at the request of the Committee on Industry, Research and Energy (ITRE)

European Parliament, Brussels
19 June 2018, 16h00 - 17h30
Room József Antall (JAN) 2Q2

Speakers' biographies

J. Scott Marcus, Senior Fellow at Bruegel

J. Scott Marcus is a Senior Fellow at Bruegel, a Brussels-based economics think tank, and also works as an independent consultant dealing with policy and regulatory policy regarding electronic communications. His work is interdisciplinary and entails economics, political science / public administration, policy analysis, and engineering.

From 2005 to 2015, he served as a Director for WIK-Consult GmbH (the consulting arm of the WIK, a German research institute in regulatory economics for network industries). From 2001 to 2005, he served as Senior Advisor for Internet Technology for the United States Federal Communications Commission (FCC), as a peer to the Chief Economist and Chief Technologist. In 2004, the FCC seconded Mr. Marcus to the European Commission (to what was then DG INFOS) under a grant from the German Marshall Fund of the United States. Prior to working for the FCC, he was the Chief Technology Officer (CTO) of Genuity, Inc. (GTE Internetworking), one of the world's largest backbone internet service providers.

Mr. Marcus is a member of the Scientific Committee of the Communications and Media program at the Florence School of Regulation (FSR), a unit of the European University Institute (EUI). He is also a Fellow of GLOCOM (the Center for Global Communications, a research institute of the International University of Japan). He is a Senior Member of the IEEE; has served as co-editor for public policy and regulation for IEEE Communications Magazine; served on the Meetings and Conference Board of the IEEE Communications Society from 2001 through 2005; and was Vice Chair and then Acting Chair of IEEE CNOM. He served on the board of the American Registry of Internet Numbers (ARIN) from 2000 to 2002.

Marcus is the author of numerous papers, and a book on data network design. He led and/or served as first author for numerous studies for the European Parliament, the European Commission, and national governments and regulatory authorities around the world.

Marcus holds a B.A. in Political Science (Public Administration) from the City College of New York (CCNY), and an M.S. from the School of Engineering, Columbia University.

Bas Kotterink, Senior Scientist ICT Policy at TNO

Bas Kotterink is a senior scientist dealing with ICT Policy at TNO, the second largest research and technology organisation in Europe. Bas's expertise and interests are on self-organisation, open innovation, and ICT start-up ecosystems. In daily life, he is also a swimming coach and chairman of the elite swimming club Albion in the Hague. His professional interests and coaching experience come together in SBC's mentor programme.

Domagoj Jurjević, consultant; former Vice Chair BEREC; former Deputy Director, HAKOM

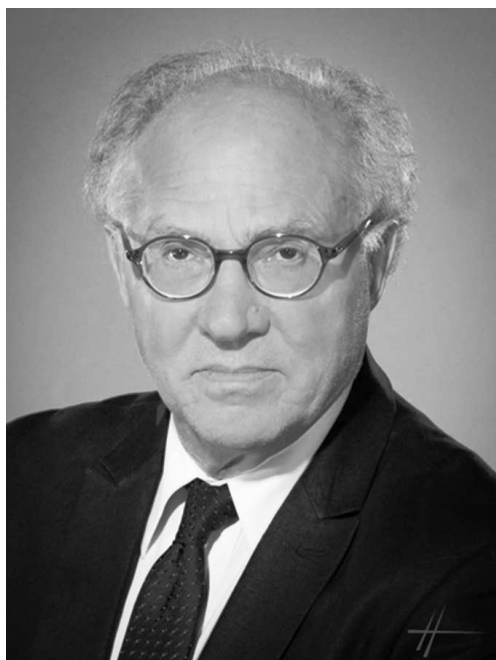

After having been appointed by the Croatian Parliament in 2013, Domagoj Jurjevic served for 5 years term as the Deputy President of the Council of Croatian Regulatory Authority for Network Industries (HAKOM). During 2014, he served as Vice Chair of the Body of European Regulators for Electronic Communications (BEREC). Since 23 February 2018, he has worked as an independent consultant.

During his ten years of service at HAKOM and prior to having been appointed as Deputy President, he held the position of Head of the Market Analysis Department and Deputy Director of HAKOM.

During all those years, he has gained extensive experience in the area of electronic communications market regulation and policymaking. He was involved in the preparation of HAKOM for the EU membership of the Republic of Croatia in terms of the changes that the membership brought to the procedure of market regulation. On behalf of HAKOM and BEREC, he has been involved in the process of preparing the roaming regulation in the EU as well as in all the processes of the changes to the telecoms regulatory framework at the EU level. He has a long experience in the international activities with EU institutions and European National Regulatory Authorities from telecom sector as HAKOM's representative in the BEREC.

He earned his university degree in Finances from the University of Zagreb, Faculty of Economics and his Master's degree in Electronic Communications Market Regulation from the University of Zagreb, Faculty of Electrical Engineering and Computing. He is fluent in English, Spanish and Italian and has a fair knowledge of French.

Gérard Pogorel, Prof. of Economics – emeritus, Télécom ParisTech

Gérard POGOREL is Professor of Economics and Management-Emeritus, Telecom ParisTech, France, and an independent international expert in telecommunications and the digital economy. Telecom ParisTech is a first-tier European Research and higher education institution. It encompasses all discipline areas, sciences, technologies, social sciences, of relevance to information and telecommunications technologies and the media. Gérard POGOREL published in 2017 a widely circulated and influential position paper “Spectrum 5.0: Improving assignment procedures to meet economic and social policy goals”.

He co-authored in 2014 a report to the Prime Minister of Italy assessing the investments by operators in NGAN networks from an EU Digital Agenda perspective. He was an independent member of the Organo di Vigilanza (2008-2012), which monitors the access of competitors to Telecom Italia’s incumbent network. He co-founded and acted as Chair/Rapporteur of the European Spectrum Management Conferences since their creation in 2006. He was previously Chair of the European Union Framework Research & Technology Development Programme Monitoring Panel, and Chair of the Monitoring Committee of the EU Information Society and Technologies Research Programme. He participates in numerous government-level and regulation Authorities Committees and Scientific Committees on telecom and media policy and regulation in Europe, the USA and Asia.

In addition to “Spectrum 5.0: improving assignment procedures to meet economic and social policy goals”, he has published numerous articles, books, and reports including: “Valuation and pricing of licensed shared access: next generation pricing for next generation spectrum access”; “The digital dividend: radio spectrum, mobile broadband, and the media: Towards a policy framework”, Open Society Institute (2011); “The Radio Spectrum: managing a strategic resource” with JM Chaduc, Wiley-ISTEC London (2008); “Nine regimes of spectrum management: a 4-step decision guide”, Communications & Strategies (2007). His current research focuses on the design of incentives for network investment, the award of frequency licences, and competitive market dynamics in the digital economy. He is a member of the international panel of experts for the World Competitiveness Yearbook. He lectures extensively in Europe, the US, and Asia. Gérard Pogorel is Officier des Palmes Académiques.
