Dear colleagues,

This will be the last ITRE meeting planned before the next European elections in May, so it is only fitting that we will see the vote on the partial agreement reached with the Council on one of the most important files of the last five years, Horizon Europe, including its Framework Programme and its Specific programme.

In addition, Members will hold an exchange of views with the Council Presidency and the European Commission represented by Commissioners Bienkowska and Moedas on the outcome of the five MFF files that have been partially agreed between the co-legislators.

Finally, there will be a debriefing on ITRE’s mission to Israel that took place in December last year, and one last feedback on the ongoing negotiations for the European Cybersecurity Centre.
