1 INTRODUCTION

In conformity with Article 249 of the Financial Regulation (FR)¹) this document constitutes a report on budgetary and financial management of Section II of the EU budget (European Council and Council) for the financial year 2019.

The report is based on the provisional accounts for 2019, the findings in the annual activity reports of the Council's authorising officers and the budget implementation information from the Council's financial system.

Chapter 2 of this report presents a summary of the framework which was established for the financial year 2019. A global overview of the implementation of the budget appropriations available in 2019 is given in chapter 3.

The implementation of the 2019 budget by budget line is presented in Annex.

¹ Regulation (EU, EURATOM) No 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.07.2018, p.1).

2 OBJECTIVES AND BUDGET FOR THE FINANCIAL YEAR 2019

2.1 Main financial objectives

The main financial objectives of the General Secretariat of the Council for 2019 were:

- To ensure continuous support to the President of the European Council and to the Council by effective and efficient use of financial resources.
- To further proceed with the process of administrative modernisation with the objective of enhancing the quality of its organisation and the proper use of resources.
- To execute the final payment for the Europa Building to the Belgian government.

2.2 Establishment of the budget for the European Council and Council in 2019

2.2.1 General approach

The establishment of the 2019 budget for the European Council and Council (hereafter: EC/C) was based on the general objective of not exceeding, in nominal terms, the overall level of the 2018 budget for non-salary related expenditure.

Increases related to statutory or contractual obligations, or in areas which have been considered as essential for the proper functioning of the GSC, have been compensated for by prioritising and reprogramming certain projects taking into account budget implementation in recent years.

As for the establishment plan, the GSC continued to streamline the organisation by implementing the following actions:

- transforming 30 AST5 posts into 30 AD5 posts as part of the continuation of the administrative modernisation,
- transfer of 1 AD5 and 1 AST5 post to the Commission as part of the Service Level Agreement on SYSPER,
- addition of 3 AD5 posts and 1 AST1 post to reflect the new language regime for Irish translation, as instructed by the Commission.

2.2.2 2019 Budget

The budget authority established the overall 2019 EC/C budget at EUR 581,9 million. This corresponds to an increase of EUR 9 million (+1,6 %) compared to 2018.

The number of posts in the establishment plan for 2019 for the EC/C was fixed at 3.033.

Table 1 gives an overview on the 2019 budget by different categories.

2.2.3 2019 budget and the Financial Perspectives of Heading 5 of the EU Budget

Table 2 gives an overview of the evolution of the EC/C budget in 2010-2019. The EC/C share in Heading 5 of the multiannual financial perspectives has declined from 8,0 % in 2010 to 5,4 % in 2019.

The reduction in 2011 is mainly due to the transfer of resources to the EEAS, whereas the decreases in 2012 and 2014 relate to reductions of appropriations of certain activities in view of the previous years' implementation and actual needs.

3 GLOBAL OVERVIEW OF BUDGET IMPLEMENTATION IN 2019

3.1 Activities and objectives of the European Council and Council in 2019

In the framework of the financial activity report, the GSC provides information on its core activities which are relevant from the financial point of view, and which describe the functioning of the European Council and Council during the financial year. The report also highlights the principal accomplishments of the year.

3.1.1 Meetings

Table 3 gives an overview of the development of the number of meetings organised by the GSC for the European Council and Council between 2010 and 2019.

In 2019, in addition to the 3.983 "institutional" meetings, the GSC organised 3.685 other meetings (e.g. seminars, information sessions and briefings, and meetings with third countries).

Table 3: Development of the number of meetings in 2010-2019

Grand total	6.338	6.677	6.893	6.411	6.430	5.973	5.796	7.320	7.730	7.668

The year 2019 has been marked by continuous work aiming to finalise the procedure for the conclusion and signature of the agreement on the UK's delayed withdrawal from the EU.

