**REPORT**

on the proposal for a regulation of the European Parliament and of the Council on appliances burning gaseous fuels  

Committee on the Internal Market and Consumer Protection

Rapporteur: Catherine Stihler
Symbols for procedures

* Consultation procedure
*** Consent procedure
****I Ordinary legislative procedure (first reading)
****II Ordinary legislative procedure (second reading)
****III Ordinary legislative procedure (third reading)

(The type of procedure depends on the legal basis proposed by the draft act.)

Amendments to a draft act

Amendments by Parliament set out in two columns

Deletions are indicated in *bold italics* in the left-hand column. Replacements are indicated in *bold italics* in both columns. New text is indicated in *bold italics* in the right-hand column.

The first and second lines of the header of each amendment identify the relevant part of the draft act under consideration. If an amendment pertains to an existing act that the draft act is seeking to amend, the amendment heading includes a third line identifying the existing act and a fourth line identifying the provision in that act that Parliament wishes to amend.

Amendments by Parliament in the form of a consolidated text

New text is highlighted in *bold italics*. Deletions are indicated using either the ☐ symbol or strikeout. Replacements are indicated by highlighting the new text in *bold italics* and by deleting or striking out the text that has been replaced.

By way of exception, purely technical changes made by the drafting departments in preparing the final text are not highlighted.

DRAFT EUROPEAN PARLIAMENT LEGISLATIVE RESOLUTION

on the proposal for a regulation of the European Parliament and of the Council on appliances burning gaseous fuels

(Ordinary legislative procedure: first reading)

The European Parliament,

– having regard to the Commission proposal to Parliament and the Council (COM(2014)0258),

– having regard to Article 294(2) and Article 114 of the Treaty on the Functioning of the European Union, pursuant to which the Commission submitted the proposal to Parliament (C8-0006/2014),

– having regard to Article 294(3) of the Treaty on the Functioning of the European Union,

– having regard to Rules 59 of its Rules of Procedure,

– having regard to the report of the Committee on the Internal Market and Consumer Protection (A8-0147/2015),

1. Adopts its position at first reading hereinafter set out;

2. Calls on the Commission to refer the matter to Parliament again if it intends to amend its proposal substantially or replace it with another text;

3. Instructs its President to forward its position to the Council, the Commission and the national parliaments.
Amendment 1
Proposal for a regulation
Recital 3 a

Text proposed by the Commission

Amendment

(3a) This Regulation covers appliances burning gaseous fuels (‘appliances’) and fittings which are new to the Union market when they are placed on the market; that is to say they are either new appliances and fittings made by a manufacturer established in the Union or appliances and fittings, whether new or second-hand, imported from a third country.

Justification

Text added aligns the recital to the NLF Decision and/or to the Alignment Package

Amendment 2
Proposal for a regulation
Recital 3 b (new)

Text proposed by the Commission

Amendment

(3b) Appliances possessing a historic and artistic value within the meaning of Article 36 of the Treaty on the Functioning of the European Union (TFEU) and not put into service, as antique and other appliances serving exhibition or collection purposes, should not be considered as appliances covered by this Regulation.

Amendment 3
Proposal for a regulation
Recital 3 c (new)
Text proposed by the Commission

Amendment

(3c) This Regulation should apply to all forms of supply across the Union, including distance selling.

Justification

Text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 4

Proposal for a regulation

Recital 6

Text proposed by the Commission

(6) Regulation (EC) No 765/2008 of the European Parliament and of the Council setting out the requirements for accreditation and market surveillance relating to the marketing of products lays down horizontal provisions on the accreditation of conformity assessment bodies, market surveillance of products and controls on products from third countries, and the CE marking.

Amendment

(6) Regulation (EC) No 765/2008 of the European Parliament and of the Council setting out the requirements for accreditation and market surveillance relating to the marketing of products lays down rules on the accreditation of conformity assessment bodies, provides a framework for the market surveillance of products and for controls on products from third countries, and lays down the general principles of the CE marking.

Justification

Text changes align the recital to the NLF Decision and/or to the Alignment Package.

Amendment 5

Proposal for a regulation
Recital 7

Text proposed by the Commission

(7) Regulation (EU) No […] of the European Parliament and of the Council\(^{27}\) [on market surveillance of products] provides detailed rules on market surveillance and on controls of products entering the Union from third countries, including appliances burning gaseous fuels. It also sets out a safeguard clause procedure. Member States should organise and carry out market surveillance, appoint market surveillance authorities and specify their powers and duties. They should also set up general and sector-specific market surveillance programs.

__________________

\(^{27}\) OJ L […]], […], p. […].

Justification

Amendment 6

Proposal for a regulation
Recital 8

Text proposed by the Commission

(8) The scope of Directive 2009/142/EC should be maintained. This Regulation should apply to appliances burning gaseous fuels and to fittings incorporated into an appliance burning gaseous fuels. Appliances burning gaseous fuels are domestic and non-domestic appliances intended for a number of specified applications.

Amendment

(8) The scope of Directive 2009/142/EC should be maintained. This Regulation should apply to domestic and non-domestic appliances intended for a number of specified applications burning gaseous fuels and to fittings designed to be incorporated into such appliances.
Amendment 7
Proposal for a regulation
Recital 10

_text proposed by the Commission_

(10) This Regulation should not apply where other Union harmonisation legislation covers more specifically the aspects covered by this Regulation. This includes the measures issued under Directive 2009/125/EC of the European Parliament and of the Council establishing a framework for ecodesign requirements.

Amendment

(10) This Regulation should not apply in respect of aspects covered more specifically by other Union harmonisation legislation. This includes the measures issued under Directive 2009/125/EC of the European Parliament and of the Council establishing a framework for ecodesign requirements.

Amendment 8
Proposal for a regulation
Recital 11

_text proposed by the Commission_

(11) Article 6 of this Regulation prevents Member States from imposing stricter requirements on health, safety and energy conservation which would prohibit, restrict or impede the making available on the market and the putting into service of appliances which comply with this Regulation. However, this provision does not affect the possibility for Member States, when implementing other EU Directives, to impose requirements which affect the energy efficiency of products, including gas appliances, as long as such

Amendment

(11) Article 6 of this Regulation prevents Member States from imposing stricter requirements on health, safety and energy conservation which would prohibit, restrict or impede the making available on the market and the putting into service of appliances which comply with this Regulation. However, this provision does not affect the possibility for Member States, when implementing other EU Directives, to impose requirements which affect the energy efficiency of products, including gas appliances, as long as such
measures are compatible with the Treaty. measures are compatible with the TFEU.

Amendment 9

Proposal for a regulation
Recital 13 a (new)

Text proposed by the Commission

(13a) In order to ensure legal certainty, it is necessary to clarify that rules on Union market surveillance and control of products entering the Union market provided for in Regulation (EC) No 765/2008 apply to appliances and fittings covered by this Regulation. This Regulation should not prevent Member States from choosing the competent authorities to carry out those tasks.

Amendment

Amendment 10

Proposal for a regulation
Recital 14

Text proposed by the Commission

(14) Member States should take the necessary steps to ensure that appliances burning gaseous fuels are made available on the market and put into service only where they do not compromise the safety of persons, domestic animals and property, when normally used.

Amendment

(14) Member States should take the necessary steps to ensure that appliances burning gaseous fuels are made available on the market and put into service only where they do not compromise the health and safety of persons, domestic animals or property, when normally used.

Amendment 11

Proposal for a regulation
Recital 15

Text proposed by the Commission

(15) The provisions of this Regulation do not affect the Member States’ entitlement to lay down rules concerning

Amendment

(15) The provisions of this Regulation do not affect the Member States’ entitlement to lay down rules concerning
commissioning or periodic inspections of appliances burning gaseous fuels in order to ensure their correct installation, use and maintenance. commissioning or periodic inspections of appliances burning gaseous fuels, or other measures such as installer training or certification, in order to ensure their correct installation, use and maintenance, including precautionary safety measures. Those rules and measures are essential in preventing gas poisoning, including from carbon monoxide (CO), and the leakage of any substances harmful to health and safety.

Amendment 12
Proposal for a regulation
Recital 17

Text proposed by the Commission

(17) As this Regulation does not cover such risks caused by appliances burning gaseous fuels in case of incorrect installation, maintenance or use, Member States are encouraged to take measures to ensure that public is made aware of the risks related to combustion products and in particular to carbon monoxide.

Amendment

(17) As this Regulation does not cover such risks caused by appliances burning gaseous fuels in case of incorrect installation, maintenance or use, Member States are strongly encouraged to take measures to ensure that public is made aware of the health and safety risks related to combustion products and the need for proper precautionary safety measures, in particular in relation to emissions of carbon monoxide.

Amendment 13
Proposal for a regulation
Recital 26

Text proposed by the Commission

(26) The appliance category marking indicated on the appliance data plate establishes a direct link with the gas families and/or gas groups for which an appliance burning gaseous fuels has been designed to burn safely at the desired performance level and thus ensures the

Amendment

(26) The appliance category marking indicated on the appliance or its data plate establishes a direct link with the gas families and/or gas groups for which an appliance burning gaseous fuels has been designed to burn safely at the desired performance level and thus ensures the
compatibility of the appliance with the local gas supply conditions.

Amendment 14
Proposal for a regulation
Recital 29

Text proposed by the Commission

(29) Economic operators should be responsible for the compliance of appliances burning gaseous fuels and of fittings with the requirements of this Regulation, in relation to their respective roles in the supply chain, so as to ensure a high level of protection of public interests, such as health, safety, rational use of energy and the protection of consumers and other users, domestic animals and property and to guarantee fair competition on the Union market.

Amendment

(29) Economic operators should be responsible for the compliance of appliances burning gaseous fuels and of fittings with the requirements of this Regulation, in relation to their respective roles in the supply chain, so as to ensure a high level of protection of public interests, such as health and safety of persons and domestic animals, protection of consumers and of property, and rational use of energy, and to guarantee fair competition on the Union market.

