

Precision Engineering Czech Republic [since 1998]

Pavla Breckova
International Operations & Strategy
breckova@audacio.cz

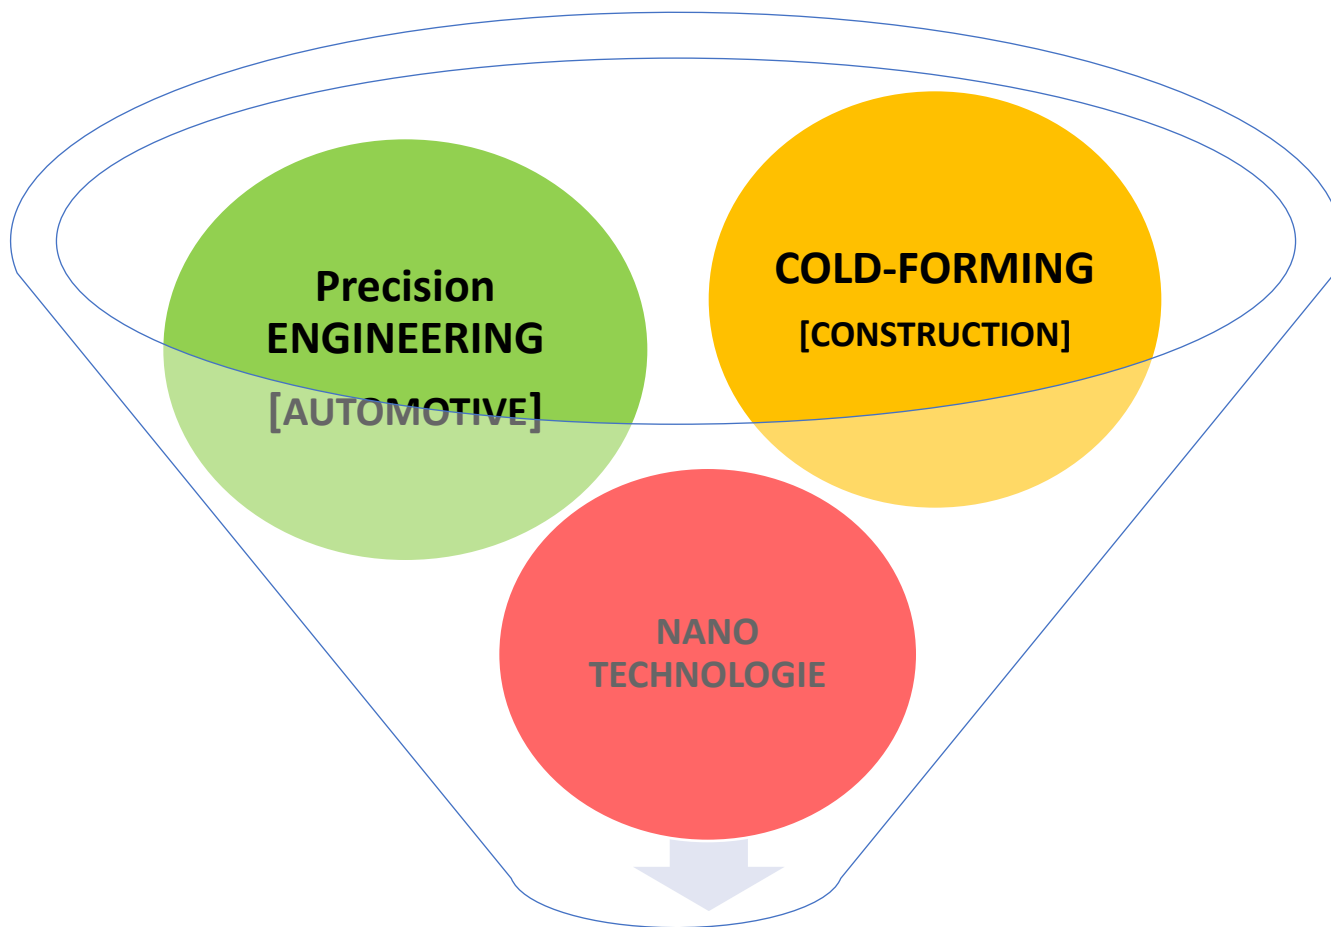

Presentation:

