February 2017.
2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

• Legal basis
The legal basis chosen is the Treaty on the Functioning of the European Union, Article 43(2) of which establishes the Common Fisheries Policy and Article 218(5) the relevant stage of the procedure for the negotiation and conclusion of agreements between the Union and third countries.

• Subsidiarity (for non-exclusive competence)
The proposal falls under the exclusive competence of the European Union.

• Proportionality
The proposal is proportionate to the objective of establishing a legal, environmental, economic and social governance framework for fishing activities carried out by Union vessels in third country waters, as set out in Article 31 of the Regulation establishing the Common Fisheries Policy. It complies with those provisions as well as with those on financial assistance to third countries laid down in Article 32 of that Regulation.

3. RESULTS OF EX POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

• Ex post evaluations/fitness checks of existing legislation
In 2016, the Commission carried out an ex post evaluation of the then Protocol to the Fisheries Partnership Agreement between the European Union and Guinea-Bissau, and an ex ante evaluation of a possible renewal of the Protocol. The conclusions of the evaluation are presented in a separate working document 4.

The evaluation report concluded that the EU tuna fishing sector has a strong interest in fishing in Guinea-Bissau and that a renewal of the Protocol would help strengthen monitoring, control and surveillance and contribute to improved fisheries governance in the region.

• Consultation of interested parties
The Member States, industry representatives and international civil society organisations, as well as Guinea-Bissau’s fisheries administration and civil society representatives, were consulted as part of the evaluation. Consultations also took place in the framework of the Long Distance Advisory Council.

• Collection and use of expertise
The Commission used an independent consultant for the ex post and ex ante evaluations, in accordance with the provisions of Article 31(10) of the Regulation establishing the Common Fisheries Policy.

4. BUDGETARY IMPLICATIONS
The annual financial contribution from the European Union is EUR 15 600 000, based on:

(a) an annual amount for access to fishery resources for the categories provided for in the Protocol, set at EUR 11 600 000 per year for the entire duration of the Protocol;

(b) support for the development of the sectoral fisheries policy and the blue economy of Guinea-Bissau for an amount of EUR 4 000 000 per year for the entire duration of the

Protocol. This support meets the objectives of Guinea-Bissau’s national policy on the sustainable management of its continental and maritime fishery resources for the entire duration of the Protocol.

The annual amount for commitment and payment appropriations is established during the annual budgetary procedure, including for the reserve line for protocols not having entered into force at the beginning of the year.

5. OTHER ELEMENTS

- Implementation plans and monitoring, evaluation and reporting arrangements

The monitoring arrangements are provided for in the Protocol.

5 In accordance with the Interinstitutional Agreement on cooperation in budgetary matters (2013/C 373/01).

1.1. Title of the proposal/initiative
Proposal for a Council Decision on the signing, on behalf of the Union, and provisional application of the Protocol on the implementation of the Fisheries Partnership Agreement between the European Community and the Republic of Guinea-Bissau.

1.2. Policy area(s) concerned

| 11 – Maritime affairs and fisheries |
| 11.03 – Compulsory contributions to regional fisheries management organisations (RFMOs) and other international organisations and sustainable fisheries agreements (SFAs) |
| 11.03.01 – Establishing a governance framework for fishing activities carried out by Union fishing vessels in third country waters. |

1.3. The proposal/initiative relates to:

X a new action
☐ a new action following a pilot project/preparatory action
☐ the extension of an existing action
☐ a merger or redirection of one or more actions towards another/a new action

1.4. Objective(s)

1.4.1. General objective(s)

The negotiation and conclusion of Sustainable Fisheries Partnership Agreements (SFPAs) with third countries meet the general objective of giving EU fishing vessels access to the fishing zones of third countries and developing a partnership with those countries with a view to strengthening the sustainable exploitation of fishery resources outside EU waters.

SFPAs also ensure consistency between the principles governing the Common Fisheries Policy and commitments made under other European policies (sustainable use of third-country resources, combating illegal, unreported and unregulated (IUU) fishing, integration of partner countries into the global economy and better political and financial governance of fisheries).

1.4.2. Specific objective(s)

Specific objective

To contribute to sustainable fishing in non-EU waters, maintain a European presence in distant-water fisheries and protect the interests of the European fisheries sector and consumers by negotiating and concluding SFPAs with coastal states, consistent with other European policies.

ABM/ABB activity(ies) concerned

---

8 As referred to in Article 58(2)(a) or (b) of the Financial Regulation.
Maritime affairs and fisheries, to establish a governance framework for fishing activities carried out by European Union fishing vessels in third country waters (SFAs) (budget line 11.03.01).

1.4.3. Expected result(s) and impact
Specify the effects which the proposal/initiative should have on the targeted beneficiaries/groups.

The conclusion of the Protocol enables the establishment of a strategic fisheries partnership between the European Union and the Republic of Guinea-Bissau. The conclusion of the Protocol will create fishing opportunities for Union vessels in Guinea-Bissau waters.

The Protocol will also contribute to better management and conservation of fishery resources, through financial support (sectoral support) for the implementation of programmes adopted at national level by the partner country, in particular as regards monitoring and combating illegal fishing, and support for the small-scale fisheries sector.

Finally, the Protocol will contribute to Guinea-Bissau’s blue economy, promoting growth linked to maritime activity and the sustainable exploitation of its marine resources.

1.4.4. Performance indicators
Specify the indicators for monitoring progress and achievements.

Fishing opportunity utilisation rates (annual uptake of fishing authorisations as a percentage of availability under the Protocol).