The total number of meetings organised by the GSC went down by 0,8 % (65) compared to 2018. This is explained mainly by reduced legislative activity in the second semester due to European elections and the appointment of the new EU leadership in all the institutions.

Moreover, between 12 and 14 March 2019 the GSC hosted the third Brussels conference on "Supporting the future of Syria and the Region". It brought together 78 delegations including 56 States, 11 regional organisations and International Financial Institutions (IFIs) as well as 11 UN agencies. The participants discussed the most critical humanitarian and resilience issues affecting Syrians and communities hosting Syrian refugees, both inside the country and in the region. Specific attention was placed on hearing the perspectives of Syrian women. The event was organised together with the European Commission Directorate-General for Neighbourhood and Enlargement Negotiations.

3.1.2 Legislative activities

Another quantitative indicator of activities is the number of legal acts published in the Official Journal (OJ) (table 4). In 2019, 1.326 legal acts were published in the OJ. It should be noted that the publication of the legal acts in the OJ is the last step of the legislative process.

Table 4: Development of the number of legal acts in 2010-2019

	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019
Legal acts published in OJ	825	986	958	1.132	1.437	1.412	1.259	1.187	1.210	1.326

The increase in the number of legal acts, 9,6 % compared to previous year, can mainly be explained by the need to adopt as many as possible before the European elections held in 2019.

3.1.3 Administrative modernisation

In 2019, the GSC continued to improve the quality and efficiency of its internal organisation:

- A new HR IT tool (SYSPER) already used by the Commission and most other EU institutions replaced the existing one for the majority of GSC HR processes. A similar changeover occurred with the IT tool used for managing the mission / authorised travel lifecycle.
- A 360° feedback exercise was conducted. It was designed to provide managers with the insights they need for their continuous development, from a multi-sided perspective. In a 360° feedback exercise, views from the people managers work with (their team, key colleagues and hierarchy) are gathered. Each manager uses the report to work on their professional development.

- The process of creating a flatter management structure, which began in 2017, continued. By removing layers of hierarchy, the aim is to improve communication, to make decision-making easier and to empower staff by allowing greater ownership of files. Greater autonomy also allows staff to be even more client-oriented.

3.1.4 Achievement of objectives in 2019

Achievement of the objectives established for the budget year 2019 may be summarised as follows:

- *Establishment plan*
In 2019, the GSC recruited 233 officials (146 permanent officials and 87 temporary agents). During the year, 212 officials (167 permanent officials and 45 temporary agents) left, resulting in a net increase of 21 occupied posts in the EC/C Establishment Plan.
- *Financial management*
In 2019, the GSC continued to further improve its financial management and performance. Several improvements in corporate financial governance were implemented, e.g.:
 - launch of the Integrated Financial and Activity Planning (IFAP) project in October 2019. It has resulted in the integration of annual and multiannual budget planning in the GSC's financial management system (SAP) and the establishment of a link between financial planning and budget implementation at activities level.

In the context of improving the cash flow position of European businesses, the average payment delay of invoices in the GSC was 19 days in 2019, the maximum time limit being 30 calendar days (Directive 2011/7/EU of the European Parliament and of the Council²).

- *Building Policy*

The signature of the notarial act and, consequently, the final payment of the amount due to the Belgian authorities for the Europa building project took place in 2019.

3.2 Revenue

Table 5 gives an overview of the global outcome of revenue operations in 2019. The expression 'Established rights 2018' refers to the recovery orders which were made in 2018 but for which the recovery of the amounts took place only in 2019. The expression 'Established rights 2019' in turn corresponds to recoveries launched in 2019.

² Directive 2011/7/EU of the European Parliament and of the Council of 16 February 2011 on combating late payment in commercial transactions (OJ L 48, 23.2.2011, p. 1).

The total volume of revenue operations in terms of established rights, i.e. issued recovery orders, was EUR 74,7 million in 2019. Of this amount, EUR 73,0 million was recovered during the financial year whereas EUR 1,7 million will be collected in 2020.