Amendment 15
Proposal for a regulation
Recital 30

Text proposed by the Commission

(30) All economic operators intervening in the supply and distribution chain should take appropriate measures to ensure that they only make available on the market appliances burning gaseous fuels which are in conformity with this Regulation. It is necessary to provide for a clear and proportionate distribution of obligations which correspond to the role of each economic operator in the supply and distribution chain.

Amendment

(30) All economic operators intervening in the supply and distribution chain should take appropriate measures to ensure that they only make available on the market appliances burning gaseous fuels or fittings which are in conformity with this Regulation. It is necessary to provide for a clear and proportionate distribution of obligations which correspond to the role of each economic operator in the supply and distribution chain.
Amendment 16
Proposal for a regulation
Recital 34

Text proposed by the Commission

(34) It is necessary to ensure that appliances burning gaseous fuels and fittings from third countries entering the Union market comply with the requirements of this Regulation, and in particular that appropriate conformity assessment procedures have been carried out by manufacturers with regard to those appliances and fittings. Provision should therefore be made for importers to make sure that the appliances burning gaseous fuels and fittings they place on the market comply with the requirements of this Regulation and that they do not place on the market appliances and fittings which do not comply with such requirements or present a risk. Provision should also be made for importers to make sure that conformity assessment procedures have been carried out and that appliance marking and documentation drawn up by manufacturers are available for inspection by the competent supervisory authorities.

Amendment

(34) It is necessary to ensure that appliances burning gaseous fuels and fittings from third countries entering the Union market comply with the requirements of this Regulation, and in particular that appropriate conformity assessment procedures have been carried out by manufacturers with regard to those appliances and fittings. Provision should therefore be made for importers to make sure that the appliances burning gaseous fuels and fittings they place on the market comply with the requirements of this Regulation and that they do not place on the market appliances and fittings which do not comply with such requirements or present a risk. Provision should also be made for importers to make sure that conformity assessment procedures have been carried out and that the CE marking on appliances and fittings and documentation drawn up by manufacturers are available for inspection by the competent supervisory or national authorities.

Amendment 17
Proposal for a regulation
Recital 36

Text proposed by the Commission

(36) When placing on the market an appliance burning gaseous fuels or a fitting, every importer should indicate on the appliance or fitting his name, registered trade name or registered trade mark and the postal address at which he can be contacted. Exceptions should be provided

Amendment

(36) When placing an appliance burning gaseous fuels or a fitting on the market, every importer should indicate on the appliance or fitting his name, registered trade name or registered trade mark and the postal address at which he can be contacted. Exceptions should be provided
for in cases where the size or nature of the appliance or fitting does not allow it. This includes cases where the importer would have to open the packaging to put his name and address on the product.

Amendment 18

Proposal for a regulation
Recital 39

Text proposed by the Commission

(39) Ensuring traceability of an appliance burning gaseous fuels or a fitting throughout the whole supply chain helps to make market surveillance simpler and more efficient. An efficient traceability system facilitates market surveillance authorities’ task of tracing economic operators who made non-compliant appliances burning gaseous fuels or fittings available on the market.

Amendment

(39) Ensuring traceability of an appliance burning gaseous fuels or a fitting throughout the whole supply chain helps to make market surveillance simpler and more efficient. An efficient traceability system facilitates market surveillance authorities’ task of tracing economic operators who made non-compliant appliances burning gaseous fuels or fittings available on the market. When keeping the information required under this Regulation for the identification of other economic operators, economic operators should not be required to update such information in respect of other economic operators who have either supplied them with an appliance or fitting or to whom they have supplied an appliance or fitting.

Justification

text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 19

Proposal for a regulation
Recital 43

Text proposed by the Commission

(43) Manufacturers of appliances burning gaseous fuels should draw up an EU declaration of conformity to provide

Amendment

(43) Manufacturers of appliances burning gaseous fuels and fittings should draw up an EU declaration of conformity to provide
information required under this Regulation on the conformity of an appliance with the requirements of this Regulation and of other relevant Union harmonisation legislation.

Amendment 20
Proposal for a regulation
Recital 44

Text proposed by the Commission

(44) To ensure effective access to information for market surveillance purposes, the information required to identify all applicable Union Acts for an appliance burning gaseous fuels should be available in a single EU declaration of conformity.

Amendment

(44) To ensure effective access to information for market surveillance purposes, the information required to identify all applicable Union Acts for an appliance burning gaseous fuels and fittings should be available in a single EU declaration of conformity. In order to reduce the administrative burden on economic operators, that single EU declaration of conformity may be a dossier made up of relevant individual declarations of conformity.

Justification

text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 21
Proposal for a regulation
Recital 45

Text proposed by the Commission

(45) Manufacturers of fittings should issue a Fitting conformity certificate to provide information required under this Regulation on the conformity of the fitting with the requirements of this Regulation. In case the fitting is subject also to other Union harmonisation legislation, manufacturers of fittings should also, where relevant, issue an EU

Amendment

deleted
declaration of conformity in accordance with that legislation.

Justification

Adding a Fitting conformity certificate would only bring about more work and even more confusion among economic operators when fulfilling their obligations. As it is the case for other harmonised product legislation, fittings and accessories should meet the essential requirements and be CE marked.

Amendment 22

Proposal for a regulation

Recital 46

Text proposed by the Commission

(46) The CE marking, indicating the conformity of an appliance burning gaseous fuels is the visible consequence of a whole process comprising conformity assessment in a broad sense. General principles governing the CE marking and its relationship with other markings are set out in Regulation (EC) No 765/2008. Rules governing the affixing of the CE marking should be laid down in this Regulation.

Amendment

(46) The CE marking, indicating the conformity of an appliance burning gaseous fuels or a fitting is the visible consequence of a whole process comprising conformity assessment in a broad sense. General principles governing the CE marking and its relationship with other markings are set out in Regulation (EC) No 765/2008. Rules governing the affixing of the CE marking should be laid down in this Regulation.

Amendment 23

Proposal for a regulation

Recital 47

Text proposed by the Commission

(47) Fittings are not appliances burning gaseous fuels, but intermediate products made available between professionals and intended to be incorporated into an appliance. As the appropriate design of a fitting contributes to the correct and safe functioning of a finished appliance and as the gas related risks of an appliance can only be assessed after incorporation of the

Amendment

(47) Fittings are not appliances burning gaseous fuels, but intermediate products intended for appliance manufacturers and designed to be incorporated into an appliance. However, fittings should satisfy the essential requirements so as to fulfil correctly their intended purpose when incorporated into an appliance or assembled to constitute such an appliance.
fitting. It is appropriate that fittings do not bear the CE marking.

With a view to simplification and in order to avoid any confusion and misunderstanding for manufacturers in the implementation of their obligations, it is considered justified that fittings should also bear the CE marking. Exceptions should be provided for in cases where the size or nature of the fitting does not allow the CE marking to be affixed to it.

Amendment 24
Proposal for a regulation
Recital 48

Text proposed by the Commission
(48) A check of compliance of appliances burning gaseous fuels and of fittings with the essential requirements provided for in this Regulation is necessary in order to provide effective protection for users and third parties.

Amendment
(48) A check of compliance of appliances burning gaseous fuels and of fittings with the essential requirements provided for in this Regulation is necessary in order to provide effective protection of the health and safety of persons and domestic animals and protection of property.

Amendment 25
Proposal for a regulation
Recital 49

Text proposed by the Commission
(49) In order to ensure compliance of appliances burning gaseous fuels with the essential requirements, it is necessary to lay down appropriate conformity assessment procedures to be followed by the manufacturer. Those procedures should be set from the conformity assessment modules laid down in Decision No 768/2008/EC.

Amendment
(49) In order to ensure compliance of appliances burning gaseous fuels and fittings with the essential requirements, it is necessary to lay down appropriate conformity assessment procedures to be followed by the manufacturer. Those procedures should be set from the conformity assessment modules laid down in Decision No 768/2008/EC.
Amendment 26

Proposal for a regulation
Recital 56

Text proposed by the Commission

(56) Conformity assessment bodies frequently subcontract parts of their activities linked to the assessment of conformity or have recourse to a subsidiary. In order to safeguard the level of protection required for the appliances burning gaseous fuels to be placed on the Union market, it is essential that conformity assessment subcontractors and subsidiaries fulfil the same requirements as notified bodies in relation to the performance of conformity assessment tasks. Therefore, it is important that the assessment of the competence and the performance of bodies to be notified and the monitoring of bodies already notified cover also activities carried out by subcontractors and subsidiaries.

Amendment

(56) Conformity assessment bodies frequently subcontract parts of their activities linked to the assessment of conformity or have recourse to a subsidiary. In order to safeguard the level of protection required for the appliances burning gaseous fuels and the fittings to be placed on the Union market, it is essential that conformity assessment subcontractors and subsidiaries fulfil the same requirements as notified bodies in relation to the performance of conformity assessment tasks. Therefore, it is important that the assessment of the competence and the performance of bodies to be notified and the monitoring of bodies already notified cover also activities carried out by subcontractors and subsidiaries.

Amendment 27

Proposal for a regulation
Recital 58

Text proposed by the Commission

(58) Since conformity assessment bodies may offer their services throughout the Union, it is appropriate to give the other Member States and the Commission the opportunity to raise objections concerning a notified body. It is therefore important to provide for a period during which any doubts or concerns as to the competence of conformity assessment bodies can be clarified before they start operating as notified bodies.

