82. Insists on the importance of the MFF for sectors relying on long-term investment, such as the sustainable transport sector; ***highlights that transport infrastructure is the backbone of the single market and the basis for sustainable growth and job creation; notes that accomplishing a single European transport area connected to neighbouring countries requires major transport infrastructure and must be treated as a key priority in terms of the EU's competitiveness and for economic, social and territorial cohesion, including for peripheral and island areas; considers, therefore, that the next MFF should provide for sufficient funding for projects that contribute in particular to the completion of the TEN-T core network and its corridors, which should be further extended;*** recalls the goals set by COP 21 with regard to transport in order to combat climate change, and encourages Member States to invest in smart, sustainable and integrated public transport;