The majority of the total recovered revenues (78 % or EUR 57,2 million out of EUR 73,0 million) in 2019 relates to community taxes, levies and dues collected from the GSC's personnel. Of this amount EUR 31,5 million covers deductions from staff remuneration whereas EUR 25,7 million corresponds to contributions and transfers of pension rights to the pension scheme.

The remainder, or 22 % (EUR 15,8 million), is accrued from various administrative operations. This amount comes mainly from the following sources:

- Recovery of parts of the amounts paid to Member States in previous years for delegates' travel expenses following their declarations for 2018 and 2019 (EUR 0,02 million and EUR 4,8 million respectively, Chapter 57).
- Recovery of payments by Member States for supplementary on-request interpretation into certain languages (EUR 5,5 million, Chapter 57).
- Contributions to the administrative costs arising within the framework of the "Schengen acquis" with Iceland and Norway (EUR 0,5 million, Chapter 63).
- Contributions by other institutions and payments by Council officials for the Council crèche (EUR 1 million, Chapter 57).
- Payments by the Court of Justice, the Court of Auditors and the European University Institute in Florence as their contributions to the common financial system with the Council (EUR 0,8 million, Chapter 55).
- Transfers from the EEAS to the Council as advanced reimbursement of the costs related to the organisation of the 3rd Brussels Conference on Syria (EUR 0,3 million, Chapter 55).
- Transfers from the EEAS to the Council as advance payments for the services rendered by the GSC to the EEAS (EUR 0,4 million, Chapter 55).
- Proceeds from renting out premises and reimbursements related to them (EUR 0,3 million, Chapter 51).

3.3 Expenditure in 2019

3.3.1 Modification of the budget in 2019

During the financial year 2019, the appropriations were reallocated by various transfers. Table 6 shows the decisions which modified the budget appropriations in 2010-2019.

39 B-transfers based on Article 29 (4) of the Financial Regulation internally modified the EC/C budget in 2019.

Table 7 gives an overview of the budget lines which were significantly³ modified in 2019 by different transfers.

3.3.2 Overview of implementation of the budget in 2010-2019

The overall implementation rate of the EC/C budget has been on average 91,9 % over the past ten years (Graph 1). The implementation rate refers to the commitments made during the budget year out of the available voted budget.

The actual annual payments rate between 2010 and 2019 have been on average 82,6 % of the budget. The difference between the overall implementation and payments in a given year (i.e. non-paid commitments) has been carried over, in conformity with Article 12(7) of the Financial Regulation, to the next budget year for payments.

³ Net amount > EUR 250.000.

Graph 1: Overall budget implementation in 2010-2019

For 2019, the appropriations carried over relate to obligations duly contracted before the end of the budget year but where the goods have not yet been delivered and/or for which no invoices were received before the end of the year.

3.3.3 Implementation of the appropriations by category in 2019

The analysis of expenditure in 2019 is presented in 14 expenditure categories.

Table 8 compares the final budget after transfers (column 2) with the outturn of the budget in terms of commitments (column 3). The difference between the final budget and the committed appropriations corresponds to the amounts not used in 2019 and therefore cancelled.

The global implementation rate of the 2019 budget is 92,3 %. The difference between the final budget and implementation can be explained as follows:

- The total under-spending in the category of the establishment plan amounts to EUR 18,0 million. This under-spending relates mainly to lower needs for basic salaries (EUR 8,7 million) and to the fact that it was not necessary to use the provision for annual adjustment of the remuneration (EUR 3,6 million). Other elements explaining the underspending are lower need for various statutory entitlements (EUR 4,3 million) and for social security (EUR 0,5 million) plus lower expenditure relating to overtime (EUR 0,4 million).