Amendment

(58) Since notified bodies may offer their services throughout the Union, it is appropriate to give the other Member States and the Commission the opportunity to raise objections concerning a notified body. It is therefore important to provide for a period during which any doubts or concerns as to the competence of conformity assessment bodies can be clarified before they start operating as notified bodies.
Amendment 28
Proposal for a regulation
Recital 59 a (new)

Text proposed by the Commission
Amendment

(59a) Interested parties should have the right to appeal against the result of an assessment carried out by a notified body. For that reason, it is important to ensure that an appeal procedure against decisions taken by notified bodies is available.

Amendment 29
Proposal for a regulation
Recital 59 b (new)

Text proposed by the Commission
Amendment

(59b) Directive 2009/142/EC already provides for a safeguard procedure, which is necessary to allow the possibility for contesting the conformity of an appliance or a fitting. In order to increase transparency and to reduce processing time, it is necessary to improve the existing safeguard procedure, with a view to making it more efficient and drawing on the expertise available in the Member States.

Justification

Text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 30
Proposal for a regulation
Recital 59 c (new)

Text proposed by the Commission
Amendment

(59c) The existing system should be
supplemented by a procedure under which interested parties are informed of measures intended to be taken with regard to appliances and fittings presenting a risk to the health or safety of persons or to domestic animals or property. It should also allow market surveillance authorities, in cooperation with the relevant economic operators, to act at an earlier stage in respect of such appliances and fittings.

Justification

text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 31

Proposal for a regulation
Recital 59 d (new)

Text proposed by the Commission

(59d) Where the Member States and the Commission agree as to the justification of a measure taken by a Member State, no further involvement of the Commission should be required, except where non-compliance can be attributed to shortcomings of a harmonised standard.

Justification

text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 32

Proposal for a regulation
Recital 64

Text proposed by the Commission

(64) It is necessary to provide for reasonable transitional arrangements that allow the making available on the market or the putting into service of appliances burning gaseous fuels and fittings that have already

Amendment

(64) It is necessary to provide for reasonable transitional arrangements that allow the making available on the market and the putting into service without the need to comply with further product
been placed on the market in accordance with Directive 2009/142/EC. 

requirements, of appliances burning gaseous fuels and fittings that have already been placed on the market in accordance with Directive 2009/142/EC before the date of application of this Regulation. Distributors should therefore be able to supply products that have been placed on the market, namely stock that is already in the distribution chain, before the date of application of this Regulation.

Justification

text added aligns the recital to the NLF Decision and/or to the Alignment Package.

Amendment 33
Proposal for a regulation
Recital 66

Text proposed by the Commission

(66) Since the objective of this Regulation, namely to ensure that appliances burning gaseous fuels on the market fulfil the requirements providing for a high level of protection of health and safety of users and protection of domestic animals or property and for rational use of energy, while guaranteeing the functioning of the internal market cannot be sufficiently achieved by the Member States and can therefore, by reason of its scale and effects, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

Amendment

(66) Since the objective of this Regulation, namely to ensure that appliances burning gaseous fuels and fittings on the market fulfil the requirements providing for a high level of protection of health and safety of persons and protection of domestic animals or property and for rational use of energy, while guaranteeing the functioning of the internal market cannot be sufficiently achieved by the Member States but can rather, by reason of its scale and effects, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
Amendment 34

Proposal for a regulation
Article 1 – paragraph 2 – point b

Text proposed by the Commission

(b) it is used with a normal variation in the gas quality and a normal fluctuation in the supply pressure.

Amendment

(b) it is used with a normal variation in the gas quality and a normal fluctuation in the supply pressure as determined by Member States in their communication pursuant to Article 4.

Amendment 35

Proposal for a regulation
Article 1 – paragraph 3 – subparagraph 1 a (new)

Text proposed by the Commission

For the purposes of this paragraph, an appliance shall be considered to be 'specifically designed' when the design is only intended to address a specific need for a specific process or use.

Amendment

Amendment 36

Proposal for a regulation
Article 1 – paragraph 5

Text proposed by the Commission

(5) The rational use of energy essential requirement in point 3.5 of Annex I to this Regulation shall not apply to appliances covered by a measure issued pursuant to Article 15 of Directive 2009/125/EC.

Amendment

(5) The rational use of energy essential requirement in point 3.5 of Annex I to this Regulation shall not apply to appliances covered by a measure adopted pursuant to Article 15 of Directive 2009/125/EC.

Amendment 37

Proposal for a regulation
Article 1 – paragraph 5 a (new)
(5a) This Regulation shall not affect the obligation for Member States to provide for measures with respect to the promotion of the use of energy from renewable sources and to the energy efficiency of buildings, in accordance with Directives 2009/28/EC, 2010/31/EU and 2012/27/EU. Such measures shall be compatible with the TFEU.

Amendment 38

Proposal for a regulation
Article 2 – paragraph 1 – point 1

(1) ‘appliances’ means appliances burning gaseous fuels used for cooking, refrigeration, air-conditioning, space heating, hot water production, lighting and washing, as also forced draught burners and heating bodies to be equipped with such burners;

Amendment 39

Proposal for a regulation
Article 2 – paragraph 1 – point 2

(2) ‘fittings’ means safety devices, controlling devices or regulating devices and sub-assemblies thereof, separately marketed for trade use and designed to be incorporated into an appliance burning gaseous fuels or to be assembled to constitute such an appliance;
Amendment 40

Proposal for a regulation
Article 2 – paragraph 1 – point 4 a (new)

Text proposed by the Commission

(4a) ‘cooking’ means the art or practice of preparing or warming food for consumption with the use of heat and a wide range of methods;

Amendment

Amendment 41

Proposal for a regulation
Article 2 – paragraph 1 – point 5

Text proposed by the Commission

(5) ‘gaseous fuel’ means any fuel which is in a gaseous state at a temperature of 15 °C under a pressure of 1 bar;

Amendment

(5) ‘gaseous fuel’ means any fuel which is in a gaseous state at a temperature of 15 °C under an absolute pressure of 1 bar;

Amendment 42

Proposal for a regulation
Article 2 – paragraph 1 – point 7

Text proposed by the Commission

(7) ‘specific design’ means a design for an appliance when that design is only intended to address a specific need for a specific process;

Amendment

deleted

Amendment 43

Proposal for a regulation
Article 2 – paragraph 1 – point 12

Text proposed by the Commission

(12) ‘appliance category’ means the identification of gas families and/or gas groups that an appliance is designed to

Amendment

(12) ‘appliance category’ means the identification of gas families and/or gas groups that an appliance is designed to
burn safely and at the desired performance level, as indicated by the appliance category marking, determined by CEN; burn safely and at the desired performance level, as indicated by the appliance category marking;

Amendment 44

Proposal for a regulation
Article 2 – paragraph 1 – point 13

Text proposed by the Commission

(13) ‘making available on the market of appliances’ means any supply of appliances for distribution or use on the Union market in the course of a commercial activity, whether in return for payment or free of charge;

Amendment

(13) ‘making available on the market’ means any supply of appliances or fittings for distribution or use on the Union market in the course of a commercial activity, whether in return for payment or free of charge;

Amendment 45

Proposal for a regulation
Article 2 – paragraph 1 – point 14

Text proposed by the Commission

(14) ‘making available on the market of fittings’ means any supply for trade use of fittings for distribution on the Union market in view of incorporation into an appliance or assembled to constitute such an appliance, whether in return for payment or free of charge;

Amendment

deleted

Amendment 46

Proposal for a regulation
Article 2 – paragraph 1 – point 17

Text proposed by the Commission

(17) ‘putting into service’ means the first use of an appliance or its first use for the manufacturer’s own purposes;

Amendment

(17) ‘putting into service’ means the first use of an appliance in the Union by its end-user;
Amendment 47
Proposal for a regulation
Article 2 – paragraph 1 – point 18

Text proposed by the Commission

(18) 'manufacturer’ means any natural or legal person who manufactures an appliance or a fitting or who has such an appliance or fitting designed or manufactured, and markets that product under his name or trademark;

Amendment

(18) ‘manufacturer’ means any natural or legal person who manufactures an appliance or a fitting or who has such an appliance or fitting designed or manufactured, and markets that product under his name or trademark or uses the appliance for his own purposes;

Amendment 48
Proposal for a regulation
Article 2 – paragraph 1 – point 29

Text proposed by the Commission

(29) ‘recall’ means any measure aimed at achieving the return of an appliance that has already been made available to the end-user;

Amendment

(29) ‘recall’ means any measure aimed at achieving the return of an appliance that has already been made available to the end-user or of a fitting that has already been made available to an appliance manufacturer;

Amendment 49
Proposal for a regulation
Article 2 – paragraph 1 – point 30 a (new)

Text proposed by the Commission

(30a) 'Union harmonisation legislation' means any Union legislation harmonising the conditions for the marketing of products;

Amendment

Justification

This subparagraph aligns the text with the NLF Decision and/or to the Alignment Package.
Amendment 50  
Proposal for a regulation  
Article 2 – paragraph 1 – point 31

**Text proposed by the Commission**

(31) ‘CE marking’ means a marking by which the manufacturer indicates that the appliance is in conformity with the applicable requirements set out in Union harmonisation legislation providing for its affixing;

**Amendment**

(31) ‘CE marking’ means a marking by which the manufacturer indicates that the appliance or the fitting is in conformity with the applicable requirements set out in Union harmonisation legislation providing for its affixing;

Amendment 51  
Proposal for a regulation  
Article 2 – paragraph 1 – point 32

**Text proposed by the Commission**

(32) ‘Union harmonisation legislation’ means any Union legislation harmonising the conditions for the marketing of products.

**Amendment**

deleted

Amendment 52  
Proposal for a regulation  
Article 3 – paragraph 1

**Text proposed by the Commission**

(1) Member States shall take all appropriate measures to ensure that appliances may be made available on the market and put into service only if they satisfy the requirements of this Regulation.

**Amendment**

(1) Appliances shall only be made available on the market and put into service if, when normally used, they comply with this Regulation.

