

Public Hearing

Emissions Trading System – ETS

Committee on the Environment, Public Health and Food Safety
European Parliament

18 February 2016

Philipp Ruf

Lead Analyst – EU Carbon Markets

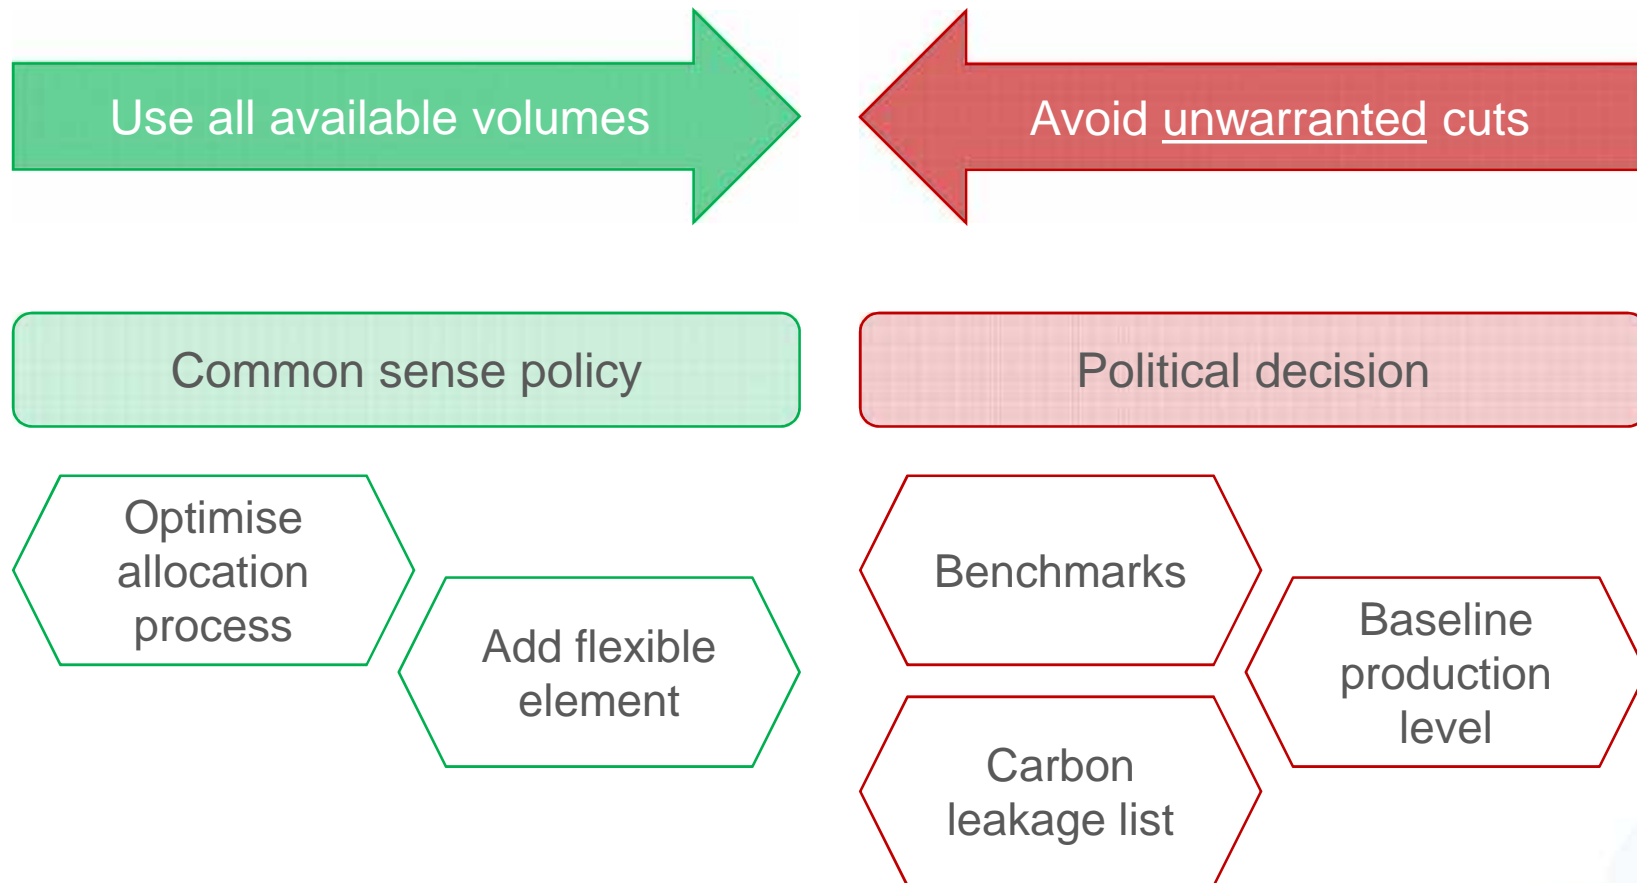

Phase 3 Suboptimal allocation?