- In the category of other staff expenditure, 58 % of the under-spending (EUR 1,5 million out of EUR 2,4 million) relates to fewer payments for contractual agents, seconded national experts and other outside services. In the area of the President of the European Council, a saving of EUR 0,4 million comes from under-spending of the travel budget and allowances. The remainder of EUR 0,5 million is mostly related to savings in the areas of the GSC crèche, medical and social services.
- The global implementation of the building-related expenditure resulted in a saving of EUR 1,5 million. Of this amount, EUR 1,1 million is due to lower costs in building security and surveillance, maintenance and cleaning, and consumption of water, gas and electricity. The remaining EUR 0,4 million comes from savings in certain fitting-out works, preliminary studies, installation, security works and other expenditure relating to buildings.
- In the IT domain, the budget implementation was 100 %.
- For furniture, implementation was close to 98 %, savings are due mainly to lower needs in rental and maintenance of furniture.
- The EUR 0,2 million saving in technical equipment is mainly due to a lower need for purchase and replacement of technical equipment and installations.
- The EUR 0,1 million saving in transportation is mainly due to lower final needs for car leasing.

- The implementation of the delegations' travel expenses was 100%. The amount available for delegations' travel expenses after transfers amounted to EUR 18,7 million. The initial budget was EUR 17,8 million to which EUR 10 million was transferred from the savings in some interpretation envelopes. On the other hand, EUR 6,9 million was transferred to interpretation for the technical envelope ⁴and, during the year, EUR 2,2 million was transferred to finance supplementary interpretation in certain languages.
- The underspending in appropriations for interpretation amounts to EUR 21,6 million. This underspending is the final result after the transfer of EUR 10 million from interpretation envelopes to delegations' travel envelopes⁵. The final result also includes the transfer from the delegations' travel expenses of EUR 6,9 million as implementation of the new mechanism and a transfer back of EUR 2,2 million from some travel envelopes to cover supplementary interpretation in certain languages.
- EUR 0,3 million out of the total underspending of EUR 0,4 million in organising meetings and conferences reflects lower needs in catering than were budgeted for. Lower needs for rental of external conference rooms and accreditation allowed for an additional saving of EUR 0,1 million.

⁴ In conformity with Decision 54/18 of the Secretary General of the Council (Art. 10.3), the amount equivalent to the underspent amount of previous year in delegates' travel expenses is to be transferred annually to interpretation. In 2019, this corresponded to an amount of EUR 6,9 million.

⁵ In conformity with Decision 54/18 (art. 10.1), the GSC transfers 66 % of the unused amounts of interpretation language envelopes to the delegates' travel envelopes to be used during the same budget year. In 2019, this corresponded to an amount of EUR 10 million.

- The implementation rate of the appropriations in the category "Information" was 100 %
- In the category "Miscellaneous", the underspending of EUR 0,2 million is explained mainly by a combination of smaller needs for office supplies, paper, studies, uniforms and postal charges (EUR 0,1 million).

3.4 Appropriations carried over

3.4.1 Appropriations carried over automatically from 2018 to 2019

As presented in table 9, an amount of EUR 56,6 million was carried over from 2018 to 2019.

Total	56.599.584	49.240.654	87,0%	7.358.930

The implementation rate of the appropriations carried over from 2018 was 87,0 %. The main reasons for this implementation rate are:

- Partial or complete lack of delivery of works/goods/services ordered by the GSC during the previous year.
- Invoices not received for works/goods/services delivered. This inevitably constitutes a budgetary burden for the next budget year as for these transactions new commitments will have to be introduced in 2020.

3.4.2 Appropriations carried over automatically from 2019 to 2020

The appropriations carried over from 2019 to 2020 totalled EUR 52,5 million.

Around 36 % of the assigned revenue (EUR 5,5 million) is related to interpretation, from the top-up payments on certain languages to cover the supplementary interpretation in those languages. An amount of EUR 4,8 million is related to the delegations' travel expenses, following the balance after presenting their travel declarations. The remainder is mainly related to the reimbursement of amounts connected with various administrative operations of the Council.
