Dear colleagues,

During our next meeting, we will be taking a close look at a study requested by our committee back in January regarding the European Union Agency for the Cooperation of Energy Regulators (ACER). ACER supports the cooperation between the European Union and national governments ensuring implementation of legislation in the Member States according to the EU's energy policy objectives and regulatory frameworks. Based on the study conclusions the European Parliament will be assessing the budget and staffing needs of ACER for the upcoming period. Staying on the same subject, we will be having an exchange of views with ACER's Director Christian Zinglersen, who will presenting the 2019 Annual Report on the Results of Monitoring the Internal Electricity and Natural Gas Markets and on the draft programming for 2021.

Following, a presentation by the Director General of DG ENER, Ms Ditte Juul Jørgensen, on the EU-wide assessment of the National Energy and Climate Plans in view of delivering the 2030 targets. Ms Ditte Juul Jørgensen, Director General of DG Energy in the European Commission, will present the EU-wide assessment of the National Energy and Climate Plans submitted by Member States in accordance with the Energy Union Governance Regulation. The 27 plans give an overview of how Member States are approaching the first phase of their transition and where they want to go in the period 2021–2030 across five areas: decarbonisation, energy efficiency, energy security, internal energy market, research and innovation and competitiveness.
