The 2019 Parlemeter, conducted as Eurobarometer survey 92.2 for the European Parliament by

**KANTAR**

was carried out from 8 to 22 October 2019 in all 28 EU Member States. 27,607 respondents, drawn as a representative sample from the general population aged 15+, were interviewed face-to-face.

The present Eurobarometer survey examines European citizens' opinions on EU membership, on their attitudes towards European democracy and the role of the European Parliament. Questions on priority policies for the European Parliament at the beginning of the new legislative term, with a special focus on climate change and environmental issues, complete the survey together with a dedicated set of questions on citizens' expectations as to more information from and engagement with the European Parliament and its Members.