SME Workshop at the European Parliament

Brussels, 17 February, 2016

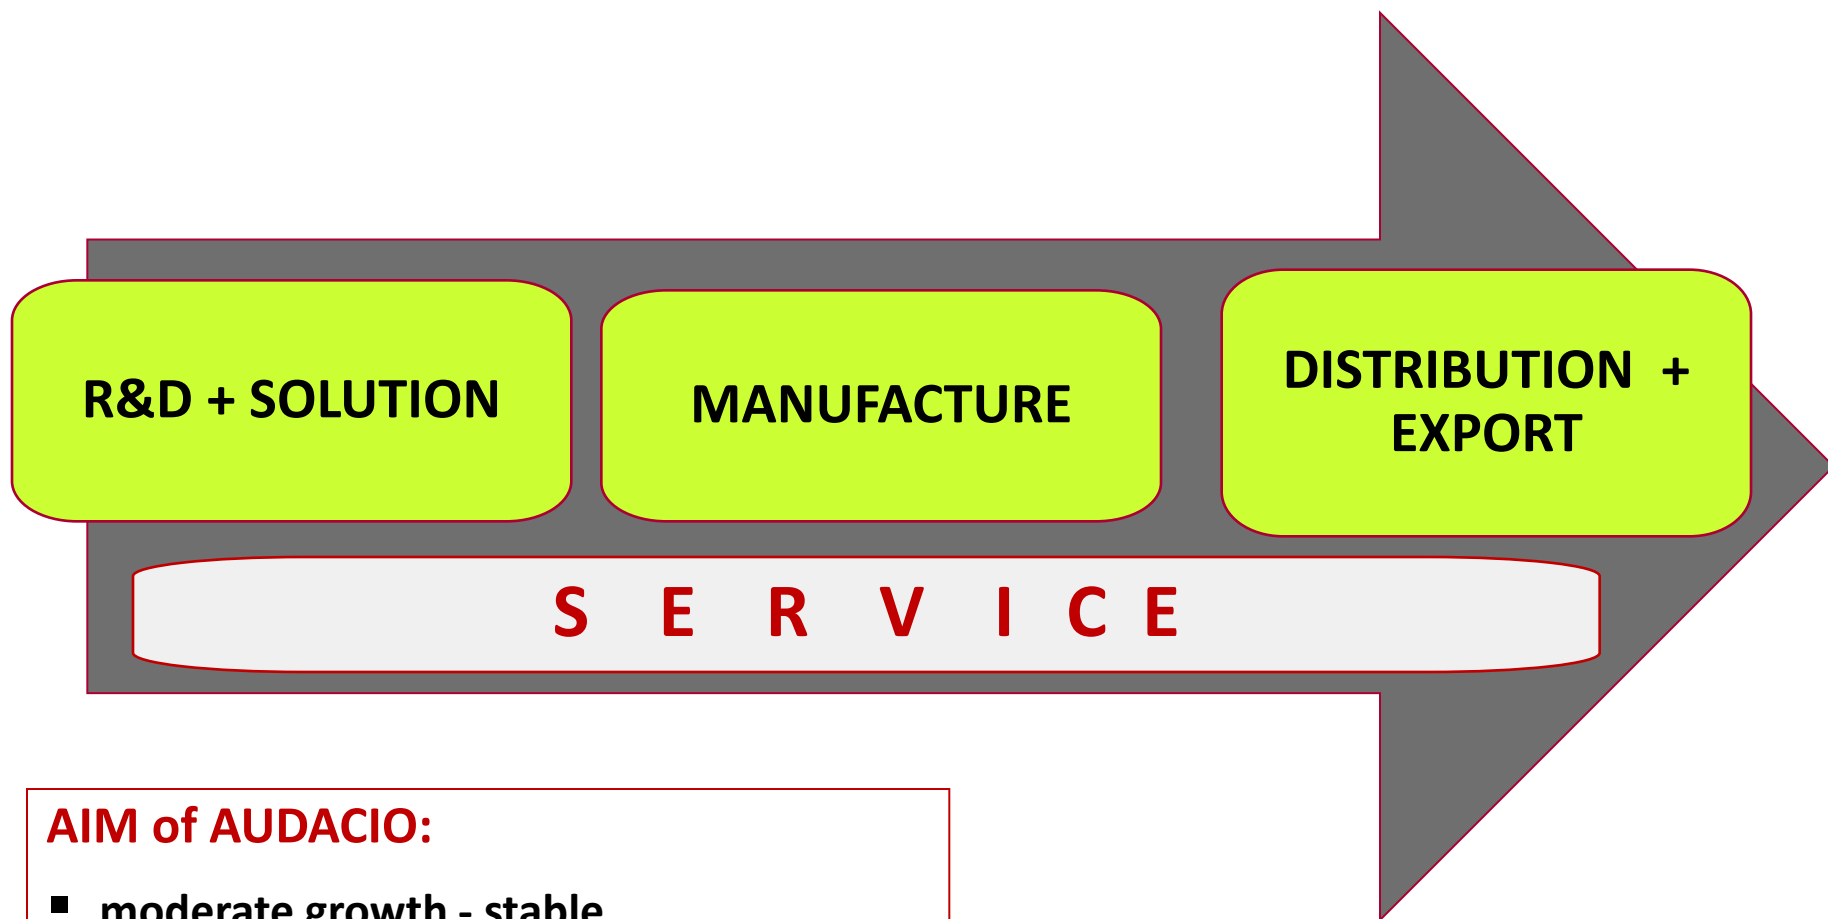

design and construction
precision engineering
nanotechnology

planary & volumetric cold-forming
automatic parts manufacture
R&D and innovation

- Founded 1998
- Manufacture since 2005
- R&D since 2011

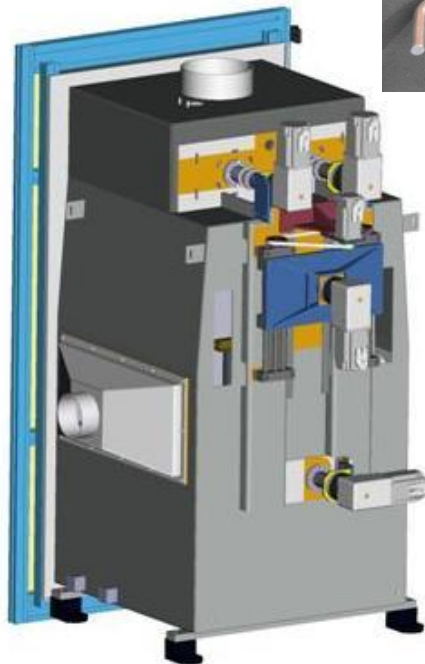

