A8-0254/2016

Motion for a resolution

Paragraph 9

Motion for a resolution

9. Recalls that the universal service must evolve in response to the technical, economic and social environment and to the needs of users, and that the Postal Services Directive provides Member States with the flexibility necessary to address local specificities and to ensure the long-term sustainability of universal service provision;

Amendment

9. Recalls that the universal service must evolve in response to the technical, economic and social environment and to the needs of users, and that the Postal Services Directive provides Member States with the flexibility necessary to address local specificities and to ensure the long-term sustainability of universal service provision; ***considers that high-quality universal service goes hand in hand with high-quality employment;***

Application of the Postal Services Directive
2016/2010(INI)

Motion for a resolution**Paragraph 17***Motion for a resolution**Amendment*

17. Calls on the *Commission* to *improve* the present definition of universal service in order to *stipulate* a minimum guaranteed level of service for consumers, to make the USO fit for evolving markets, to take into account market changes in different Member States and to foster economic growth and social cohesion; maintains, however, given that each market has its own specific constraints, that operators should be allowed a measure of flexibility in organising the universal service; calls on the Member States to implement licensing procedures according to the current Directive and further harmonise licensing and/or notification procedures in order to reduce unjustified barriers to entry into the internal market, without creating any unnecessary administrative burdens;

17. Calls on the *Member States* to *fully respect* the present definition of universal service in order to *ensure* a minimum guaranteed level of service for consumers, to make the USO fit for evolving markets, to take into account market changes in different Member States and to foster economic growth and social cohesion; maintains, however, given that each market has its own specific constraints, that operators should be allowed a measure of flexibility in organising the universal service; calls on the Member States to implement licensing procedures according to the current Directive and further harmonise licensing and/or notification procedures in order to reduce unjustified barriers to entry into the internal market, without creating any unnecessary administrative burdens;
