

CLEAN ENERGY FOR ALL EUROPEANS

INTEGRATING RENEWABLES INTO THE MARKET

OPPORTUNITIES AND OBSTACLES

COSTS DECREASE IN RENEWABLE ENERGIES

RENEWABLE ENERGIES are now not only clean, but also cheap

Obstacles:

- Lack of legal certainty – Only the RES Directive can retrieve it
- Lack of long term price signal – Inadecuacy of wholesale market price system
- Lack of a clear path to the decarbonization targets. Is it really a priority?
- Overcapacity

Opportunities:

- Reduction in costs of energy
- Contribution against Climate Change
- European leadership
- Employment generation
- Smart cities

Obstacles:

- Establishment of economic barriers: “Sun tax”
- Establishment of administrative barriers
- Barriers to the storage
- Adaptation of environmental regulations