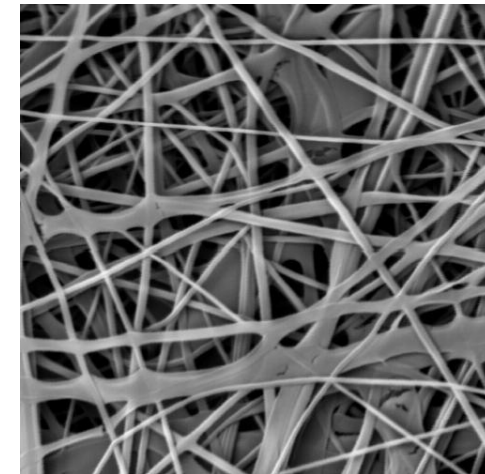

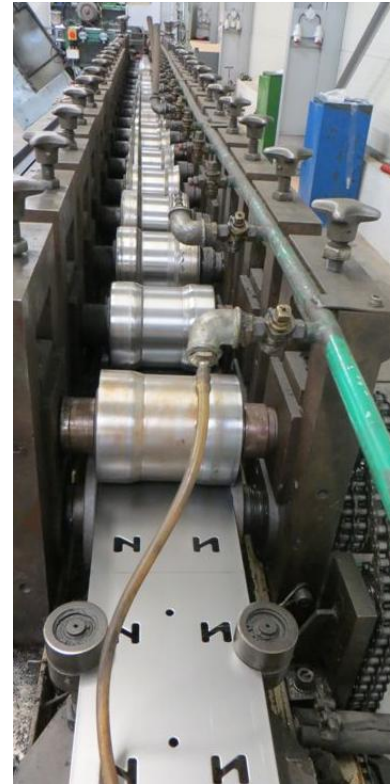

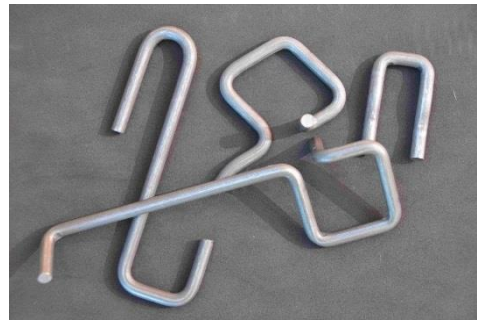

- **QUALITY**
- *Top-tech & EXPERIENCE,*
 - *PARTNERSHIP*
- **MODERATE GROWTH**

AIM of AUDACIO:

- moderate growth - stable
- to strengthen assemblies – VALUE ADDED
- to increase space for INNOVATIONS – VA
- to work with SOLID partners

