# Artificial intelligence, the EU data strategy and the Digital Compass

Kilian Gross,
Head of Unit Artificial Intelligence
DG CNECT

30 September 2021

AI Regulation

- Definition of AI
- A risk-based approach
- Light but effective requirements
- Enforcement
- Governance

AI Coordinated Plan

- Accelerate investments
- Act on strategies
- Align policy
- Strategic sectors

European Commission

Data Governance Act

Access to and re-use of sensitive public data.

Emergence and of new neutral data players in Europe.

Allow Europeans to gain more control over their data.

A safe environment for those willing to share data

Data Act

Ensuring fairness in the allocation of economic value among actors of the data economy

fair data access, processing and use in business-to-business (B2B) context

fair, reliable and transparent data access and use in business-to-government (B2G) context

European Commission

Digital Compass

Skills
ICT Specialists: 20 million + Gender convergence
Basic Digital Skills: min 80% of population

Infrastructures
Connectivity: Gigabit for everyone, 5G in all populated areas
Cutting edge Semiconductors: double EU share in global production
Data – Edge & Cloud: 10,000 climate neutral highly secure edge nodes
Computing: first computer with quantum acceleration

Government
Key Public Services: 100% online
e-Health: 100% availability medical records
Digital Identity: 80% citizens using digital ID

Business
Tech up-take: 75% of EU companies using Cloud/AI/Big Data
Innovators: grow scale ups & finance to double EU Unicorns
Late adopters: more than 90% of European SMEs reach at least a basic level of digital intensity

European Commission

# Policy Programme: a Path to the Digital Decade

The yearly cooperation cycle:

To monitor and evaluate progress leading to 2030

the Commission will develop **EU-level trajectories** for each target together with the Member States : the Member States will then draft **national trajectories** and **strategic roadmaps** to attain the targets

ANNUAL COOPERATION CYCLE:

Monitor progress based on the **Digital Economy and Society Index (DESI)**

Evaluate progress and provide recommendations to Member States in the **Digital Decade Report**

Adjust Member States' **strategic roadmaps** to adapt planned actions at national levels

Address insufficient progress through **joint commitments**, as well as through multi-country projects and actions at EU level

Engage in **cooperative dialogue** to identify deviations from the projected trajectories

European Commission

Thank you
