Dear Gabriel

Under these conditions I am afraid not be able to join you.  
I do really think that experts have to be paid for their work  
and not only be covered for their expenses. I am rather disappointed  
that the EP seems to reproduce the bad Swiss habits - I always  
thought, Europeans know how and why they should do better.

Many thanks for your interest.

All the best to you

sincerely

Dear Mr Gross,

Following our phone conversation and having checked again with the financial unit, I am afraid to confirm  
that the only reimbursement a committee can give is the one described in the document delivered last  
Friday.

Hence, I would appreciate if you please could give us an answer about your potential participation as a guest  
in the above mentioned public hearing by Wednesday noon.

Kind regards,