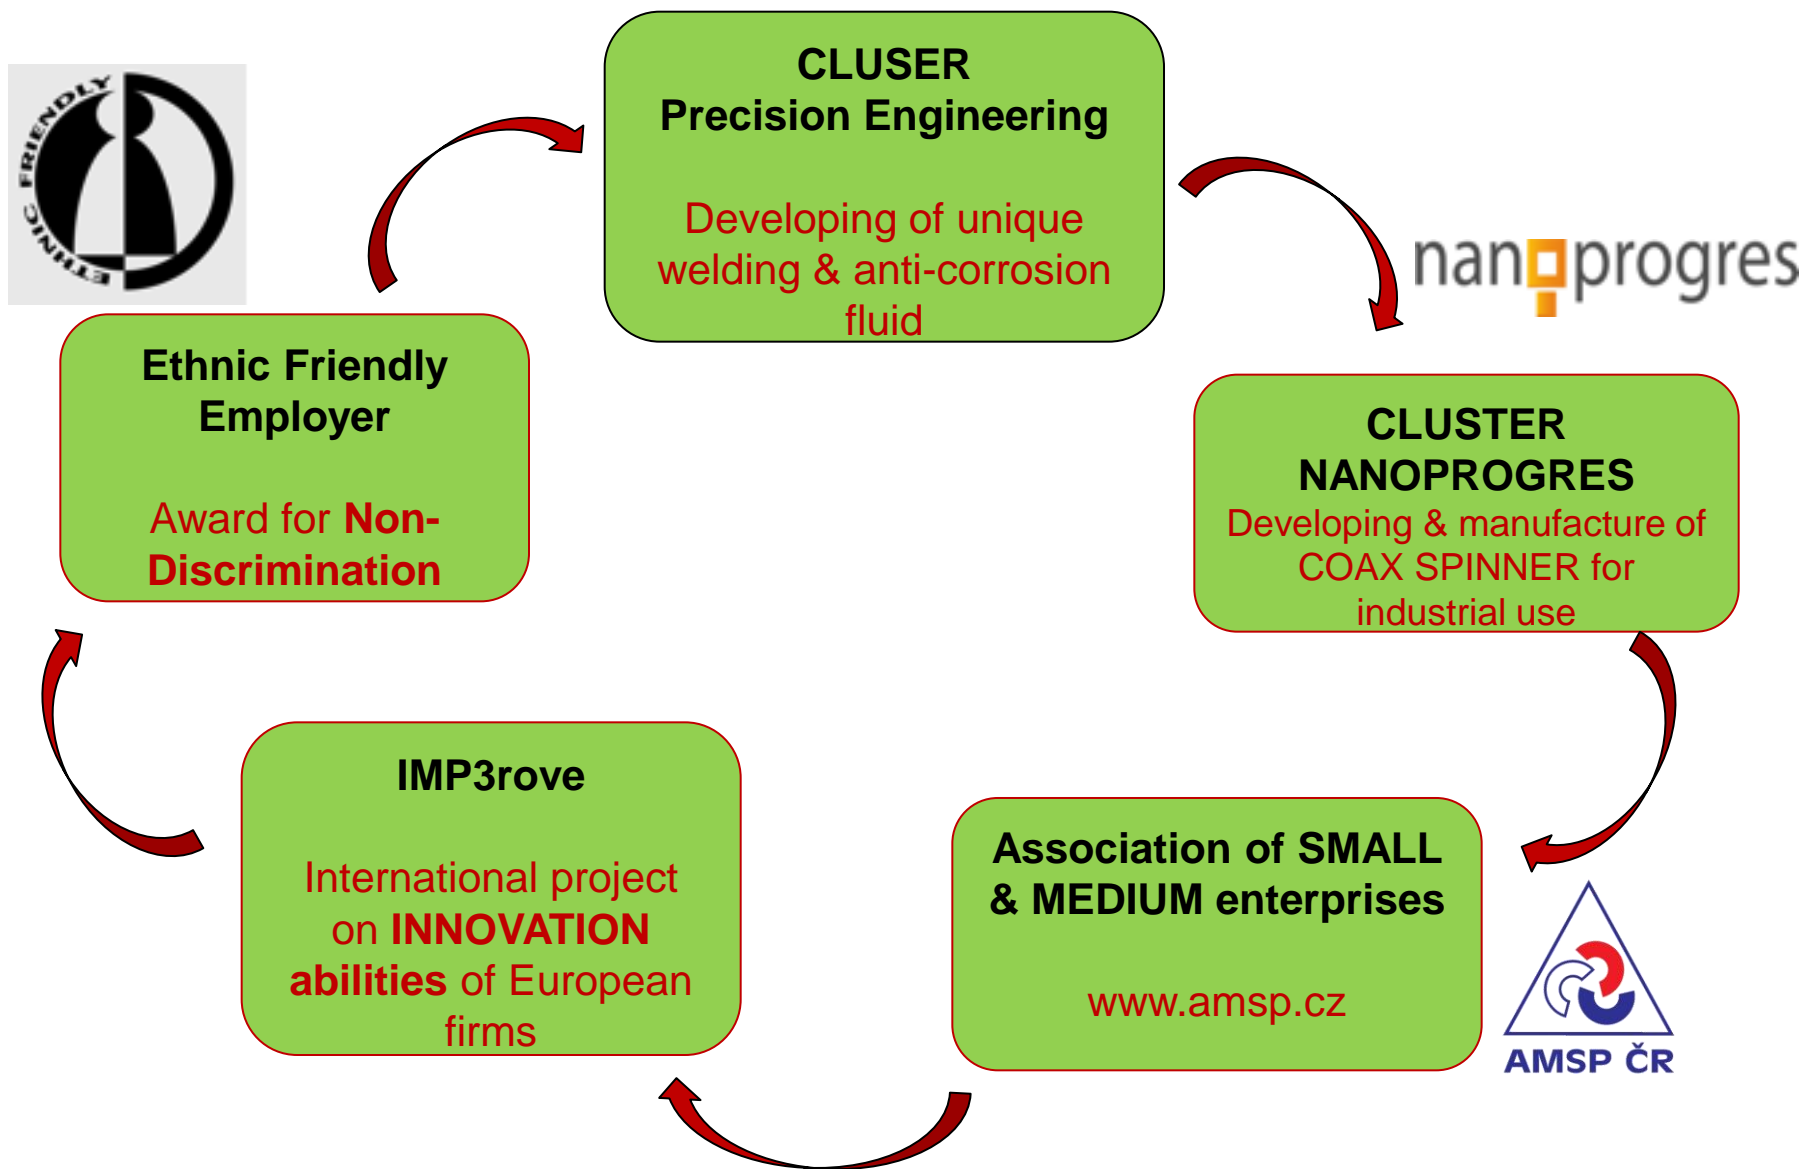

Partnership

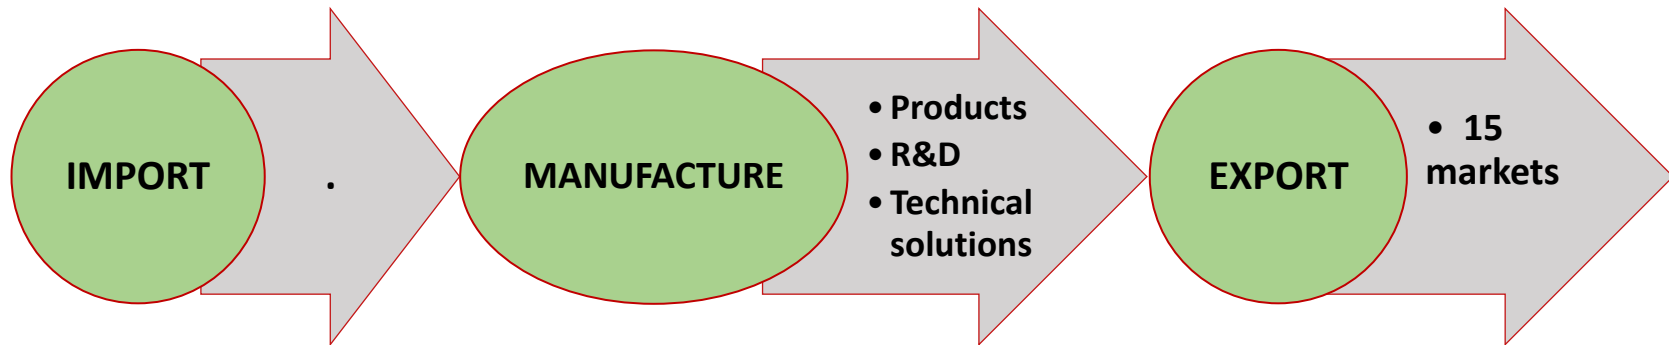

USE:

- lock & brake systems, door mechanisms, air-cond.
- suspended ceilings, overhead doors
- nano-labs, veterinary

- **INTERNATIONALISATION**