Amendment 53  
Proposal for a regulation  
Article 3 – paragraph 2
(2) **Member States shall take all appropriate measures to ensure that** fittings *may* be made available on the market *only* if they satisfy the requirements of this Regulation.

**Amendment 54**

**Proposal for a regulation**

**Article 3 – paragraph 3**

(3) This Regulation shall not affect Member States’ entitlement to lay **the requirements which** they may deem necessary to ensure that persons, domestic animals and property are protected during the normal use of the appliances, provided that this does not mean modifications to such appliances.

**Amendment 55**

**Proposal for a regulation**

**Article 4 – paragraph 1**

(1) Member States shall communicate to Commission and the other Member States, the types of gas and corresponding supply pressures of gaseous fuels used on their territory **and in good time** any changes thereof, **in accordance with the requirements set out in Annex II**.

**Amendment 56**

**Proposal for a regulation**

**Article 4 – paragraph 2**

(1) Member States shall communicate to the Commission and the other Member States, the types of gas and corresponding supply pressures of gaseous fuels used on their territory **before [six months before the date referred to in Article 42(2)]** and any changes thereof **within six months after the announcement of those changes**.

PE544.262v02-00  28/93  RR\1060057EN.doc
(2) The Commission shall ensure that this information is published in the Official Journal of the European Union.

Amendment 57

Proposal for a regulation
Article 6 – paragraph 2 a (new)

Text proposed by the Commission

(2a) At trade fairs, exhibitions, demonstrations or similar events, Member States shall not prevent the showing of appliances or fittings which do not comply with this Regulation, provided that a visible sign clearly indicates that such appliances or fittings do not comply with this Regulation and that they are not for sale until they have been brought into conformity by the manufacturer. During demonstrations, adequate safety measures shall be taken to ensure the protection of the health and safety of persons and domestic animals and protection of property.

Amendment 58

Proposal for a regulation
Article 7 – paragraph 1

Text proposed by the Commission

(1) When placing their appliances or fittings on the market, manufacturers shall ensure that they have been designed and manufactured in accordance with the essential requirements set out in Annex I.

(1) When placing their appliances or fittings on the market or when using the appliances for their own purposes, manufacturers shall ensure that they have been designed and manufactured in accordance with the essential requirements
Amendment 59

Proposal for a regulation
Article 7 – paragraph 2 – subparagraph 2

Text proposed by the Commission

Where compliance of an appliance with the applicable requirements has been demonstrated by the procedure referred to in the first subparagraph, manufacturers shall draw up an EU declaration of conformity and affix the CE marking.

Amendment

Where compliance of an appliance or a fitting with the applicable requirements has been demonstrated by the procedure referred to in the first subparagraph, manufacturers shall draw up an EU declaration of conformity and affix the CE marking.

Amendment 60

Proposal for a regulation
Article 7 – paragraph 2 – subparagraph 3

Text proposed by the Commission

Where compliance of a fitting with the applicable requirements has been demonstrated by the procedure referred to in the first subparagraph, manufacturers shall draw up a Fitting conformity certificate.

Amendment

deleted

Justification

Fittings should be CE marked so no need for a Fitting conformity certificate

Amendment 61

Proposal for a regulation
Article 7 – paragraph 3 – subparagraph 1

Text proposed by the Commission

Manufacturers shall keep the technical

Amendment

Manufacturers shall keep the technical
documentation and the EU declaration of conformity for 10 years after the appliance has been placed on the market.

documentation and the EU declaration of conformity for 10 years after the appliance or the fitting has been placed on the market.

Amendment 62

Proposal for a regulation
Article 7 – paragraph 3 – subparagraph 2

Text proposed by the Commission

Manufacturers shall keep the technical documentation and the Fitting conformity certificate for 10 years after the fitting has been placed on the market.

Amendment

deleted

Amendment 63

Proposal for a regulation
Article 7 – paragraph 4 – subparagraph 1

Text proposed by the Commission

Manufacturers shall ensure that procedures are in place for series production to remain in conformity. Changes in appliance or fitting design or characteristics and changes in the harmonised standards or in other technical specifications by reference to which the conformity of the appliance or the fitting is declared shall be adequately taken into account.

Amendment

Manufacturers shall ensure that procedures are in place for series production to remain in conformity with this Regulation. Changes in appliance or fitting design or characteristics and changes in the harmonised standards or in other technical specifications by reference to which the conformity of the appliance or the fitting is declared shall be adequately taken into account.

Amendment 64

Proposal for a regulation
Article 7 – paragraph 4 – subparagraph 2

Text proposed by the Commission

When deemed appropriate with regard to the risks presented by an appliance or a fitting, manufacturers shall, to protect the

Amendment

When deemed appropriate with regard to the risks presented by an appliance or a fitting, manufacturers shall, to protect the
health and safety of consumers and other end-users, carry out sample testing of the appliance made available on the market, investigate, and, if necessary, keep a register of complaints of non-conforming appliances and fittings, and recalls of such appliances, and shall keep distributors informed of any such monitoring.

Amendment 65

Proposal for a regulation
Article 7 – paragraph 5 – subparagraph 1

Text proposed by the Commission
Manufacturers shall ensure that their appliances or fittings bear a type, batch or serial number or other element allowing their identification.

Amendment
Manufacturers shall ensure that their appliances or fittings bear a type, batch or serial number or other element allowing their identification and the inscriptions provided for in Annex IV.

Amendment 66

Proposal for a regulation
Article 7 – paragraph 5 – subparagraph 2

Text proposed by the Commission
Where the size or nature of the appliance or the fitting does not allow it, manufacturers shall ensure that the required information is provided on the packaging.

Amendment
Where the size or nature of the appliance or the fitting does not allow it, manufacturers shall ensure that the required information is provided on the packaging or in a document accompanying the appliance or the fitting.

Amendment 67

Proposal for a regulation
Article 7 – paragraph 6 – subparagraph 1

Text proposed by the Commission
Manufacturers shall indicate their name, health and safety of consumers and other users, carry out sample testing of the appliance or the fitting made available on the market, investigate, and, if necessary, keep a register of complaints of non-conforming appliances and fittings, and recalls of such appliances and fittings, and shall keep distributors informed of any such monitoring.

Amendment
Manufacturers shall indicate on the
registered trade name or registered trade mark, the postal address at which they can be contacted on the appliance or, where that is not possible, on the packaging and in the instructions accompanying the appliance. The address must indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by consumers and other users and the market surveillance authorities as determined by the Member State concerned.

Amendment 68

Proposal for a regulation
Article 7 – paragraph 6 – subparagraph 2

Text proposed by the Commission

Manufacturers shall indicate their name, registered trade name or registered trade mark, the postal address at which they can be contacted on the fitting or, where that is not possible, on the packaging and in the instructions accompanying the fitting. The address must indicate a single point at which the manufacturer can be contacted.

Amendment

Manufacturers shall indicate on the fitting their name, registered trade name or registered trade mark, the postal address at which they can be contacted or, where that is not possible, on the packaging or in a document accompanying the fitting. The address shall indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by appliance manufacturers and the market surveillance authorities.

Amendment 69

Proposal for a regulation
Article 7 – paragraph 7 – subparagraph 1

Text proposed by the Commission

The address must indicate a single point at which the manufacturer can be contacted. Manufacturers shall ensure that the appliance is accompanied by instructions and safety information in accordance with

Amendment

The address must indicate a single point at which the manufacturer can be contacted. Manufacturers shall ensure that the appliance or the fitting is accompanied by instructions and safety information in
point 1.5 of Annex I, in a language which can be easily understood by consumers and other end-users, as determined by the Member State concerned. Such instructions and safety information shall be clear, understandable and intelligible.

Amendment 70

Proposal for a regulation
Article 7 – paragraph 7 – subparagraph 2

Text proposed by the Commission

Manufacturers shall ensure that the fitting is accompanied by the Fitting conformity certificate containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by appliance manufacturers. The instructions shall be clear, understandable and intelligible.

Amendment

Manufacturers shall ensure that the fitting is accompanied by a copy of the EU declaration of conformity containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by appliance manufacturers, as determined by the Member State concerned.

However, where a large number of fittings are delivered to a single user, the batch or consignment concerned may be accompanied by a single copy of the EU declaration of conformity.

Amendment 71

Proposal for a regulation
Article 7 – paragraph 7 – subparagraph 2

Text proposed by the Commission

Manufacturers shall ensure that the fitting is accompanied by the Fitting conformity certificate containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by appliance manufacturers.

Amendment

Manufacturers shall ensure that the fitting is accompanied by instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by
language which can be easily understood by appliance manufacturers. The instructions shall be clear, understandable and intelligible. appliance manufacturers, as determined by the Member State concerned. However, where a large number of fittings are delivered to a single user, the batch or consignment concerned may be accompanied by a sole issue of the instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I.

Amendment 72
Proposal for a regulation
Article 8 – paragraph 1 – subparagraph 2

Text proposed by the Commission

The obligations laid down in Article 7(1) and the drawing up of technical documentation shall not form part of the authorised representative's mandate.

Amendment

The obligations laid down in Article 7(1) and the obligation to draw up technical documentation shall not form part of the authorised representative's mandate.

Amendment 73
Proposal for a regulation
Article 8 – paragraph 2 – point a

Text proposed by the Commission

(a) keep the EU declaration of conformity and the technical documentation at the disposal of national surveillance authorities for 10 years after the appliance has been placed on the market;

Amendment

(a) keep the EU declaration of conformity and the technical documentation at the disposal of national surveillance authorities for 10 years after the appliance or the fitting has been placed on the market;

Amendment 74
Proposal for a regulation
Article 8 – paragraph 2 – point b

Text proposed by the Commission

(b) keep the Fitting conformity certificate and the technical documentation at the disposal of national surveillance deleted

authorities for 10 years after the fitting has been placed on the market;

Justification

fittings will be CE marked so no need for Fitting conformity certificate

Amendment 75

Proposal for a regulation
Article 9 – paragraph 2 – subparagraph 1

Text proposed by the Commission

Before placing an appliance on the market, importers shall ensure that the appropriate conformity assessment procedure in accordance with Article 14 has been carried out by the manufacturer. They shall ensure that the manufacturer has drawn up the technical documentation, that the appliance bears the CE marking and is accompanied by instructions and safety information in accordance with point 1.5 of Annex I, and that the manufacturer has complied with the requirements set out in Article 7(5) and (6) respectively.

