Dear colleagues,

At our next ITRE meeting we will be continuing our series of exchanges with the European Commission regarding a considerable number of legislative initiatives under preparation in the digital area. In this sense, Commissioner Thierry Breton will be touching upon key aspects of the Data Governance and Digital Services Acts as well as roaming regulation, NIS (on cybersecurity) and eIDAS. Furthermore, Members will be holding votes on three very important opinions. General budget of the European Union for the financial year 2021, Public sector loan facility under the Just Transition Mechanism and Establishing the InvestEU Programme.

Cristian-Silviu Buşoi

### News and events

#### Exchange of views with Commissioner Thierry Breton - ICT state-of-play

The ITRE Committee will hold an exchange of views with Commissioner Thierry Breton, focussing on upcoming legislative proposals in the digital area. Given the fact that the digital transition is one of the key projects of the new Commission, a considerable number of legislative initiatives are under preparation, such as a Data Governance Act, a Digital Services Act and updates to existing legislation like NIS on cybersecurity, eIDAS on electronic identification or the roaming regulation. The discussion will provide not only for a complete overview on the current planning of the Commission, it will also allow Members to present their ideas for the Commission Work Programme 2021.
