

**Amendment 11**

**Krišjānis Kariņš, Andreas Schwab, Henna Virkkunen, Philippe Juvin**  
on behalf of the PPE Group

**Report**

**Kaja Kallas, Evelyne Gebhardt**  
Towards a Digital Single Market Act  
2015/2147(INI)

**A8-0371/2015****Motion for a resolution****Paragraph 125***Motion for a resolution*

125. Calls on the Commission and Member States to renew their commitment to the EU 2020 strategy's research and innovation targets as building blocks of a competitive Digital Single Market, economic growth and job creation, with a comprehensive approach to Open Science, Open innovation, Open data and knowledge transfer; considers that this should include a revised legal framework for text and data mining for scientific research purposes, the increased use of free and open source software, particularly in educational establishments and public administrations, and easier access for SMEs and start-ups to Horizon 2020 funding adapted to the short innovation cycles of the ICT sector; stresses in this respect the importance of all relevant initiatives, from public-private partnerships and innovation clusters to European technology and science parks, notably in less industrialised European regions, and accelerator programmes for start-ups and joint technology platforms, as well as the ability to **obtain licences for** standard-essential patents, within the restraints of EU competition law, under FRAND licensing terms, in order to preserve R&D and standardisation incentives and foster innovation;

*Amendment*

125. Calls on the Commission and Member States to renew their commitment to the EU 2020 strategy's research and innovation targets as building blocks of a competitive Digital Single Market, economic growth and job creation, with a comprehensive approach to Open Science, Open innovation, Open data and knowledge transfer; considers that this should include a revised legal framework for text and data mining for scientific research purposes, the increased use of free and open source software, particularly in educational establishments and public administrations, and easier access for SMEs and start-ups to Horizon 2020 funding adapted to the short innovation cycles of the ICT sector; stresses in this respect the importance of all relevant initiatives, from public-private partnerships and innovation clusters to European technology and science parks, notably in less industrialised European regions, and accelerator programmes for start-ups and joint technology platforms, as well as the ability to **license** standard-essential patents **effectively**, within the restraints of EU competition law, under FRAND licensing terms, in order to preserve R&D and standardisation incentives and foster innovation;