Amendment

Before placing an appliance on the market, importers shall ensure that the appropriate conformity assessment procedure referred to in Article 14 has been carried out by the manufacturer. They shall ensure that the manufacturer has drawn up the technical documentation, that the appliance bears the CE marking and is accompanied by instructions and safety information in accordance with point 1.5 of Annex I, and that the manufacturer has complied with the requirements set out in Article 7(5) and (6) respectively.

Amendment 76

Proposal for a regulation
Article 9 – paragraph 2 – subparagraph 2

Text proposed by the Commission

Before placing a fitting on the market, importers shall ensure that the appropriate conformity assessment procedure in accordance with Article 14 has been carried out by the manufacturer. They shall ensure that the manufacturer has drawn up the technical documentation, that the fitting is accompanied by the Fitting conformity certificate containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in

Amendment

Before placing a fitting on the market, importers shall ensure that the appropriate conformity assessment procedure referred to in Article 14 has been carried out by the manufacturer. They shall ensure that the manufacturer has drawn up the technical documentation, that the fitting bears the CE marking and is accompanied by instructions for incorporation or assembly, adjustment, operation and maintenance in
adjustment, operation and maintenance in accordance with point 1.7 of Annex I, and that the manufacturer has complied with the requirements set out in Article 7(5) and (6) respectively.

Pursuant to Article 18, importers shall ensure that the CE marking is affixed to any packaging and instructions accompanying the fitting where it is not possible or warranted for the fitting to bear the CE marking.

Amendment 77

Proposal for a regulation
Article 9 – paragraph 3 – subparagraph 1

Text proposed by the Commission

Importers shall indicate their name, registered trade name or registered trade mark and the postal address at which they can be contacted on the appliance or where that is not possible, on its packaging and in the instructions accompanying the appliance. The contact details shall be in a language easily understood by consumers and other end-users and of the market surveillance authorities as determined by the Member State concerned.

Amendment

Importers shall indicate on the appliance their name, registered trade name or registered trade mark and the postal address at which they can be contacted or where that is not possible, on its packaging or in a document accompanying the appliance. The contact details shall be in a language easily understood by consumers and other end-users and the market surveillance authorities.

Amendment 78

Proposal for a regulation
Article 9 – paragraph 3 – subparagraph 2

Text proposed by the Commission

Importers shall indicate their name, registered trade name or registered trade mark and the postal address at which they can be contacted on the fitting or where that is not possible, on its packaging. The contact details shall be in a language easily understood by appliance manufacturers and the market surveillance authorities as determined by the Member State

Amendment

Importers shall indicate on the fitting their name, registered trade name or registered trade mark and the postal address at which they can be contacted, or where that is not possible, on its packaging or in a document accompanying the fitting. The contact details shall be in a language easily understood by appliance manufacturers and
concerned.

the market surveillance authorities.

Amendment 79
Proposal for a regulation
Article 9 – paragraph 4 – subparagraph 2

Text proposed by the Commission

Importers shall ensure that the fitting is accompanied by the Fitting conformity certificate containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by appliance manufacturers, as determined by the Member State concerned.

Amendment

Importers shall ensure that the fitting is accompanied by a copy of the EU declaration of conformity containing, amongst others, instructions for incorporation or assembly, adjustment, operation and maintenance in accordance with point 1.7 of Annex I, in a language which can be easily understood by appliance manufacturers, as determined by the Member State concerned.

Amendment 80
Proposal for a regulation
Article 9 – paragraph 5

Text proposed by the Commission

(5) Importers shall ensure that, while an appliance or a fitting is under their responsibility, storage or transport conditions do not jeopardise their compliance with the requirements set out in Annex I.

Amendment

(5) Importers shall ensure that, while an appliance or a fitting is under their responsibility, storage or transport conditions do not jeopardise their compliance with the essential requirements set out in Annex I.

Amendment 81

Amendment 110
Proposal for a regulation
Article 27 – paragraph 6

Text proposed by the Commission

(6) The Commission and the other Member States shall be notified of any subsequent relevant changes to the notification.

Amendment

(6) The notifying authority shall notify the Commission and the other Member States of any subsequent relevant changes to the notification.

Amendment 111
Proposal for a regulation
Article 28 – paragraph 2 – subparagraph 1

Text proposed by the Commission

The Commission shall make publicly available the list of the notified bodies under this Regulation, including the identification numbers that have been allocated to them and the activities for which they have been notified.

Amendment

The Commission shall make publicly available the list of the notified bodies under this Regulation, including the identification numbers that have been assigned to them and the activities for which they have been notified.

Amendment 112
Proposal for a regulation
Article 28 – paragraph 2 – subparagraph 2

Text proposed by the Commission

The Commission shall ensure that that list is kept up to date.

Amendment

The Commission shall ensure that the list is kept up to date.
Amendment 113
Proposal for a regulation
Article 30 – paragraph 4 – subparagraph 2

Text proposed by the Commission
The implementing act referred to in the first subparagraph shall be adopted in accordance with the advisory procedure referred to in Article 36(2).

Amendment
That implementing act shall be adopted in accordance with the advisory procedure referred to in Article 36(2).

Amendment 114
Proposal for a regulation
Article 31 – paragraph 3

Text proposed by the Commission
(3) Where a notified body finds that essential requirements set out in Annex I or corresponding harmonised standards or other technical specifications have not been met by a manufacturer, it shall require that manufacturer to take appropriate corrective measures and shall not issue a conformity certificate.

Amendment
(3) Where a notified body finds that the essential requirements set out in Annex I or corresponding harmonised standards or other technical specifications have not been met by a manufacturer, it shall require that manufacturer to take appropriate corrective measures and shall not issue a conformity certificate or approval decision.

Amendment 115
Proposal for a regulation
Article 31 – paragraph 4

Text proposed by the Commission
(4) Where, in the course of the monitoring of conformity following the issue of a certificate, a notified body finds that an appliance or a fitting no longer complies, it shall require the manufacturer to take appropriate corrective measures and shall suspend or withdraw the certificate if necessary.

Amendment
(4) Where, in the course of the monitoring of conformity following the issue of a certificate or approval decision, a notified body finds that an appliance or a fitting no longer complies, it shall require the manufacturer to take appropriate corrective measures and shall suspend or withdraw the certificate if necessary.
Amendment 116
Proposal for a regulation
Article 31 – paragraph 5

*Text proposed by the Commission*

(5) Where corrective measures are not taken or do not have the required effect, the notified body shall restrict, suspend or withdraw any certificates, as appropriate.

*Amendment*

(5) Where corrective measures are not taken or do not have the required effect, the notified body shall restrict, suspend or withdraw any certificates or approval decision, as appropriate.

**Article 35a**

Union market surveillance and control of appliances and fittings entering the Union
Article 15(3) and Articles 16 to 29 of Regulation (EC) No 765/2008 shall apply to appliances and fittings covered by this Regulation.

Amendment 120

Proposal for a regulation
Article 35 b (new)

Text proposed by the Commission

Article 35b
Procedure for dealing with appliances or fittings presenting a risk at national level

1. Where the market surveillance authorities of one Member State have sufficient reason to believe that an appliance or fitting covered by this Regulation presents a risk to the health or safety of persons or to domestic animals or property, they shall carry out an evaluation in relation to the appliance or fitting concerned covering all relevant requirements laid down in this Regulation. The relevant economic operators shall cooperate as necessary with the market surveillance authorities for that purpose.

Where, in the course of the evaluation referred to in the first subparagraph, the market surveillance authorities find that the appliance or fitting does not comply with the requirements laid down in this Regulation, they shall without delay require the relevant economic operator to take all appropriate corrective actions to bring the appliance or fitting into compliance with those requirements, to withdraw the appliance or fitting from the market, or to recall it within a reasonable period, commensurate with the nature of the risk, as they may prescribe.
The market surveillance authorities shall inform the relevant notified body accordingly.

Article 21 of Regulation (EC) No 765/2008 shall apply to the measures referred to in the second subparagraph of this paragraph.

2. Where the market surveillance authorities consider that non-compliance is not restricted to their national territory, they shall inform the Commission and the other Member States of the results of the evaluation and of the actions which they have required the economic operator to take.

3. The economic operator shall ensure that all appropriate corrective action is taken in respect of all the appliances and fittings concerned that he has made available on the market throughout the Union.

4. Where the relevant economic operator does not take adequate corrective action within the period referred to in the second subparagraph of paragraph 1, the market surveillance authorities shall take all appropriate provisional measures to prohibit or restrict the appliances or fittings being made available on their national market, to withdraw the appliance or fitting from that market or to recall it.

The market surveillance authorities shall inform the Commission and the other Member States, without delay, of those measures.

5. The information referred to in the second subparagraph of paragraph 4 shall include all available details, in particular the data necessary for the identification of the non-compliant appliance or fitting, the origin of the appliance or fitting, the nature of the non-compliance alleged and the risk involved, the nature and duration of the national
measures taken and the arguments put forward by the relevant economic operator. In particular, the market surveillance authorities shall indicate whether the non-compliance is due to either of the following:

(a) Failure of the appliance or fitting to meet requirements relating to the health or safety of persons or to the protection of domestic animals or property; or

(b) Shortcomings in the harmonised standards referred to in Article 13 conferring a presumption of conformity.

