The aim of the opinion is to explain the ITRE priorities in the EU 2019 budget. The opinion will address ITRE's sectorial priorities and possible issues that could be raised when considering the Commission's 2019 Draft Budget and Council's position on it.

#### PROVISIONAL TIMETABLE

- Deadline for tabling amendments: 5 September 2018
- Vote in ITRE: 24 September 2018
- Vote in lead Committee (BUDG): 8-9 October 2018

#### Dear colleagues,

The last committee meeting before the summer break promises a full and interesting agenda as ITRE welcomes the Austrian presidency, the Commissioner for Competition and it commences its work on the MFF programmes.

As is the custom at the start of each rotating presidency of the Council, we will hold an exchange of views with the relevant Ministers on the Presidency priorities in the ITRE areas of competence. This time we will welcome Margarete Ms Schramböck, Austrian Minister for Digital and Economic, Mr Heinz Faßmann, Austrian Federal Minister for Education, Science and Research and Mr Norbert Hofer, Austrian Federal Minister for Transport, Innovation and Technology.

ITRE will also be welcoming Commissioner Margrethe Vestager, Commissioner for Competition, to discuss how the Commission assess the impact of international competition on European industries. This is a very pertinent topic for Union industries and SMEs.

#### Exchange of views on MFF files

The rapporteurs of Horizon Europe (<u>Dan Nica</u> and <u>Christian Ehler</u>) and the Space programme (<u>Massimiliano Salini</u>) will present on 9-10 July their first reflections thereby kicking off officially an intense work period on all the MFF programmes in the remit of ITRE. This exchange follows the presentation by Commissioner Bieńkowska of the MFF programmes in her portfolio, made at the previous committee meeting.

Council Decision on the conclusion of the Agreement for scientific and technological cooperation between the European Union and the Kingdom of Morocco setting out the terms and conditions for the participation of the Kingdom of Morocco in the Partnership for Research and Innovation in the Mediterranean Area (PRIMA)

Consideration of draft report

Draftsperson: Aldo Patriciello

The Committee will discuss the consent to the Scientific and Technological Cooperation Agreement (STC) between the EU and Morocco, in view of the Partnership for Research and Innovation for the Mediterranean Area. This STC is necessary to enable Morocco's participation in PRIMA since it is not an Associated Country to Horizon 2020. The Rapporteur, Mr. Patriciello (EPP), is proposing that Parliament gives its consent.

Adopted in July 2017, PRIMA is the firts Public-to-Public partnership to involve the participation of third countries. The partnership is an example of EU science diplomacy put to the service of promoting solution for water and agri-food challenges in the Mediterranean basin.

#### PROVISIONAL TIMETABLE

- Deadline for tabling amendments: 11 July 2018
- Vote in ITRE: 3 September 2018
- Vote in Plenary: tbc

The Committee will also hold its first exchange of views on the regulation establishing Horizon Europe and the decision establishing the related specific programme. The ITRE Rapporteurs for these two files have agreed to work faster than usual in order to allow the European Parliament to advance as much as possible. This effort reflects the huge responsibility ITRE has with regard to this programme, which not only allows so many researchers to do their work but also has an important impact on EU competitiveness and delivers answers to many global challenges.

We will also consider the proposal for the conclusion of a scientific and technological cooperation agreement between the Union and Morocco. This agreement has been negotiated in order to allow Morocco participate in PRIMA: the and partnership innovation programme for the Mediterranean adopted last year. ITRE will also consider its draft opinion on the 2019 budget resolution while at the same time adopting its opinion on the lines concerning budget Committee's responsibilities.

During our July meeting we will also vote on several dossiers. From our telecoms portfolio we will adopt the Regulation on ENISA, the "EU Cybersecurity Agency" and a European cybersecurity certification framework as well as the European Electronic Communications Code. ITRE will also confirm the provisional agreement on BEREC. With regard to its Energy remit the Committee will be voting on the provisional agreements reached on the Energy Efficiency and on the Promotion of the use of energy from renewable sources interinstitutional negotiations. It will also vote on its opinion on emission performance standards for new passenger cars and the one on deployment of infrastructure for alternative fuels in the EU. The Committee will also be voting on the extension of the Research and Training Programme of the European Atomic Energy Community (2019-2020).

With regard to the other policy areas, ITRE will also be voting on the opinion on the common provision to several EU funds. In this case, the rapporteur is in favour of rejecting the Commission's proposal. Furthermore, the committee will vote on the proposal for a regulation on health technology assessment and on its contribution to the COP 24 resolution.
