Report
Sirpa Pietikäinen
Resource efficiency: moving towards a circular economy

Motion for a resolution
Paragraph 60

Motion for a resolution

60. Calls on the Commission to propose compulsory green public procurement procedures; considers that reused, repaired, remanufactured, refurbished and other sustainable and resource-efficient products and solutions are to be preferred in all public procurement, and if they are not preferred, the ‘comply or explain’ principle should apply;

Amendment

60. Calls on the Commission to propose sector-specific green public procurement requirements for new product categories in addition to the existing mandatory rules applying to energy efficiency and clean transport and to further develop criteria for green public procurement in conformity with a circular economy; underlines that green public procurement can make an important contribution to sustainable consumption and production and urges public authorities to make full use of this instrument;