6. Member States other than the Member State initiating the procedure under this Article shall without delay inform the Commission and the other Member States of any measures adopted and of any additional information at their disposal relating to the non-compliance of the appliance or fitting concerned, and, in the event of disagreement with the adopted national measure, of their objections.

7. Where, within three months of receipt of the information referred to in the second subparagraph of paragraph 4, no objection has been raised by either a Member State or the Commission in respect of a provisional measure taken by a Member State, that measure shall be deemed justified.

8. Member States shall ensure that appropriate restrictive measures, such as withdrawal of the appliance or fitting from the market, are taken in respect of the appliance or fitting concerned without delay.

Justification

Article 35b [Article R31 of Decision No 768/2008/EC] - Procedure for dealing with products presenting a risk at national level
Amendment 121

Proposal for a regulation
Article 35 c (new)

Text proposed by the Commission

Amendment

Article 35c

Union safeguard procedure

1. Where, on completion of the procedure set out in Article 35b(3) and (4), objections are raised against a measure taken by a Member State, or where the Commission considers a national measure to be contrary to Union legislation, the Commission shall without delay enter into consultation with the Member States and the relevant economic operator or operators and shall evaluate the national measure. On the basis of the results of that evaluation, the Commission shall decide whether the national measure is justified or not.

The Commission shall address its decision to all Member States and shall immediately communicate it to them and the relevant economic operator or operators.

2. If the national measure is considered justified, all Member States shall take the necessary measures to ensure that the non-compliant appliance or fitting is withdrawn from their market, and shall inform the Commission accordingly. If the national measure is considered unjustified, the Member State concerned shall withdraw that measure.

3. Where the national measure is considered justified and the non-compliance of the appliance or fitting is attributed to shortcomings in the harmonised standards referred to in point (b) of Article 35b(5) of this Regulation, the Commission shall apply the procedure provided for in Article 11 of Regulation
(EU) No 1025/2012.

Justification

Article 35c [Article R32 of Decision No 768/2008/EC] - Community safeguard procedure

Amendment 122

Proposal for a regulation
Article 35d (new)

Text proposed by the Commission

Amendment

Article 35d

Compliant appliances or fittings which present a risk

1. Where, having carried out an evaluation under Article 35b(1), a Member State finds that although an appliance or fitting is in compliance with this Regulation, it presents a risk to the health or safety of persons or to domestic animals or property, it shall require the relevant economic operator to take all appropriate measures to ensure that the appliance or fitting concerned, when placed on the market, no longer presents that risk, to withdraw the appliance or fitting from the market or to recall it within a reasonable period, commensurate with the nature of the risk, as it may prescribe.

2. The economic operator shall ensure that corrective action is taken in respect of all the appliances or fittings concerned that he has made available on the market throughout the Union.

3. The Member State shall immediately inform the Commission and the other Member States. That information shall include all available details, in particular the data necessary for the identification of the appliance or fitting concerned, the origin and the supply chain of the appliance or fitting, the nature of the risk.
involved and the nature and duration of the national measures taken.

4. The Commission shall without delay enter into consultation with the Member States and the relevant economic operator or operators and shall evaluate the national measures taken. On the basis of the results of that evaluation, the Commission shall decide whether the national measure is justified or not and, where necessary, propose appropriate measures.

5. The Commission shall address its decision to all Member States and shall immediately communicate it to them and the relevant economic operator or operators.

Justification

Article 35d [Article R33 of Decision No 768/2008/EC] - Compliant products which present a risk to health and safety

Amendment 123

Proposal for a regulation

Article 35e (new)

Text proposed by the Commission

Amendment

Article 35e

Formal non-compliance

1. Without prejudice to Article 35b, where a Member State makes one of the following findings, it shall require the relevant economic operator to put an end to the non-compliance concerned:

(a) the CE marking has been affixed to the appliance or the fitting in violation of Article 30 of Regulation (EC) No 765/2008 or of Article 18 of this Regulation or it has not been affixed;

(b) the inscriptions referred to in point 2 of Annex IV have not been affixed or
have been affixed in violation of Article 18;

(c) the identification number of the notified body involved in the production control phase has been affixed in violation of Article 18 or has not been affixed;

(d) the EU declaration of conformity has not been drawn up or has not been drawn up correctly;

(e) the EU declaration of conformity does not accompany the fitting;

(f) the technical documentation is either not available or not complete.

(g) the information referred to in Article 7(6) or Article 9(3) is absent, false or incomplete;

(h) any other administrative requirement provided for in Article 7 or Article 9 is not fulfilled.

2. Where the non-compliance referred to in paragraph 1 persists, the Member State concerned shall take all appropriate measures to restrict or prohibit the appliance or fitting being made available on the market or ensure that it is recalled or withdrawn from the market.

Justification

Article 35e [Article R34 of Decision No 768/2008/EC]- Formal non-compliance

Amendment

1.4.4. carry out appropriate examinations and tests, or have them carried out, to check whether, where the solutions in the relevant harmonised standards have not been applied, the solutions adopted by the manufacturer applying other relevant technical specifications meet the corresponding essential requirements of this Regulation;

Amendment 147

Proposal for a regulation
Annex III – part 1 – point 1.6 – paragraph 1

Text proposed by the Commission

1.6. Where the appliance or the fitting type meets the requirements of this Regulation, the notified body shall issue an EU-type examination certificate to the manufacturer. The certificate shall contain the name and address of the manufacturer, the conclusions of the examination, the conditions (if any) for its validity, the necessary data for identification of the approved type and, if relevant, descriptions of its functioning. The certificate may have one or more annexes attached.

Amendment

1.6. Where the appliance or the fitting type meets the requirements of this Regulation, the notified body shall issue an EU-type examination certificate to the manufacturer. The certificate shall contain the name and address of the manufacturer, the conclusions of the examination, the conditions (if any) for its validity, the necessary data for identification of the approved type, such as the type of gas, appliance category, gas supply pressure and, if relevant, descriptions of its functioning. The certificate may have one or more annexes attached.

Amendment 148

Proposal for a regulation
Annex III – part 1 – point 1.6 – paragraph 2

Text proposed by the Commission

The certificate and its annexes shall contain all relevant information to allow the conformity of manufactured appliances or fittings with the examined type to be

Amendment

The EU-type examination certificate and its annexes shall contain all relevant information to allow the conformity of manufactured appliances or fittings with
evaluated and to allow for in-service control.

the examined type to be evaluated and to allow for in-service control. It shall also indicate any conditions to which its issue may be subject and be accompanied by the descriptions and drawings necessary for identification of the approved type.

Amendment 149

Proposal for a regulation
Annex III – part 1 – point 1.6 – paragraph 3

Text proposed by the Commission

The certificate shall have a maximum validity period of ten years from the date of its issue. Where the type does not satisfy the applicable requirements of this Regulation, the notified body shall refuse to issue an EU-type examination certificate and shall inform the applicant accordingly, giving detailed reasons for its refusal.

Amendment

Where the type does not satisfy the applicable requirements of this Regulation, the notified body shall refuse to issue an EU-type examination certificate and shall inform the applicant accordingly, giving detailed reasons for its refusal.

Justification

The aim of the model type certification is to verify that the essential requirements have been fulfilled. As the conformity procedure itself is not being altered, introducing an expiration date for certificates is redundant. In particular, additionally to the certification procedure, a product, is being subjected to regular product surveillance when placed on the market for the first time and every following year. This will not be altered with the regulation.

Amendment 150

Proposal for a regulation
Annex III – part 1 – point 1.8 – paragraph 1

Text proposed by the Commission

1.8. Each notified body shall inform its notifying authorities and the other notified bodies concerning the EU-type examination certificates and/or any additions thereto which it has issued.

Amendment

1.8. Each notified body shall inform its notifying authority concerning the EU-type examination certificates and/or any additions thereto which it has issued or withdrawn, and shall, periodically or upon request, make available to its notifying authority the list of such
certificates and/or any additions thereto refused, suspended or otherwise restricted.

Amendment 151

Proposal for a regulation
Annex III – part 1 – point 1.8 – paragraph 2

Text proposed by the Commission

The notified body which refuses to issue or withdraws, suspends or otherwise restricts an EU type-examination certificate shall inform its notifying authorities and the other notified bodies accordingly, giving the reasons for its decision.

Amendment

Each notified body shall inform the other notified bodies concerning the EU-type examination certificates and/or any additions thereto which it has refused, withdrawn, suspended or otherwise restricted, and, upon request, concerning such certificates and/or additions thereto which it has issued.

Amendment 152

Proposal for a regulation
Annex 3 – part 2 – point 2.1

Text proposed by the Commission

2.1. Conformity to type based on internal production control plus supervised appliance or fitting checks at random intervals is the part of a conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 2.2 and 2.3 and point 2.4 or 2.5, and ensures and declares on his sole responsibility that the appliances or the fittings concerned are in conformity with the type described in the EU-type examination certificate and satisfy the requirements of this Regulation.

Amendment

2.1. Conformity to type based on internal production control plus supervised appliance or fitting checks at random intervals is the part of a conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 2.2 and 2.3 and point 2.4 or 2.5, and ensures and declares on his sole responsibility that the appliances or the fittings concerned are in conformity with the type described in the EU-type examination certificate and satisfy the requirements of this Regulation that apply to them.
Amendment 153

Proposal for a regulation
Annex III – part 2 – point 2.2 – paragraph 1

**Text proposed by the Commission**

The manufacturer shall take all measures necessary so that the manufacturing process and its monitoring ensure conformity of the manufactured appliances or fittings with the type described in the EU-type examination certificate and with the requirements of this Regulation.

**Amendment**

The manufacturer shall take all measures necessary so that the manufacturing process and its monitoring ensure conformity of the manufactured appliances or fittings with the type described in the EU-type examination certificate and with the requirements of this Regulation **that apply to them**.