Catch data (gathering and analysis) and the commercial value of the Agreement.

Contribution to employment and to added value in the Union and to stabilising the Union market (in aggregate with other SFPAs).

Contribution to improving research, surveillance and control of fishing activity by the partner country and the development of its fisheries sector, in particular its small-scale fisheries sector.

1.5. Grounds for the proposal/initiative

1.5.1. Requirement(s) to be met in the short or long term, including a detailed timeline for implementing the initiative

It is intended that the new Protocol will apply provisionally from the date of its signature so as to minimise any interruption of fishing operations which are ongoing under the current Protocol.

The new Protocol will provide a framework for the fishing activities of the Union fleet in the fishing zone of Guinea-Bissau and will authorise EU vessel owners to apply for fishing authorisations to fish in that zone. In addition, the new Protocol enhances cooperation between the EU and Guinea-Bissau, with a view to promoting the development of a sustainable fisheries policy. It provides, in particular, for vessels to be monitored via VMS and for the electronic transmission of catch data. The sectoral support available under the Protocol will help Guinea-Bissau with its national fisheries strategy, including the fight against IUU fishing.

1.5.2. Added value of Union involvement (it may result from different factors, e.g. coordination gains, legal certainty, greater effectiveness or complementarity). For
the purposes of this point, ‘added value of Union involvement’ is the value resulting from Union intervention which is additional to the value that would have been otherwise created by Member States alone.

If the Union did not agree on a new Protocol, this would impede the fishing activity of Union vessels as the Agreement contains a clause excluding fishing activities not taking place in the framework defined by a protocol to the Agreement. Consequently, the added value for the EU’s long-distance fleet is very clear. The Protocol also offers a framework for enhanced cooperation between the Union and Guinea-Bissau.
1.5.3. Lessons learnt from similar experiences in the past

The analysis of past catches in the Guinea-Bissau fishing zone and of recent catches under similar protocols in the region, as well as the available assessments and scientific advice, have led the parties to set fishing opportunities expressed in terms of fishing effort (GRT) for the first two years, and in terms of catch limit (TAC) for the last three years, for the following categories: shrimp freezer trawlers, fin-fish and cephalopod freezer trawlers and small pelagic trawlers. The Protocol also sets fishing opportunities for tuna freezer seiners and longliners and for pole-and-line tuna vessels. Sectoral support has been set at a relatively high level to take into account needs with respect to building the capacity of Guinea-Bissau’s fisheries authorities, the priorities of the national fisheries strategy and plans for supporting the blue economy of this coastal State.

1.5.4. Compatibility with the Multiannual Financial Framework and possible synergies with other appropriate instruments

Funds provided as financial compensation for access under the FPA constitute fungible revenue in the national budget of Guinea-Bissau. However, funds intended for sectoral support are allocated (generally by introduction in the annual budget law) to the Ministry responsible for fisheries, as a condition for the conclusion and monitoring of FPAs. These financial resources are compatible with other sources of funding from other providers of international funding for carrying out projects and/or programmes at national level in the fisheries sector.

1.5.5. Assessment of the different available financing options, including scope for redeployment

1.6. Duration and financial impact of the proposal/initiative

X limited duration
- X In force from 2019 to 2024
- X Financial impact from 2019 to 2024 for commitment appropriations and from 2019 to 2024 for payment appropriations.

☐ unlimited duration

2. MANAGEMENT MEASURES

2.1. Monitoring and reporting rules

*Specify frequency and conditions.*

The Commission (DG MARE, in cooperation with its fisheries attaché based in the region – Dakar, Senegal) will ensure regular monitoring of the implementation of the Protocol, as regards the use by operators of fishing opportunities, catch data and compliance with conditions for sectoral support.

The FPA provides for at least one annual meeting of the Joint Committee, at which the Commission and Guinea-Bissau will review the implementation of the Agreement and Protocol and, if necessary, adjust the programming and, if applicable, the financial contribution.

2.2. Management and control system(s)

2.2.1. *Justification of the management mode(s), the funding implementation mechanism(s), the payment modalities and the control strategy proposed*

The identified risk is the under-use of fishing opportunities by EU vessel owners and the under-use or delayed use by Guinea-Bissau of funds intended to finance the sectoral fisheries policy.

2.2.2. *Information concerning the risks identified and the internal control system(s) set up to mitigate them*

Extensive dialogue is planned on the programming and implementation of the sectoral policy laid down in the Agreement and the Protocol. Joint analysis of results, as referred to in Article 5 of the Protocol, also forms part of these control methods.

In addition, the Agreement and the Protocol contain specific clauses for their suspension, under certain conditions and in given circumstances.
2.2.3. *Estimation and justification of the cost-effectiveness of the controls (ratio of ‘control costs ÷ value of the related funds managed’), and assessment of the expected levels of risk of error (at payment and at closure)*

---

2.3. **Measures to prevent fraud and irregularities**

*Specify existing or envisaged prevention and protection measures, e.g. from the Anti-Fraud Strategy.*

The Commission undertakes to establish a political dialogue and regular coordination with the Republic of Guinea-Bissau with a view to improving the management of the Agreement and the Protocol and strengthening the Union’s contribution to sustainable resources management. Any payment which the Commission makes under an FPA is subject to the Commission’s standard rules and budgetary and financial procedures. In particular, the bank accounts of the third countries into which the financial contribution is paid are fully identified. Article 4(7) of the Protocol provides that the financial contribution for access is to be paid into a single Public Treasury account opened at Guinea-Bissau’s Central Bank, and the part intended for development of the sector into a public Guinea-Bissau Treasury account.
