## Joint debate on anti-dumping measures and ways to protect the EU base metals

Anti-dumping measures and sustainable initiatives to support the European base metals industry, including steel, will be the topics in a joint debate with Commissioner Elbieta Biełkowska on Tuesday afternoon, starting around 19h. A draft resolution prepared by Edouard Martin (S&D, FR) is scheduled for a plenary vote in December.

Industry Committee MEPs call for "the revision of the two regulations on trade defence instruments (TDI)", and suggest "an initial review of anti-dumping and anti-subsidy complaints".

They also deplored "the fact that the legislative proposal on the modernisation of TDI is at a standstill in the Council despite the strong support which Parliament has expressed for tougher measures against unfair import from third countries".

Follow the debate live on [EP Live](#) and [EbS+](#).