- Personal contacts, references – long time in the branch
- Tried gov-support schemes (CzechTrade)
- No external financing

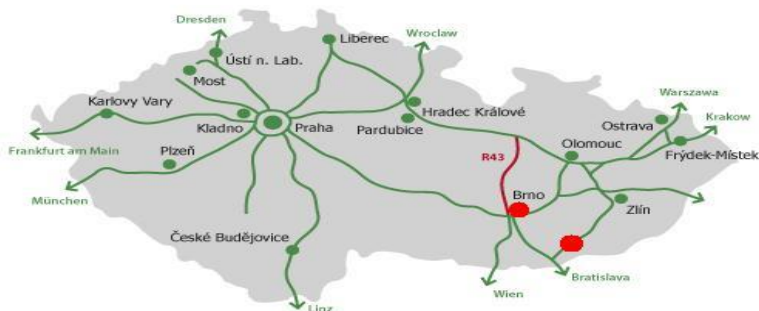

- **Experience with TRADE-FAIRS**

- Attending regularly
- Meeting business partners at one place – personal contact crucial for business
- Buying technology

- **CLUSTERS**

- No internationalis. in our case (only R&D activities, contacts) – large potential exists, however
- Financial participation on some R&D activities

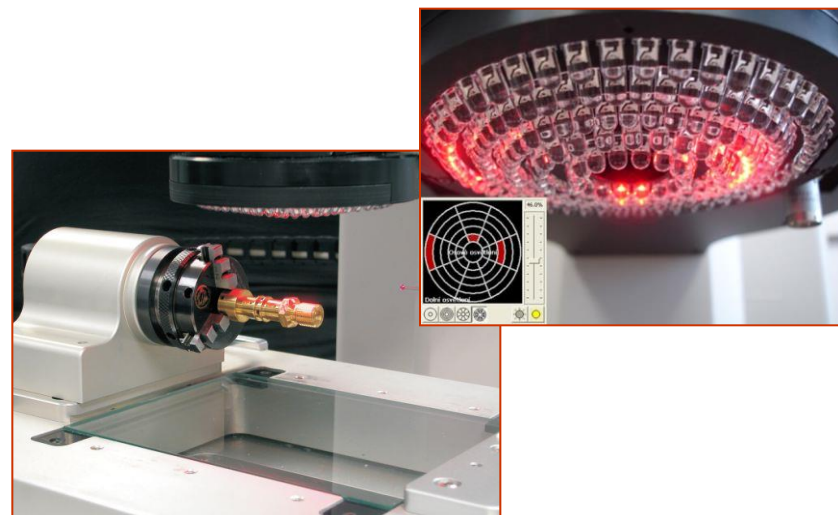

-