Tackling phase 3 issues

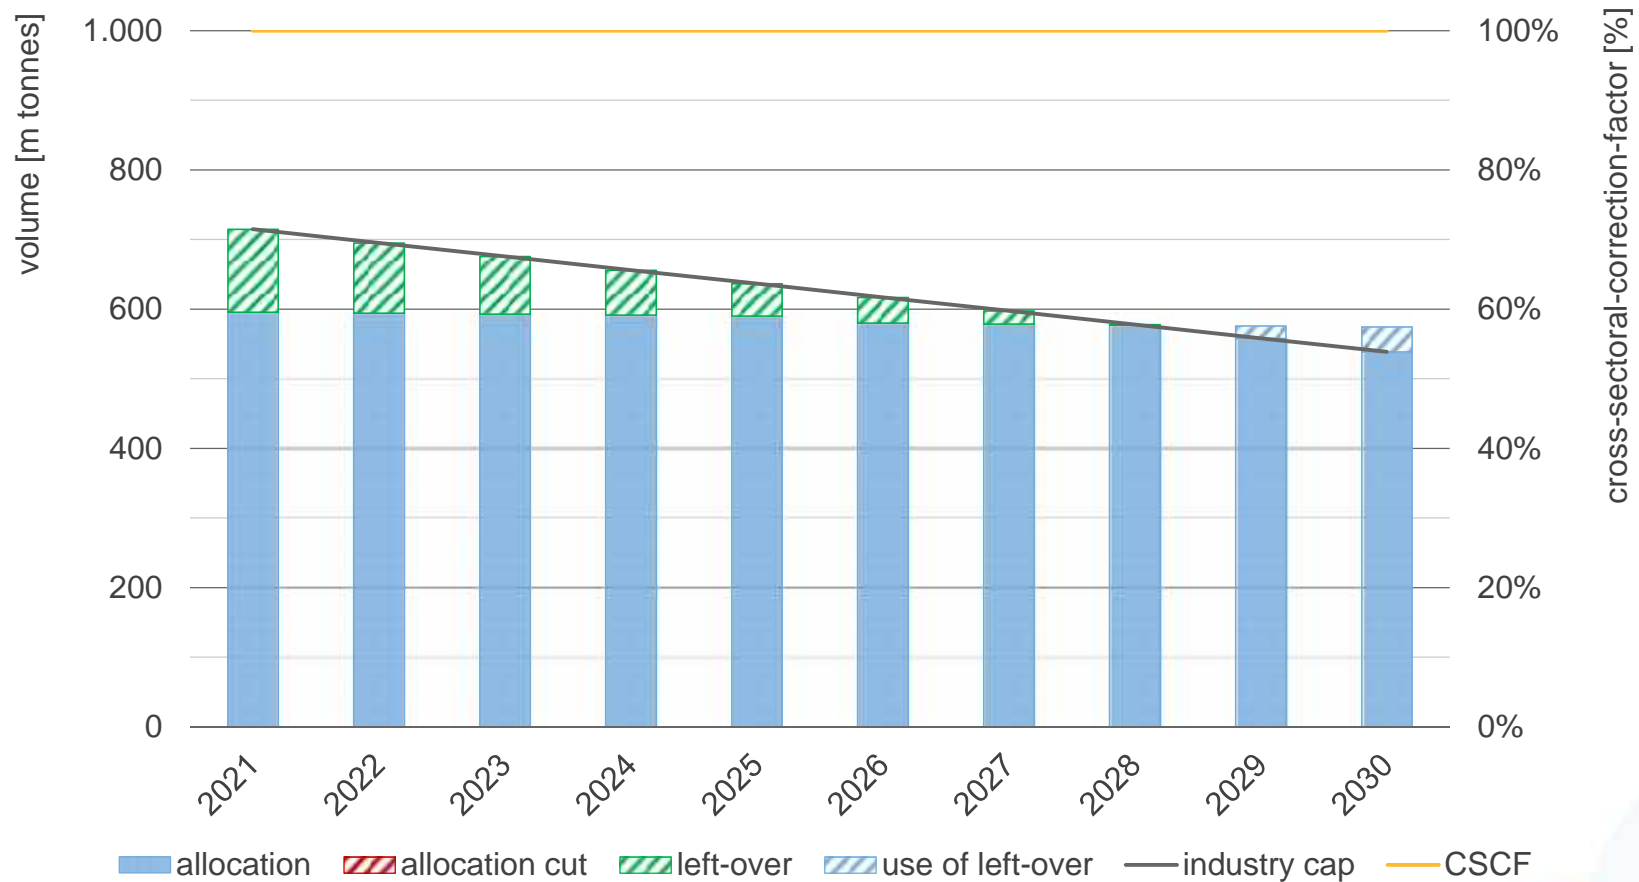

Phase 4

Optimised allocation?

Phase 4 – Optimised allocation!

Conclusions

➔ Certainty

- ➔ New process ensures that all available volumes are used
- ➔ Low likelihood of an application of the CSCF
- ➔ Predictable benchmark reduction

➔ Flexibility

- ➔ Free allocation adjustment based on latest production data
- ➔ Three different flat-rates for benchmarks

Thank You
