Theme	Question	Answers
Scope	1) Are the exemptions proposed in Directive Articles 2 and 3 appropriate? Are there ways in which more could be done to exempt corporate end users?	Insurance contracts shall remain excluded from the scope of the Directive. All providers of insurance products are regulated under the Directive 2009/138/EC (Solvency II). The IMD regulates the distribution of all insurance products. Shifting selected insurance products to securities regulation would lead to a <u>regulatory patchwork within the insurance sector</u> resulting in confusion of the consumer, higher information cost and inappropriate higher complexity. Submitting insurance products partially under securities regulation would <u>split supervisory competences</u> between ESMA and EIOPA and their national counterparts. A supervisory fragmentation would seriously undermine the European Union's ambition to emerge stronger from the economic and financial crisis.

		The IMD is currently under review and will provide appropriate selling rules to the benefit of the customer.

	14) What is your view of the powers to impose position limits, alternative arrangements with equivalent effect or manage positions in relation to commodity derivatives or the underlying commodity? Are there any changes which could make the requirements easier to apply or less onerous in practice?