Amendment 154

Annex III – part 2 – point 2.3 – title

**Text proposed by the Commission**

2.3. **Appliance or fitting** checks

**Amendment**

2.3. **Product** checks

Amendment 155

Proposal for a regulation
Annex III – part 2 – point 2.3 – paragraph 1

**Text proposed by the Commission**

A notified body, chosen by the manufacturer, shall carry out **appliance or fitting** checks or have them carried out at intervals of one year or less, in order to verify the quality of the internal checks on the appliance, taking into account, inter alia, the technological complexity of the appliances or the fittings and the quantity of production. An adequate sample of the final appliances or fittings taken on site by the notified body before the placing on the market, shall be examined and appropriate tests as identified by the relevant parts of the harmonised standards and/or **technical**

**Amendment**

A notified body, chosen by the manufacturer, shall carry out **product** checks or have them carried out at intervals of one year or less, in order to verify the quality of the internal checks on the appliance, taking into account, inter alia, the technological complexity of the appliances or the fittings and the quantity of production. An adequate sample of the final appliances or fittings taken on site by the notified body before the placing on the market, shall be examined and appropriate tests as identified by the relevant parts of the harmonised standards and/or
specifications, or equivalent tests, shall be carried out in order to check the conformity of the appliance or the fitting with the relevant requirements of this Regulation. Where a sample does not conform to the acceptable quality level, the notified body shall take appropriate measures to prevent the placing on the market of the concerned appliances or fittings.

equivalent tests set out in other relevant technical specifications, shall be carried out in order to check the conformity of the appliance or the fitting with the relevant requirements of this Regulation. Where a sample does not conform to the acceptable quality level, the notified body shall take appropriate measures.

Amendment 156

Proposal for a regulation
Annex III – part 2 – point 2.4 – point 2.4.1

Text proposed by the Commission

2.4.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV to each individual appliance that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment

2.4.1. The manufacturer shall affix the CE marking to each individual appliance or fitting that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment 157

Proposal for a regulation
Annex III – part 2 – point 2.4 – point 2.4.2 – paragraph 1

Text proposed by the Commission

2.4.2. The manufacturer shall draw up a written EU declaration of conformity for an appliance model and keep it at the disposal of the national authorities for 10 years after the appliance has been placed on the market. The EU declaration of conformity shall identify the appliance model for which it has been drawn up.

Amendment

2.4.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance or fitting model and keep it at the disposal of the national authorities for 10 years after the appliance or fitting has been placed on the market. The EU declaration of conformity shall identify the appliance or fitting model for which it has been drawn up.
Amendment 158

Proposal for a regulation
Annex III – part 2 – point 2.5

Text proposed by the Commission

2.5. Fitting conformity certificate

Amendment

deleted

2.5.1. The manufacturer shall affix the inscriptions provided for in point 3 of Annex IV to each individual fitting that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

2.5.2. The manufacturer shall draw up a written Fitting conformity certificate for a fitting model and keep it at the disposal of the national authorities for 10 years after the fitting has been placed on the market. The Fitting conformity certificate shall identify the fitting model for which it has been drawn up and shall accompany the fitting.

Justification

Fittings will be CE marked so no need for Fitting conformity certificate

Amendment 159

Proposal for a regulation
Annex III – part 2 – point 2.6 – paragraph 1

Text proposed by the Commission

The manufacturer's obligations set out in point 2.4 or 2.5 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.

Amendment

The manufacturer's obligations set out in point 2.4 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.
Amendment 160
Proposal for a regulation
Annex III – part 3 – point 3.2 – paragraph 1

Text proposed by the Commission
The manufacturer shall operate an approved quality system for production, final instrument inspection and testing of the appliances or fittings concerned as specified in point 3.3, and shall be subject to surveillance as specified in point 3.4.

Amendment
The manufacturer shall operate an approved quality system for production, final product inspection and testing of the appliances or fittings concerned as specified in point 3.3, and shall be subject to surveillance as specified in point 3.4.

Amendment 161
Proposal for a regulation
Annex III – part 3 – point 3.3 – point 3.3.3 – paragraph 1

Text proposed by the Commission
3.3.3. The notified body shall assess the quality system to determine whether it satisfies the requirements referred to in point 3.2.

Amendment
3.3.3. The notified body shall assess the quality system to determine whether it satisfies the requirements referred to in point 3.3.2.

Amendment 162
Proposal for a regulation
Annex III – part 3 – point 3.3 – point 3.3.3 – paragraph 2

Text proposed by the Commission
It shall presume conformity with those requirements in respect of the elements of the quality system that comply with the corresponding specifications of the national standard that implements the relevant harmonised standard and/or technical specifications.

Amendment
It shall presume conformity with those requirements in respect of the elements of the quality system that comply with the corresponding specifications of relevant harmonised standard.

Amendment 163
Proposal for a regulation
Annex III – part 3 – point 3.5 – point 3.5.1
Text proposed by the Commission

3.5.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV, and, under the responsibility of the notified body referred to in point 3.3.1, the latter's identification number to each individual appliance that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment

164

Proposal for a regulation
Annex III – part 3 – point 3.5 – point 3.5.2 – paragraph 1

Text proposed by the Commission

3.5.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance and keep it at the disposal of the national authorities for 10 years after the appliance has been placed on the market. The EU declaration of conformity shall identify the appliance model for which it has been drawn up.

Amendment

165

Proposal for a regulation
Annex III – part 3 – point 3.6

Text proposed by the Commission

3.6. Fitting conformity certificate deleted

Amendment

3.6. The manufacturer shall draw up a written EU declaration of conformity for each appliance or fitting and keep it at the disposal of the national authorities for 10 years after the appliance or fitting has been placed on the market. The EU declaration of conformity shall identify the appliance or fitting model for which it has been drawn up.

3.6.1. The manufacturer shall affix the inscriptions provided for in point 3 of Annex IV and, under the responsibility of the notified body referred to in point 3.3.1, the latter's identification number to each individual fitting that is in conformity
with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

3.6.2. The manufacturer shall draw up a written Fitting conformity certificate for a fitting and keep it at the disposal of the national authorities for 10 years after the fitting has been placed on the market. The Fitting conformity certificate shall identify the fitting model for which it has been drawn up and shall accompany the fitting.

Justification

Fittings will be CE marked so no need for Fitting conformity certificate

Amendment 168
Proposal for a regulation
Annex III – part 3 – point 3.8 – paragraph 2

**Text proposed by the Commission**

Each notified body shall inform the other notified bodies of quality system approvals which it has refused, suspended, withdrawn or otherwise restricted, giving the reasons for its decision.

**Amendment**

Each notified body shall inform the other notified bodies of quality system approvals which it has refused, suspended, withdrawn or otherwise restricted, and, upon request, of quality system approvals which it has issued.

Amendment 169
Proposal for a regulation
Annex III – part 3 – point 3.9 – paragraph 1

**Text proposed by the Commission**

The manufacturer's obligations set out in points 3.3.1, 3.3.5 and point 3.5 or 3.6 and point 3.7 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.

**Amendment**

The manufacturer's obligations set out in points 3.3.1, 3.3.5, 3.5 and 3.7 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.

Amendment 170
Proposal for a regulation
Annex III – part 4 – point 4.3 – point 4.3.3 – paragraph 1

**Text proposed by the Commission**

It shall presume conformity with those requirements in respect of the elements of the quality system that comply with the corresponding specifications of the national standard that implements the relevant harmonised standard and/or technical specification.

**Amendment**

It shall presume conformity with those requirements in respect of the elements of the quality system that comply with the corresponding specifications of the relevant harmonised standard.
Amendment 171

Proposal for a regulation
Annex III – part 4 – point 4.5 – point 4.5.1

Text proposed by the Commission

4.5.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV and, under the responsibility of the notified body referred to in point 4.3.1, the latter's identification number to each individual appliance that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment

4.5.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV and, under the responsibility of the notified body referred to in point 4.3.1, the latter's identification number to each individual appliance or fitting that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment 172

Proposal for a regulation
Annex III – part 4 – point 4.5 – point 4.5.2 – paragraph 1

Text proposed by the Commission

4.5.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance model and keep it at the disposal of the national authorities for 10 years after the appliance has been placed on the market. The EU declaration of conformity shall identify the appliance model for which it has been drawn up.

Amendment

4.5.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance or fitting model and keep it at the disposal of the national authorities for 10 years after the appliance or fitting has been placed on the market. The EU declaration of conformity shall identify the appliance or fitting model for which it has been drawn up.

Amendment 173

Proposal for a regulation
Annex III – part 4 – point 4.6

Text proposed by the Commission

4.6. Fitting conformity certificate
deleted

4.6.1. The manufacturer shall affix the inscriptions provided for in point 3 of Annex IV and, under the responsibility of
the notified body referred to in point 4.3.1, the latter's identification number to each individual fitting that is in conformity with the type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

4.6.2. The manufacturer shall draw up a written Fitting conformity certificate for each fitting model and keep it at the disposal of the national authorities for 10 years after the fitting has been placed on the market. The Fitting conformity certificate shall identify the fitting model for which it has been drawn up and shall accompany the fitting.

Justification

fittings will be CE marked, no need for Fitting conformity certificate any longer

Amendment 176

Proposal for a regulation
Annex III – part 4 – point 4.9 – paragraph 1

Text proposed by the Commission

The manufacturer's obligations set out in points 4.3.1, 4.3.5 and 4.5 or 4.6 and point 4.7 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.

Amendment

The manufacturer's obligations set out in points 4.3.1, 4.3.5, 4.5 and 4.7 may be fulfilled by his authorised representative, on his behalf and under his responsibility, provided that they are specified in the mandate.

