A6-0391/74

AMENDMENT 74

by Czesław Adam Siekierski and others

Report

A6-0391/2005

Jean-Claude Fruteau

Common organisation of the market in sugar

Proposal for a regulation (COM(2005)0263 – C6-0243/2005 – 2005/0118(CNS))

Text proposed by the Commission

Amendment by Parliament

Amendment 74

Article 27, paragraph 3 a (new)

3a. If, in a given marketing year starting from 2008/2009, imports of sugar into the Community from a third country under the EBA initiative increase by more than 15% in comparison with imports from that country in the previous marketing year, the Commission shall automatically initiate a procedure to decide whether measures such as the suspension or temporary withdrawal of trade concessions, supervision or other protection measures should be taken.

Or. pl

Justification

The volume of imports from third countries, particularly those coming under the 'Everything But Arms' initiative, is the factor about which there is the greatest uncertainty and which is therefore the greatest threat to the success of the reform and the future balance of the Community sugar market. It is therefore essential to create legal bases for effective control of sugar imports coming under preferential arrangements.

A6-0391/75

AMENDMENT 75

by Czesław Adam Siekierski and others

Report

A6-0391/2005

Jean-Claude Fruteau

Common organisation of the market in sugar

Proposal for a regulation (COM(2005)0263 – C6-0243/2005 – 2005/0118(CNS))

Text proposed by the Commission

Amendment by Parliament

Amendment 75

Article 9, paragraph 1 a (new)

1a. Poland shall be granted an additional isoglucose quota of 60 000 tonnes from the marketing year 2006/2007, which shall not be subject to payment of the one-off amount.

Or. pl

Justification

With a view to ensuring that the reform has a balanced impact, it is essential for the proposed quota to be granted. This will make it possible for advantage to be taken of production capacity that has existed for the past five years and will to some extent alleviate the social and economic impact of the sugar market reform.
