

WHY are we still using the polluting energy sources of the past?

Polluting fuels causing air pollution and harming our health...

29%
OF DEATHS FROM
LUNG CANCER

24%
OF DEATHS FROM
STROKE

25%
OF DEATHS FROM
HEART DISEASE

Fossil fuels need a health warning

IMPORTANT NOTICE

Before filling up.

Did you know that using this fuel will produce air pollution which causes one third of strokes, lung cancer and heart disease. It is also a leading cause of climate change which is destroying our childrens' future

IMPORTANT NOTICE

THIS IS A PUBLIC HEALTH WARNING BROUGHT TO YOU BY DOCTORS FOR EXTINCTION REBELLION

WHO Prescriptions for a healthy and green recovery from COVID-19

WHO prescriptions for a healthy recovery

1. Protect and preserve the source of human health: Nature.

Many human activities put pressure on the natural environment and increase the risk that new diseases will emerge.

For a healthy, green recovery from COVID-19, we must come together to rethink the ways we use natural resources.

WHO prescriptions for a
healthy recovery

2. Invest in essential services from water and sanitation to clean energy in healthcare facilities

40

% of households around the world
lack handwashing facilities.

For a healthy, green recovery from COVID-19,
we must come together to ensure everyone can
keep their hands clean and protect themselves
from disease.

WHO prescriptions for a
healthy recovery

3. Ensure a quick healthy energy transition

7

**million people die each year
from air pollution.**

**For a healthy, green recovery from COVID-19,
we must come together to transition to clean
energy, improve air quality and save lives.**

WHO prescriptions for a healthy recovery

4. Promote healthy, sustainable food systems

Poor nutrition is a major cause of ill health.

For a healthy, green recovery from COVID-19,

**we must come together to support all countries
in following WHO's dietary guidelines.**

WHO prescriptions for a
healthy recovery

5. Build healthy, liveable cities

More than
50

**% of the world's population
lives in cities.**

TAP HERE

**For a healthy, green recovery from COVID-19,
we must come together to integrate health into
all aspects of urban planning, from sustainable
transport to healthy housing.**

WHO prescriptions for a
healthy recovery

6. Stop using taxpayers money to fund pollution

USD 400

billion is spent on subsidizing fossil fuel use.

For a healthy, green recovery from COVID-19,

we must come together to fight fossil fuel subsidies
and protect our surroundings.