Amendment 177

Proposal for a regulation
Annex III – part 5 – point 5.1

5.1. Conformity to type based on appliance or fitting verification is the part of a conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 5.2, 5.5.1 and point 5.6 or 5.7, and ensures and declares on his sole responsibility that the appliances or fittings concerned, which have been subject to the provisions of point 5.3, are in conformity with the type described in the EU-type examination certificate and satisfy the requirements of this Regulation that apply to them.

Amendment 178

Proposal for a regulation
Annex III – part 5 – point 5.4 – point 5.4.1 – paragraph 1

5.1. Conformity to type based on appliance or fitting verification is the part of a conformity assessment procedure whereby the manufacturer fulfils the obligations laid down in points 5.2, 5.5.1 and 5.6, and ensures and declares on his sole responsibility that the appliances or fittings concerned, which have been subject to the provisions of point 5.3, are in conformity with the type described in the EU-type examination certificate and satisfy the requirements of this Regulation that apply to them.
Text proposed by the Commission

5.4.1. All appliances or fittings shall be individually examined and appropriate tests set out in the relevant harmonised standard(s) and/or technical specifications, or equivalent tests, shall be carried out in order to verify conformity with the approved type described in the EU-type examination certificate and with the appropriate requirements of this Regulation.

Amendment

5.4.1. All appliances or fittings shall be individually examined and appropriate tests set out in the relevant harmonised standard(s) and/or equivalent tests set out in other relevant technical specifications, shall be carried out in order to verify conformity with the approved type described in the EU-type examination certificate and with the appropriate requirements of this Regulation.

Amendment 179

Proposal for a regulation
Annex III – part 5 – point 5.5 – point 5.5.2

Text proposed by the Commission

5.5.2. A random sample shall be taken from each lot according to the requirements of this Regulation. All appliances or fittings in a sample shall be individually examined and appropriate tests set out in the relevant harmonised standard(s) and/or technical specifications, or equivalent tests, shall be carried out in order to ensure their conformity with the applicable requirements of this Regulation and to determine whether the lot is accepted or rejected. In the absence of such a harmonised standard, the notified body concerned shall decide on the appropriate tests to be carried out.

Amendment

5.5.2. A random sample shall be taken from each lot according to the requirements of this Regulation. All appliances or fittings in a sample shall be individually examined and appropriate tests set out in the relevant harmonised standard(s) and/or equivalent tests set out in other relevant technical specifications, shall be carried out in order to ensure their conformity with the applicable requirements of this Regulation and to determine whether the lot is accepted or rejected. In the absence of such a harmonised standard, the notified body concerned shall decide on the appropriate tests to be carried out.

Amendment 180

Proposal for a regulation
Annex 3 – part 5 – point 5.5 – point 5.5.2 a (new)
Text proposed by the Commission

5.5.2a. The notified body shall apply a sampling system with the following characteristics:

– a level of quality corresponding to a probability of acceptance of 95%, with a non-conformity percentage of between 0.5% and 1.5%;

– a limit quality corresponding to a probability of acceptance of 5% with a percentage of non-conformity of between 5% and 10%.

Amendment 181

Proposal for a regulation
Annex III – part 5 – point 5.6 – point 5.6.1

Text proposed by the Commission

5.6.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV and, under the responsibility of the notified body referred to in point 5.3, the latter's identification number to each individual appliance that is in conformity with the approved type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment

5.6.1. The manufacturer shall affix the CE marking and the inscriptions provided for in Annex IV and, under the responsibility of the notified body referred to in point 5.3, the latter's identification number to each individual appliance or fitting that is in conformity with the approved type described in the EU-type examination certificate and satisfies the applicable requirements of this Regulation.

Amendment 182

Proposal for a regulation
Annex III – part 5 – point 5.6 – point 5.6.2 – paragraph 1

Text proposed by the Commission

5.6.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance model and keep it at the disposal of the national authorities, for 10 years after the appliance has been placed

Amendment

5.6.2. The manufacturer shall draw up a written EU declaration of conformity for each appliance or fitting model and keep it at the disposal of the national authorities, for 10 years after the appliance or fitting
on the market. The EU declaration of conformity shall identify the appliance model for which it has been drawn up. has been placed on the market. The EU declaration of conformity shall identify the appliance or fitting model for which it has been drawn up.

Justification

Fittings will be CE marked, so no need for Fitting conformity certificate
EXPLANATORY STATEMENT

General observations

Your Rapporteur supports the proposal for a Regulation on appliances burning gaseous fuels which intends to replace Directive 2009/142/EC. This Directive is an example of Union harmonisation legislation, ensuring the free movement of gas appliances. It has contributed considerably to the completion and operation of the Single Market and it harmonises the conditions for the placing on the market and/or putting into service of appliance burning gaseous fuels covered within its scope with regard to gas safety risks and rational use of energy. Directive 2009/142/EC sets out essential requirements that appliances burning gaseous fuels must comply with in order to be made available on the EU market.

The gas sector plays an important role in the EU economy and employs 476 000 people in the gas appliances sector alone. Gas appliances cover a wide range of products, from simple portable cookers to boilers for big buildings and the current EU stock of gas appliances is at 470 million and growing, with more than 30 million units being sold annually.1

Legal instrument

Your Rapporteur is convinced that the change of legal instrument from a Directive to a Regulation is in line with the general political commitment to strive for better regulation and to simplify the regulatory environment. The proposed Regulation is based on Article 114 of the Treaty and aims to ensure the proper functioning of the internal market for gas appliances. It imposes clear and detailed rules which will become applicable in a uniform manner at the same time throughout the Union. In accordance with the total harmonisation principles, Member States are not allowed to impose more stringent or additional requirements in their national legislation for the placing on the market of gas appliances. In particular, the mandatory essential requirements and the conformity assessment procedures to be followed by manufacturers must be identical in all Member States.

The same applies with regard to the provisions that have been introduced as a result from the alignment to the New Legislative Framework (NLF) Decision. Those provisions are clear and sufficiently precise to be applied directly by the actors concerned. The obligations provided for the Member States, such as the obligation to assess, appoint and notify the conformity assessment bodies are, in any case, not transposed as such into national law but implemented by the Member States by means of the necessary regulatory and administrative arrangements. This will not change when the obligations concerned are set out in a Regulation.

Therefore, Member States have almost no flexibility in transposing a Directive into their national law. The choice of a Regulation will however allow them to save the costs associated with the transposition of a Directive. Furthermore, opting for a Regulation avoids the risk of diverging transposition which can lead to different levels of safety protection and distort the internal market. In this regard your Rapporteur wishes to point out that the issue of diverging transposition was identified as problem in the implementation Report of Directive 2000/9/EC.

**Consistency with the NLF**

Your Rapporteur supports the alignment of the provisions to the goods package adopted in 2008 and in particular to the Decision EC 768/2008 on a common framework for the marketing of products. The framework set out by the NLF consists of provisions which are commonly used in EU product legislation. Your Rapporteur wishes to continue the work of this committee following the adoption of nine proposals which together form the "Alignment Package". In this regard the draft Report strives to respect, where possible, the wording that was agreed between co-legislators during the previous legislature. After careful analysis of the proposal and a comprehensive comparison with the proposals of the "Alignment Package", your Rapporteur offers several amendments aiming to improve the consistency of the text with the NLF.

**Market surveillance**

Originally, it was foreseen that the provisions on market surveillance on appliances burning gaseous fuels would be addressed by the new Regulation on Market Surveillance (Proposal for a Regulation of 13 February 2013 (COM(2013) 75 final). As this proposal will most likely not be adopted in time, specific rules on market surveillance had to be inserted. Your Rapporteur therefore supports the inclusion of a new Chapter IVA (Articles 35, 35a to 35e) on Union Market Surveillance, Control of appliances and fittings entering the Union market and Union Safeguard Procedure, aligned to Articles R30 to R34 of Decision EC 768/2008.

**Consistency with other policies and objectives of the Union**

This initiative is in line with the Single Market Act, which stressed the need to ensure consumer confidence in the quality of products on the market and the importance of reinforcing market surveillance. It is consistent with the Union energy policy as it does not affect the application and implementation of Union legislation in the field of energy efficiency and renewable energy. It complements and is coherent with Union policy on energy supply and energy efficiency by not applying where more specific Union acts apply. Furthermore it supports the Commission’s policy on Better Regulation and simplification of the regulatory environment.

**Scope of the proposal**

The EC Impact Assessment stressed that despite the successful functioning of Directive 2009/142/EC, there was a broad consensus that it needed improvement, however without a change in its scope. The issues mainly related to simplifying the European regulation environment in the field of gas appliances and fittings, clarifying and aligning existing provisions.

Your Rapporteur believes the proposed text for the Regulation does tackle most of the abovementioned issues. However, your Rapporteur has introduced several amendments in order to strengthen the text from a point of view of consumer safety, adding amendments of precautionary measures that should be taken into consideration in order to avoid the poisoning
of people by carbon monoxide which is the leading cause of death in Europe, when relating to gas appliances.

**Fittings**

The proposal contains the typical provisions for product-related Union harmonisation legislation and sets out the obligations of the relevant economic operators (manufacturers, authorised representatives, importers and distributors), in accordance with the NLF Decision. According to Directive 2009/142/EC, fittings do not bear the CE marking.

However, your Rapporteur believes that fittings should satisfy the essential requirements so as to fulfil correctly their intended purpose when incorporated into an appliance or assembled to constitute such an appliance. With a view to simplification and in order to avoid any confusion and misunderstanding for manufacturers in implementation of their obligations, it is considered justified that also fittings should bear the CE marking. Necessary changes were introduced throughout the text in the form of amendments, thus aligning the text where necessary with Regulation 765/2008/EC on requirements for accreditation and market surveillance relating to the marketing of products. Your Rapporteur also deems necessary that a copy of the EU declaration of conformity shall be supplied with an appliance and/or a fitting.
